UTILITY INQUIRY DENIALS VOICED

Two Witnesses Questioned on
Their Activities

Untruths in Letter Admitted
by Kentucky Man

Washington School Leader
Assaults Charges

WASHINGTON, Oct. 24. (P)—Two witnesses were heard today in the Federal Trade Commission's power utilities investigation, one testifying that he had written untruths about his contacts with Louisville, Ky., editors in a letter previously introduced. The other denied that she, as superintendent of public instruction in Washington State, had circulated propaganda favorable to private utility interests in the schools of the State.

Robert Montgomery, sales manager of the Louisville Gas and Electric Company, identified a letter written by him last February to George P. Oxley, publicity director for the National Electric Light Association.

TRUTH DENIED
"I personally keep the editorial departments informed on all matters of importance to the industry at large, such as the Boulder Dam controversy, the Walsh resolution, etc.," it said. Examined by Robert E. Hines, commission counsel, the witness said the statement was not true. He accounted for it by saying that the assertion, along with others, had been made in an effort to convince Oxley that a public relations bureau was not needed in Kentucky.

Mrs. Josephine Corlies Preston of Seattle denounced charges that she had used her office to circulate propaganda in the schools. She testified that the payment to her of \$150 by the Washington Industries Bureau was for expenses incurred in visiting educational matters dealing with utility subjects, and that no money had been received by her from utility concerns at any time on any account.

FORMAL STATEMENT
The school superintendent said she appeared voluntarily "because of misrepresentations and accusations involving the use of certain industrial monograms by some of the teachers, some of the teacher-training institutions and the alleged spreading of pernicious propaganda in the public schools," she added. "I have sought this opportunity to make a formal and emphatic denial of these charges and brand them as made with malicious intent."

To date, more than 4000 documents have been put into the record in the investigation. The great majority of these deal only with the publicity phase of the investigation, which now has covered all States save California.

BRAZIL WILL
HUNT WHITE
INDIAN TRIBE

Traditional Group Located
in Course of Construction
of Railway Line

PARA (Brazil) Oct. 24. (P)—Reports of the presence of "White Indians" in the Amazon Valley have been revived by newspaper dispatches published here telling of the discovery of such Indians in the Araguaia and Tocantins regions. The dispatches state that the Indians are tall, well muscled and fearless. The men wear bone ornaments through the nose and lower lip. Reports have been received that these Indians have raided construction gangs along the new railroad line and carried off tools and foodstuffs. On one occasion they carried off an old man whose fate is not known.

Brazilian scientists in Para are planning to equip an expedition to explore the region to learn about the White Indians in whom foreign scientists have always taken a great interest.

BOY'S PALS ACCUSED OF HIS MURDER

Petty-Theft Trio Ends
Career of Crime With
Death of Member

NASHUA (N. H.) Oct. 24. (P)—The slaying of a 13-year-old burglar was definitely assigned by police today to his two juvenile associates in a long series of petty thefts. Adam Goodrich was shot through the heart. A pistol was left close to one hand to give the appearance of suicide.

He was arrested last Monday after the burglary of the Hill Hardware Store and the theft, among other things, of three revolvers and a supply of ammunition. With him were arrested Frank Rokas, 13, and John Misking, 10.

The boys were freed in custody of their parents pending disposition of their cases. Yesterday Rokas and Misking presented themselves at the Manchester Industrial School, a State reform institution, and told officials that since they believed they would be sent there eventually, they wished to have it over with. This, police charge, was only an hour or two after Goodrich had been slain with one of the stolen revolvers and his body left in a heavy growth of brush in the rear of the Main-street Methodist Episcopal Church. The body was found by a policeman.

Police said both boys would be charged with murder.

French Accuse 'Spies' in Hearst Naval Affair

PARIS, Oct. 24. (P)—Charges under the Espionage Act have been filed against Count de Noblet of the Foreign Office, Roger de la Plante, a newspaper man, "and others" in connection with the publication of a secret Foreign Office document on the Anglo-French naval pact in the Hearst papers last month. The homes of the two men have been searched and an investigating magistrate has been designated to gather evidence and hear witnesses. He then will determine whether the case should go to trial and who should be prosecuted.

Sargent to Push Immigrant Case

WASHINGTON, Oct. 24. (P)—Atty.-Gen. Sargent has decided to apply to the Supreme Court again for a review of the District Court decision which has held invalid immigration regulations which have hampered border crossing by foreign-born citizens of Canada. The District Court at Buffalo held that Canadian citizens, even though born abroad, were entitled to cross the American border for employment in this country, returning to their homes nightly and retaining residence in Canada. The government appealed to the Supreme Court, which recently refused to intervene.

CALIFORNIA OIL CASE APPEALED

Standard Grant by State in
Supreme Court

Government Fights Ruling
Made by Fall

Secretary's Action Held to
be Illegal

WASHINGTON, Oct. 24. (P)—A California oil-land case arising under the administration of Albert B. Fall as Secretary of the Interior was brought to the attention of the Supreme Court today by the government in an effort to recover valuable oil land in Kern county which Fall awarded to the Standard Oil Company. California had taken the land as school lands and sold it to the Standard Oil Company.

In February 1924 Congress directed suit to recover the land but Secretary Work was enjoined by the Federal courts here from proceeding. The courts took the position that Fall's action was final and could not be reopened by the Interior Department.

CALLS IT ILLEGAL
The government today in the oral argument of the case began by W. C. Morrow as its counsel contended Fall's action had been illegal and therefore was not binding, insisting he had unlawfully awarded the oil land to the oil company.

The land, upon survey by the government in 1903, was found to be included within Sec. 36 of the public lands which by law, along with Sec. 16, would go to California for school purposes provided the survey had not disclosed the lands to be mineral in character. The government insisted the survey showing the land in Sec. 36 to be mineral made it necessary for California to select other lands not mineral in place of the sections. The land was withdrawn formally in September 1912 by President Taft but the Standard Oil Company contended it had purchased the land in 1920 from California.

FALL STEPS IN
In June, 1921, Fall, while Secretary of the Interior, at the request of the oil company took the matter up and decided the company's title to the land was good. The government insisted today that he only heard at the time counsel for the oil company, had refused to take any evidence and made no attempt to determine the question on its merits.

The Interior Department having been stopped by the injunction in its efforts to recover the land the Supreme Court was asked by the government today to set aside the injunction so that it could institute suit to place the land in the U.S. Navy's naval oil reserve.

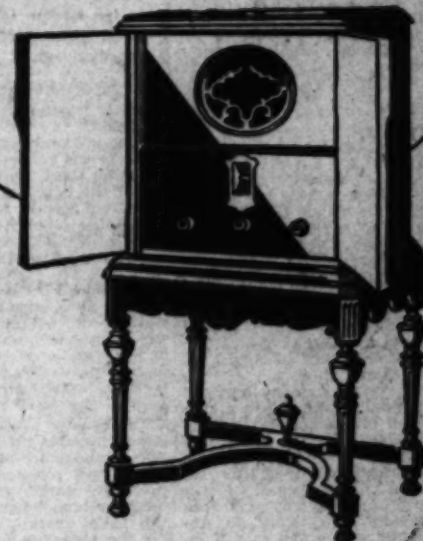

VOSE'S SON LOSES WIFE
RENO, Oct. 24. (P)—Carrie R. Vose of Reno was granted a divorce from George A. Vose, son of a wealthy piano manufacturer, in District Court today on grounds of desertion.

"The Shop All Women Know"

BORAH STRIKES BACK AT CRITICS

Robinson, Glass, Daniels and Moody Hit at Joplin

Senator Says Four Evading Prohibition Issue

Predicts Hoover Reign Will be Notable

JOPLIN (Mo.) Oct. 24. (AP)—Senator Robinson, Democratic Vice-Presidential candidate; Senator Glass of Virginia, Josephus Daniels, former Secretary of the Navy, and Gov. Moody of Texas were described by Senator Borah of Idaho in a speech here tonight, as being unable to defend Gov. Smith's liquor stand so they are trying to attack me.

"It is easy to catch the defences," he said, "but it is not so easy to catch the defences." The Senator declared in his speech, which ended his southern campaign trip for Herbert Hoover's Presidential candidacy, "Now they are not really attacking me at all; what they are doing is displaying the agency of mind which comes from trying to make a speech in favor of a candidate in whose principles and policies they do not believe."

The Democratic leaders had previously "denounced" their party's Presidential nominee's prohibition policies," the Senator continued, "so in their plight they will fill the newspapers with attacking one who is not a candidate, and has a very simple and inconsequential part in the campaign."

"Not one of these gentlemen will state to the public," he added, "that they stand for the repeal of the Eighteenth Amendment; not one will state that they stand for the public manufacture and sale of intoxicating liquor. All have denounced these things as unwise."

"If it were not for politics, they would be denouncing Gov. Smith instead of myself. During the next ten days I hope to occupy my time

HEAVY ELECTION BET POSTED

Angeleno Wagers \$175,000 To \$225,000 Against Hoover Victory

SAN FRANCISCO, Oct. 24. (Exclusive)—The largest wager of the Presidential campaign in the West was placed with a local commission today at odds of 3 to 1 that Hoover wins.

The amount on Hoover, \$225,000, is said to have been supplied by a San Francisco resident, and the \$175,000 placed on Smith is declared to have come from Los Angeles. The principals were not disclosed.

In discussing the great issues of the campaign, the Senator said that his interest in the campaign is "personal far more than partisan," adding that if he "did not believe in the ability" of Hoover to deal with the farm-relief problem and to enforce the Constitution, he would not be engaged in political speaking.

"I may be mistaken," Senator Borah added, "but I think I see ahead a great constructive administration—an administration which will grapple with our great economic problems upon a constructive basis, which will rank with the greatest constructive administrations of the past."

The Senator also discussed Hoover's farm-relief proposals which, he said, would place agriculture "on a sound and permanent basis," the protective tariff, referring to the need for high imports to "maintain the metal market in this country for the American mining industry," and assailed the prohibition position of Gov. Smith and Tammany Hall.

Directly after the speech he was expected to enter with Hoover.

HOOVER TO GET OREGON VOTES

Only Size of Plurality Questioned Now

Wagers Made Lead Will be at Least 60,000

Republican State Nominees Expected to Win

(This is the first of a series of articles covering the political situation in Western States, contributed by reliable sources, correspondence of The Times.)

PORTLAND (Or.) Oct. 24. (Exclusive)—The only question in Oregon in the approaching election is the size of the plurality that will be received by Hoover. All observers, including the Democrats, know that Oregon's five electoral votes are sure to go into the Hoover column. The Democratic organization is working hard and has made no formal concession of the State, but on the other hand the Democrats do not claim that Smith will carry even one Oregon county. There are all kinds of guesses on the size of Hoover's lead in Oregon, but it is hardly likely to be under 60,000. Bets are being made at 3 to 1 that Hoover will win by a margin of 60,000 to 100,000. Straw votes and registration would indicate that 60,000 is not too high and that it may run even more than that.

REGISTRATION LARGER

There is a registration of 427,446 in Oregon this year, an increase of 62,110 over 1924. The Republicans have a majority of 155,103 over the Democrats, a ratio of about two and a half to one. The Democrats, while the full registered vote will, of course, not be cast, and while party lines will be disregarded by many voters, the great preponderance of Hoover sentiment is obvious.

In Congressional and State elections, too, a clean sweep for the Republicans is in sight. Oregon this year does not elect a United States Senator or a Governor. In two of the Congressional districts the Republican incumbents, W. C. Hawley, in the First District, and Frank P. Kereff, in the Third District, appear to have no difficulty. Hawley, because of his long service and his prestige as chairman of the House Ways and Means Committee, will be returned by a large vote. Kereff, whose district is Portland, is being opposed by W. C. Culbertson, State Democratic chairman, but Kereff's success has not been questioned.

A somewhat different situation exists in the Second District, which is Eastern Oregon. There the Republican incumbent, M. J. Sennott, has resigned to accept a place on the Federal Court of Claims. Judge Butler of The Dalles, Republican, is running against Pierce, Democrat. Pierce formerly was very strong in that part of the State but detailed predictions from the counties in the district indicate that Butler will win by 10,000 votes.

Minor State offices will all go to Republicans. The only other contest that is attracting any attention is that of Loyal M. Graham for Supreme Justice. Two incumbents, George Roseman and John L. Rand, are up for re-election. Both Rand and Roseman are expected to win.

MUD FLUNG AT HOOVER, SAYS REQUA

State G.O.P. Director Accuses Democrat Chiefs of Approving Campaign

SAN FRANCISCO, Oct. 24. (Exclusive)—A deliberate and malicious campaign of mud-slinging designed to injure Herbert Hoover has been undertaken in this State with the apparent knowledge and approval of the Democratic State Central Committee, according to a statement issued here today by Mark L. Requa, executive campaign director of the Hoover-Curtis ticket in California.

"If there were isolated cases of this method of campaigning," said Mr. Requa, "there doubtless would be no need for making any protest against it. The people of California know Mr. Hoover and are not likely to be the gullible victims of these absurd tales, but the poison gas attacks are not limited to California. They are nation-wide."

"It is without question the most daring, if not the most audacious, ever made to sweep a Presidential candidate into the slimes of a political campaign and to defeat him by the process of smothering him in mud."

The Republican leader specifically accused certain Democratic speakers

VOTE-LIST FRAUD CHARGED

Atlantic City Registers Parrots, Cats and Dogs, Declares New Jersey Investigator

ATLANTIC CITY (N. J.) Oct. 24. (AP)—The charge that the names of boats, parrots, dogs, cats and children are on the registration lists of Atlantic City has been made by Prosecutor Repetto. He announced that next Monday he would move before Judge Smathers that more than 2000 names be stricken from the books as fraudulent registrations.

"A pet parrot whose name is John-Johnly \$4.99."

Talk, dogs and house cats, men and women long dead and others whose names of residents who never voted are forged on the lists," the prosecutor said.

"Stables, garages and vacant lots are shown as permanent residences of dozens of other men and women voters. The names of children who are not old enough to go to school are on the lists."

The registration of allegedly qualified voters in the city comprises 78 per cent of the total population of the town. The registration books list 41,750 persons while the census figure as of July 1, 1930, give the city a population of 53,000.

of making false statements concerning Hoover, saying that such "mail-clous tales" have been thoroughly discredited for years and have been revived to belittle the issues in the present campaign.

W.C.T.U. HEAD IN GEORGIA RAPS SMITH

State President Calls Women to Avoid False Appeal to Party Loyalty

RAINIERIDGE (Ga.) Oct. 24. (AP)—"Imagine the white and holy banner of the W.C.T.U. marching in a procession behind the 'wet' Governor of New York, with the slogan, 'Prohibition is a damnable affliction,'" Mrs. Marvin Williams, State president of the Women's Christian Temperance Union, declared here last night in the keynote address opening the annual State convention of the W.C.T.U.

Mrs. Williams predicted that on November 6 "We shall have buried the little brown derby in the grave of John Barleycorn, side by side with the little brown jug, twin emblems of a day that shall never come again."

After ridiculing the idea that members of the W.C.T.U. are traitors for failing to follow Gov. Smith, Mrs. Williams called upon members of the organization not to be deceived or misled by "snake screens" such as the plea for party loyalty, which she said, had been thrown out to deceive voters.

"We are Christians before we are Democrats, and where a moral issue is concerned, principle must come before party," she said.

ARGUMENT BY HUGHES ATTACKED

Raskob Issues Statement Challenging Speaker's View as to Prohibition

NEW YORK, Oct. 24. (AP)—John J. Raskob, chairman of the Democratic National Committee, feeling "absolutely confident that Gov. Smith is going to win this election," today took issue with statements made by Charles Evans Hughes at St. Joseph, Mo., last night.

"I hope they have got a better reason than that," was his comment on Hughes' statement that Hoover is the better man. Replying to Mr. Hughes' assertion that the prohibition question is "a sham battle," Mr. Raskob said, "the Republican know and the Anti-Saloon League know perfectly well that this prohibition issue is a real issue and the Anti-Saloon League appreciates that if Smith is elected they are done. They say so openly."

"I think, while Congress has to make the change, that if Smith is elected there will be a lot in the election in the way of convincing a great many Congressmen that the matter of prohibition ought to be subjected to the people on a referendum because Smith's election in a large part will be a referendum in many sections on the prohibition question. I feel that just as soon as Congress feels that the people want to have the right to that they will give them the right."

Perfect refrigeration is such a comfort

Planning menus, marketing, entertaining—these three duties of the home-maker are vastly simplified when she has a General Electric Refrigerator.

And, more important, is the pleasant feeling of security—the absolute knowledge that her family's food is always fresh and wholesome. Even in winter, scientifically correct refrigeration is vital. Kitchens are warm all the year round, and food, to be safe to eat, needs to be kept constantly at a temperature below 50 degrees.

The General Electric Refrigerator is different from all others—it is truly "years ahead" in design. All its mechanism is sealed in an air-tight steel casing, up on top, forever safe from dust and difficulties. It is so completely automatic in operation that it never needs oiling.

The General Electric Refrigerator is guaranteed to give you perfect refrigeration—quietly, automatically and economically! It may be bought either for cash or upon deferred payments.

Come in and see this most modern of all refrigerators, or telephone and we'll send you our new booklet, illustrating all models and giving specifications.

QUIN FOOTBALL SQUAD OFF FOR IDAHO CLASH

INJURIES JOLT TROBABA RANKS

Hammack and Schnelle Both Out of Bear Battle

Shaver Again Ready to Help Pinckert in Attack

California Frosh Will Use Nibs Price's Defense

BY BOB RAY

Leo Calland's University of Southern California yearlings, who are badly engaged in the bruising details of prepar-

ing for Saturday's highly important grid battle with the highly touted California frosh,

were given a couple of jolts yesterday when Harold Hammack and Cecil Schnelle, two

halfbacks, were put on the shelf because of injuries.

Lomita, dislocated a shoulder and will probably be lost for the game against the Stanford frosh. Hammack was scheduled to be in the starting backfield against the Bear

peagreeners. Berry Stephens, from Polytechnic High, looks now as the logical halfback to start in Hammack's position. Schnelle, one of

the speediest men on the Trobabe squad, injured a foot in last night's practice and will also be unable to take part in Saturday's clash.

Schnelle formerly attended Fremont High, where he won grid and track honors, placing in the sprints in the State meet.

However, not all was gloomy in the Trobabe ranks for Gaines Shaver, the former Corcoran star, and considered one of the best ground-gainers on the S. C. crew, took part in last night's scrimmage and his foot indicated that he has recovered from a knee injury that has kept him on the sidelines for the past three weeks.

Shaver, along with Eddie Pinckert, the Trobabe Thunderbolt from San Bernardino, is being counted on to do most of the ball-lugging against the Bear frosh Saturday.

Contrary to most of the reports, the Trojan yearlings will enter Saturday's game with what is conceded to be an advantage in the backfield but with a line that does not rate as high as the California forward wall. The Trobabe chances hinge on how Pinckert, Shaver and Musick are able to go on Troy's celebrated power plays.

Calland's squad uses the same attack as does Howard Jones's varsity and unless the local freshmen can get that power play going they will not have much of a chance.

According to reports from Berkeley, Coach "Brick" Mitchell, who piloted San Mateo to a State grid title in 1926, has adopted the same defense with which Nibs Price's Bears stopped the Trojan varsity last Saturday. Although it's probably not very clubby to bring up the matter, it's safe to say that the California-Southern California frosh game Saturday will not be played in a "sea of mud" unless it really rains or the Coliseum's plumbing goes on the bum.

RUSTY GILL REPLACES FENA AT FULLBACK

BERKELEY, Oct. 24. (Exclusive) As a special indication of the stiff competition to be encountered Saturday at Los Angeles in the annual battle with the University of Southern California Babes, Coach Clarence "Brick" Mitchell of the University of California freshman football team has put his squad on training table.

One of the big changes in Mitchell's first-string line-up tonight was the replacement of Joe Fena, the hard-hitting fullback, by Rusty Gill of Santa Maria. Gill has finally found his stride. In practice with the varsity Gills tonight effectively stopping the opposition in nearly every attempt to crash through the line.

On the recommendation of George Latham and Walt Gordon, both of whom have scouted the strong Trojan frosh team this season, Mitchell is devoting most of his energies this week toward the building up of a powerful defense, to compare favorably with that presented by the varsity Saturday against Howard Jones's Thunderers.

MORTENSON LANDS IRISH FULLBACK JOB

SOUTH BEND (Ind.) Oct. 24. (P) Knute K. Rockne's search for a fullback is ended—at least temporarily. From a tryout of fifteen men the Notre Dame coach has selected Mortenson, a substitute tackle, as the most likely candidate to give the Notre Dame eleven a scoring punch. Mortenson weighs 175 pounds.

SEATTLE GETS HETHERLY

CHICAGO, Oct. 24. (P)—Clarence Hetherly, Omaha third baseman and leading base stealer of the Western League, has been traded to the Seattle club of the Pacific Coast circuit.

TWO OF OXY'S BEST

Here we have a pair of Tiger stars—Ward Schweiser at the top and Ed Beebe, (below)—who have been outstanding in the powerful play of Occidental in the southern conference this season. Schweiser is a splendid plunging half and Beebe is rated as one of the best tackles on the Coast. The Tigers play U.S.C. at the Coliseum Saturday, and both these boys are expected to shine with considerable lustre.

Ross Arises Over Posting of Weights Forfeit

Fields Puts in Fast Licks and Eleven Rounds

BY PAUL LOWMY

The Jackie Fields-Bert Gummy Baker fight to be staged at Wrigley Field next Tuesday night is floundering on the rocks of uncertainty.

It may be called off because the co-managers of Baker—Abe Katz and "Doc" Bagley—are disinclined to abide by the laws of the State Athletic Commission.

The commission insists that Baker post an appearance and weight forfeit of \$1000, a requirement that Fields has already met.

For some reason—perhaps because they are from New York—Katz and Bagley believe the commission should make an exception in Baker's case.

NOON ZERO HOUR

Or if the commission won't make an exception they want Promoter Jack Doyle to post their forfeit. As a result the commission yesterday gave them until noon today to put up the \$1000, and if it isn't posted Baker, Katz and Bagley will immediately be suspended.

And suspension in California means suspension in New York and other States. For some time this State's Boxing Commission has had a working

C.L.A. GRIDDERS ARE UNDERDOGS IN CONTEST

Spaulding's Warriors in Optimistic Mood as Team Entrain for Tilt; Vandals Are Heavy Outfit

BY FRANK ROCHS

Visions of a Coast Conference football triumph, a thought far removed from their minds at the opening of the present gridiron season had the U.C.L.A. Bruins in an optimistic mood last night when Head Coach Bill Spaulding and a squad of twenty-five pigskin warriors entrained at Glendale for Moscow, Idaho, where the Bruins tackle Charley Erb's Vandals Saturday afternoon.

The departure for the Northwest was made amid the cheering of 2000 students and alumni who gathered to give the Bruins a royal sendoff for their second Coast Conference season.

With the exception of Head Coach Spaulding and his assistant, A. J. Sturms, the Bruins believe to a man that they are going to take the Vandals to camp when it is a 7-0 clash.

Spaulding declared just before the train pulled out that the Bruins had a fighting chance with the Vandals and that was about all. Sturms, however, felt the same way as his chief about the matter. The assistant coach counted the Vandals in the game with Stanford and he knows about how good the chances of the Bruins are at present.

The Bruins players believe that they made a better showing against the Cardinals than the Vandals and on that basis they figure they should be able to beat Erb's outfit. While Spaulding and Sturms are not

POETS AND AZTECS IN SPOTLIGHT

Pomona to Battle Caltech in Other Conference Tilt Next Saturday

With Occidental, leaders in the conference standings, engaged in a nonconference tilt with U.S.C. at the Los Angeles Coliseum, the Pomona Aztecs will hold the spotlight of attention and interest in the southern circuit this Saturday.

Pomona, a 4-0 Caltech meet in the remaining grid contest of this week-end's program.

Though the Poets have lost to

CITY LIGHTWEIGHT GRID TEAMS TO TANGLE TODAY

Lightweight eleven in both the senior and junior city football leagues take the limelight in prep circles today. Three games are on tap in each circuit. The feature game of the senior loop will bring together L. A. High, last year's titleholders and Coach Jellison's Franklin eleven while in the junior league Coach Clarence Erb's Belmont Hilltoppers take on the Fairfax Colonials in the feature contest.

Other games scheduled for the

CITY LEAGUE will see Hollywood at Jefferson and Manual Arts at Polytechnic. In the minor loop, Fremont will travel to Roosevelt, while Garfield takes out to Harding.

In the Senior League, Coach Jellison's Los Angeles Bruins are favored to beat the Franklin eleven. Bruins have quite a lot of experience back from last year's championship team and at present the Bruins rate as

Los Angeles Country Club Plans Official Opening of New North Course

SEASIDE SHOOT 72 IN PREVIEW

Norman McBeth Cops Low Net With 75-2-73

Thomas Creates Layout of Great Beauty

Rivera's Mashie Course in Debut Sunday

BY EDWARD LAWRENCE

The Los Angeles Country Club and George C. Thomas, Jr., are to be complimented on the revamped north course, which was previewed yesterday for the first time.

Designed by Thomas and built by William P. (Bully) Ball, the course is a revelation with new greens and numerous changes in the layout. It will undoubtedly be rated as one of the best tests of tournament golf in Southern California.

Yesterday's preview marked the official opening of the course, which has been under construction for the past eight months. It will have its official debut Saturday morning at 10 o'clock, when a tournament will be played, followed in the afternoon by a match play tournament.

President's cups for low gross and low net are offered for the tournament. The L. D. Hale trophy will also be awarded along with other prizes.

Among those who played yesterday along with members of the Southern California Newspaper Men's Association were Charles Latta, Chester Latta, E. E. Brown, Dick Smith, W. W. Campbell, Ed Peckley, Everett Stever, and Norman McBeth, besides a large number of prominent Southern California golfers from various clubs.

Stever, president of the Southern California Golf Association, very properly came through with a fine 72, two over par, to win low gross. McBeth had a 75-2-73 for a low net.

The new course is a masterpiece of golf architecture, with a total length of 6,500 yards, with a day length of 3,500 yards. The new fourth hole is one of the most beautiful in the game, situated on a hill overlooking the green. The sixth is now one of the best in the game, with a total length of 3,500 yards, with a day length of 3,500 yards.

The course must be played, however, to be appreciated. Measured from the back tee, the course will be 6,500 yards in length, with a par of 72. The regular course as played yesterday measured 6,000 yards, with a par of 71. The short course is 5,500 yards long with a par of 71.

Here is yardage and par figure for all courses:

REGULAR COURSE TO OPEN RIVERA COURSE

San Neel yesterday announced the opening of the new mashie course for a 3 o'clock afternoon. Designed by George C. Thomas, Jr., and built by Billy Ball, the layout is one of the finest to be found anywhere.

In a feature course, Miss Kathleen Wright and Miss Helen Lawson will play Mrs. Greg Latta and Miss Helen Stever. Mrs. Stever, a San Francisco city champion, is coming south particularly to participate in the opening of the new course.

The public has been invited to watch the play Sunday.

BLANEY WINS TOURNEY AT WESTWOOD

Marvin A. Blane won the twenty-two hole golf tournament played by employees of the Security Title Insurance and Guaranty Company at the Westwood public golf course. The final thirty-hole holes were played Sunday, when Blane took first honors with a net score of 277 for seventy-two holes.

Harry M. Trimble was second with a score of 278, and George Kervick third with 281. Other prize winners included Ed Jones with a 283 net; Paul Angell with 286 net; and George Childs with 286 net.

RENTWOOD TOURSOME EVENT THIRD ROUND

Mr. and Mrs. J. W. Meek will play the winners of the P. R. Meek and Mrs. I. R. Worke vs. H. P. George and Mrs. A. C. Little match, while Mr. and Mrs. J. L. Martin face Mr. and Mrs. W. V. Chapman in semifinal matches of the four-ball foursome elimination event now in progress at Rentwood, according to word from Freddie Tongue.

The qualifying round for the President's Cup is scheduled for Saturday and Sunday. Match play starts the following week. One match will be played weekly until the final.

RANCHO WOMEN SCHEDULE TOURNAMENT SATURDAY

Mrs. Paul Jones, Rancho women's team captain, has scheduled an eighteen-hole match play tournament for fellow-club women Saturday morning. Puntigone invited members of Rancho to be invited to play in the affair, which will be in the nature of a try-out for places on the club team scheduled to get under way in the annual auxiliary interclub team competition next Wednesday.

Rancho expects to start a tournament...

RABBIT PUNCHES

PAUL LOWEY

THE CALIFORNIA OFFENSE

ALTHOUGH the experts say California has developed no offense this year—and apparently they haven't been strikingly proficient in this respect if you get right down to statistics—the fact stands out that the Bears haven't been beaten this season.

They have done everything that anybody could logically expect them to do in beating St. Mary's, Washington State and holding U.S.C. to a 0-0 tie. And if they can lick the Olympic Club, which downed Stanford, this coming week-end the doubting Thomases certainly will have to pull in their necks.

Without a doubt the Bears have the toughest schedule of any conference team on the Coast. No other team is called upon to face on five successive weeks such teams as St. Mary's, Washington State, U.S.C., Olympic Club and Oregon. Each game of the three played to date has proved plenty tough, and there is every indication that the Olympic Club with Mort Kaer running amuck and then Oregon, which seems to have taken a new lease on life, will be just as hard on Bear constitutions.

The only breathers the Bears will get before they play Stanford will be the fractures with Washington and Nevada, and even the Huskies may not be so easy after they get the Oregon setback out of their systems.

Although Price has been criticized in some quarters for discharging a lot of the Andy Smith stuff that used to look very good you never can tell when the time will come that Mr. Benny Lom makes Nibs's system look good.

The boy is a wonderful kicker and a sweet runner. Some of these days he's going to break loose and run wild all over the place. And somebody's system will be talked about as a result.

THE BOXING BILL

THE impending spectacular features of the Fields-Baker imbroglio next Tuesday eve will do much to reinforce interest in the boxing bill which mislaid seats are attempting to kill at the election November 6. Under the direction of Jack Doyle, whose reputation is too well known to need elaboration, the bout will be conducted at Wrigley Field with the State Athletic Commission, composed of three millionaires who get nothing for their time but a kick out of the sport they are fostering, supervising it.

And for that matter Jack Doyle, the promoter, can also be listed as a patron. The two-time Exalted Ruler of the local Elks Lodge has taken about as much money out of the ten-round boxing game in four years as he has made as a promoter. But he is glad to see the war veterans benefit and the nearly half-million dollar fund that has been obtained by State tax from boxing for the veterans' home at Yountville is joy to him.

If regulated boxing is killed at the polls November 6 it doesn't mean the death of boxing, but it does mean a knife in the back of the war veterans. There will be "bootleg" fights if the ten-round law is laid low, but there will be no \$100,000 yearly contributions to the war veterans by "bootleg" promoters. The seals might stop and think that one over.

And there will be no law to punish promoters and principals of such disgraceful affairs as the notorious Fuentes-Fulton flop, which was staged in our last "bootleg" fight era.

Those with memories long enough to use them may recall that boxing was killed once before in California—fifteen years ago. But immediately thereafter the "bootleg" four-round game prospered until the regulated ten-round game was substituted at the polls four years ago. Now the seals propose we shall go back to the "bootleg" days.

What, but for more Fuentes-Fulton flops, which so disgraced the fair municipality of Culver City that it never recovered as a fight center.

THREE REQUESTS

MR. "UNSTEADY READER" dropped a note the other day in the mail bag of Mr. W. M. Henry, the innocent bystander who retired to lead the peaceful life of an important editor, at the same time discharging the Los Angeles Times Club by resigning as president and holding down numerous director's posts in other organizations.

Several points of note were brought up by Mr. "Unsteady Reader," who suggested that Mr. Henry ask George Tech out for the New Year's Day game. "They might think you were Lee, and accept," he writes.

A request for a football game which will see the L. A. Poly game restored to its rightful spot at the end of the season is made; also one that the Pacific Coast conference let Bert La Brucherie play two more seasons in view of the fact that he's ending his career just when U.C.L.A.'s beginning to get good, and a reference is made to Bert's 100 yards against Pomona last Saturday.

Soccer League Race Gets Hot

Still out in front, the Hollywood soccer team meets the Vikings in the opening game at Loyola field and the Magyars encounter their toughest opposition in the opening tilt at the Rose Bowl in the Pasadena double-header. The featured tilt at the Loyola field sees the Sons of St. George clash with the Soles and at Pasadena, the Pasadena squad figures to break into the win column at the expense of the Richmond Oilers.

The two opening contests loom as hard-fought games. Both the club eleven and the Vikings have yet to be defeated though both have been hit. If both games result in ties, the soccer loop will see a four-cornered tie for top honors.

RICKARD'S COMING BATTLES NOT LIKELY TO BRING FORTH SUCCESSOR TO GENE TUNNEY

BY TOMMY LOUGHRAN

Light-Heavyweight Champion of the World

(Copyright, 1928, North American PHILADELPHIA, Oct. 24.—So far the only heavyweight elimination bouts definitely settled on by Tex Rickard are between Otto Von Porat and Paulino Uzcudun on November 8, next, and Billy Stripling and Jack Dorval on November 23. They are rated as eliminations. Neither match is likely to do much toward solving the heavyweight problem.

Von Porat is just a fair man, who has been doing pretty well in the Middle West. He is good enough to beat the second stringer, but doesn't figure to give the top line much of an argument. Paulino, who is one of the most rugged and hard-hitting of the contenders, ought not to have much difficulty with him. He showed that his lay-off had not done him much harm by knocking out Von Porat in his last fight.

The Standard knocked Peterson out. But by striking him when he was on his knees, Peterson lost the decision. A foul. It didn't hurt his status as a contender; nor is his status likely to be affected by Otto Von Porat, either.

The Stripling-Dorval match is a different matter. For a time it looked as though Billy was through as a major contender. After a best him a year ago last summer, he stuck to fighting in the small towns. Then he was brought back to meet Johnny Squires, one of the poorest heavyweights Australia ever sent to this country. Stripling stopped Squires in a couple of rounds, thereby creating a bad feeling for himself. It wasn't a victory to be taken too seriously. Stripling will probably have more trouble with Dorval.

Napoleon Jack is a big fellow, who has excellent form. He has been followed by bad luck in the shape of injuries and other things. Still, he shows flashes of form, and may give Billy more trouble than he is given credit for. Stripling ought to win, but he won't find a Squires in there against him.

Apparently, no one ever gets concerned about the heavyweight situation. Here's Jim Maloney stepping up again with threatening intentions. Jim was knocked out by Harry Greb, but he didn't quit. In recent fights he has beaten several fair men, including Jack Remick, and is hopeful that he'll be able to climb to the top again. You can't have a fellow like Greb in the ring with him.

Within a couple of months there will be a lot of bouts that should decide the issue. Those big fellows who aren't so anxious to take chances with rough opponents will have to go in with the leaders if they are to be recognized. It will be a merry how-de-do you.

TROJAN HOMECOMING PARADE TO BE HELD AT COLISEUM ON DAY OF NOTRE DAME CONTEST

Plans for the annual University of Southern California homecoming parade were announced yesterday by Ralph Huston, general chairman of homecoming week. The parade is scheduled for Saturday, November 24, and will start at the Coliseum at 10 o'clock.

This year's homecoming week is scheduled between November 24 and December 1. Committee chairman as named by Huston yesterday include the following:

Decorative: Dorothy Hollingsworth, decoration; Ralph Clark, entertainment; Sam Newman, fraternity and sorority cooperation; Connie Vedion and Jean Burdette, Student Union decoration, and Frank Hadlock, alumni secretary, alumni arrangements.

Trojan Knights and Amazons will make up the reception committee. Each fraternity and sorority is to have a representative on the homecoming committee.

Following the game, the homecoming dance will be given in the Student Union Building. Hundreds of alumni as well as present Trojan students are expected to attend this affair.

ROUGH RIDERS PICKED TO WIN

Coach DeGroot's Eleven Favorites

Fremont Squad Hit Hard by Injuries

Belmont-Fairfax Tussle Toss-up

Yesterday marked the last hard workout for the Minor City League football eleven before the season battle tomorrow. In the three games on two of the teams, the Rough Riders, both teams are unbeaten and the winner will be at Garfield.

Fremont tumbled has grabbed the lead by a landslide. Both teams are unbeaten and the winner will be at Garfield.

The two other betting together Belmont at Fairfax and Harvard at Garfield.

Out at Roosevelt Coach De Groot has his powerful Rough Riders almost ready for this and figures that if his team plays as good as last week's game, they will be on the short end of the score.

De Groot has his crop of crops almost all back on their feet, although Haskell was injured yesterday in a scrimmage and may not start tomorrow. Payne was back in his role yesterday, the first time in three weeks and may be ready to play again soon.

Roosevelt seems destined to enter the game as favorite over the Pathfinders at Garfield. De Groot seems to have been hard hit by the injuries to his squad. The position most affected is the quarterback, which has been a sore spot for the Rough Riders.

Coach Withrow has brought his team along pretty easy and ought to be leading from form pretty soon. Tuesday, the Rough Riders are expected to play at Garfield.

Coach Welch has been leading the Colonial eleven all week and figures by tipping over Belmont the Rough Riders will have a chance for the title.

Coach Fitzmaurice out at Garfield has the same idea and if the Harding crew beats the Presidents tomorrow they will have occupied a tough job. Triggs, however, out at Harding has developed quite a passing attack and may surprise Garfield. Harding scored a win over Pacific Military in a practice game due to its passing strength. Fitzmaurice has a very good team and all hope points to the Presidents winning tomorrow.

Coach Withrow has brought his team along pretty easy and ought to be leading from form pretty soon. Tuesday, the Rough Riders are expected to play at Garfield.

Coach Welch has been leading the Colonial eleven all week and figures by tipping over Belmont the Rough Riders will have a chance for the title.

KOTSONAR
FACES SH
IN MAT T

Lou Dora Signs
Appear on Saturday
With Pletina and

"Carnation" Lou
wrestling promoter, has
another big mat battle
Wednesday night, when
he will oppose the
George Kotsonar, who
grappled from Montana,
Bill Shaw, the best
youngster from Salt Lake
City, and a strong
man from the Pacific
coast.

This pair of the great
mat is the most
chance in the event
which is the most
flashing battle
between the two
promoters. The
Pletina-Johnson
considered as big as
any match held here, as
standing aside of
the two men, who are
both of the same
weight, and the
chance is a
wrestling match.

Shaw made a big hit
last week when he
knocked out a strong
man from the Pacific
coast, and the
Pletina-Johnson
considered as big as
any match held here, as
standing aside of
the two men, who are
both of the same
weight, and the
chance is a
wrestling match.

Promoter Dave
the fiery red-headed
other, plenty of action
competition, and
narrow, one of the
of his weight in the
opponent. Kotsonar is
a come-back that he
bring back the popular
match. The morning
joyed a few years ago
meeting many in the
wrestlers in the game
and roughing, the fun
and the feature event

Predict Poly-Manual Game Will Be Low Score Battle

ONETOUCHDOWN
MAY SETTLE IT

Toilers, Mechanics Possess
Air-Tight Defenses

Jefferson Coach Tries Many
Switches in Line-up

Only One Letter Man Back
on Franklin's Eleven

With both sides possessing air-
tight defenses, city football
followers are looking for a low-score
game when

Polytechnic and
Manual Arts
ash at the
Coliseum in a
struggle that
may carry with
it the league
championship.

One touchdown
may be all that
is made in the
important grid
battle and, at the
most, three
scores are all
that is looked
for to be in
the know.

This prediction, of course, goes
only if the athletes do not run into
a fumbling epidemic, which can
make a run-away out of any game
provided the buttingfingerness is
all on one side.

If the game should be set-
tled by the margin of a point
after touchdown, Manual Arts
ought to win for the Toilers
have in Tom Cushman a place-
kicker par excellence. Cushman,
who is a center, comes out of
the line when it comes time to
add the extra point and in the
Hollywood game his educated
foot booted the ball through the
uprights three times in four at-
tempts. The fourth effort was
ruled by Cushman only because
of a wild pass from center.

Jack Strutzel is delegated to do
the converting for the Poly eleven
and he is not as proficient in the
art as is Cushman. Strutzel converted
one and missed one try in the
Los Angeles High game, but then
he didn't have to worry a great deal
about making the final extra point
against the Romans for the attempt
was made with less than a minute
to go and Poly carried off victory.

Both coaches Jim Blewett and
Voyte Brennan have been working
their charges overtime during the
past week in an effort to build up
more versatile and smoother-
running offenses. Each mentor has
a lot of trick plays up his respective
sleeve and those who attend the
game tomorrow are apt to get a
couple of eyelets.

With Jim Morrish, his veteran
guard, certain to be out of Fri-
day's game against Hollywood,
Coach Jim Purcell has made some
final shifts in the Jefferson line-
up in order to take no chances
in the line to hold down a
tackle. Joe Everett will start
at full for the Democrats.

With Jim Morrish, his veteran
guard, certain to be out of Fri-
day's game against Hollywood,
Coach Jim Purcell has made some
final shifts in the Jefferson line-
up in order to take no chances
in the line to hold down a
tackle. Joe Everett will start
at full for the Democrats.

PANTHERS AND REDLANDS TO TANGLE UP SATURDAY

For the first time in the history
of the two schools California
Christian College and Redlands Uni-
versity will meet in football. Arrangements
were completed yesterday
whereby the locals will go to
Redlands on Saturday for the first
game, the Bulldogs playing in Los
Angeles in 1929.

Christian College has tried for
two years to get a game with
Redlands, as it is the policy of
the school to play as many
Southern Conference teams as
possible each year. Last year
the Bulldogs schedule has always
been full. A bye in the conference
this year makes this first
meeting possible.

The Panthers, coached by Ralph
Welch, aspire to a place in the
Southern California Conference in
the near future. Up to the present
year, all too few varsity men
have remained in school to create
a good team from year to year, but
this season Welch has had a fair
nucleus from which to build a team.
Although getting away to a slow
start the team is now playing in
good form and it is hoped to give
remaining teams on the schedule
each a good workout.

Remaining games include San
Diego State College at Moore
field, November 3, next, and South-
western University at Housh field,
November 17.

The game with San Diego will
be played at 10 o'clock in the morn-
ing in order that both teams and
the public may witness the Stan-
ford-U.S.C. clash that afternoon.

Purcell also made a couple of
other changes, shifting Angelo
Allegretti, formerly a quarter-
back, to end and bringing back
Morris Feltner, formerly an end,
to do the signal-calling job.

"If we can win the fumbling
habit we should give Hollywood a
tough battle," says the Jefferson
mentor.

However, Coach Vic Kelley is al-
so wondering whether his Hollywood
athletes are over their fumbling
habits. The Bulldogs practically
gave Manual Arts Friday's game by
fumbling away the ball the first
three times they had possession of
the pigskin.

Frank Hess, the Franklin
coach, says that his team is
composed of green material and
that L. A. High ought to win
tomorrow's game, which will be
played at Housh field. Hayes
Hess, an end, is the only letter
man back on the Franklin
squad.

The Panthers, for that is Frank-
lin's nickname now, have a small
squad of only twenty-nine men out
and none of them have had much
experience in the bruising pastime
of packing the pigskin. However,
despite their greenness the Panthers
are improving, as their practice-
game record bears out. Franklin
lost its first game to South Pas-
adena by three touchdowns, but
when the two teams recently again
met the Panthers were on the
end of a 13-to-12 score. A 7-to-7
tie with Belmont and a 6-to-0 de-
feat at the hands of Glendale com-
plete the Franklin record.

Both the Panthers and the
Toilers will be looking for a
low score game when they meet
on Saturday night at the Coliseum.

CARD SQUAD IN STIFF WORKOUT

Stanford Eleven Practices
Several Hours

Fresno State Game Next on
Palo Alto Card

Warner Undecided on Choice
of Men Saturday

STANFORD UNIVERSITY, Oct.
24. (AP)—Striving for precision in the
intricate plays that form the basis
of the attack of the
gridiron, Stanford
Cardinals went
through a hard
practice session
today that lasted
several
hours.

The Stanford
men tackle the
Fresno State
eleven Saturday
and the question
on the campus today
was whether
Coach (Pop)
Warner will use
his second and third-string men, or
send in his first-string players for
a workout.

It was certain, however, that no
matter which group plays, they will
use straight football. The intricate
plays will be saved for Southern
California next week.

Warner will use
his second and third-string men, or
send in his first-string players for
a workout.

BY LEE SHIPPEY

It's too bad that few of us ever get half as enthusiastic over our gods as we do over our demigods.

The poet (reading): "Lady, by yonder blessed moon I swear, that tips with silver all these fruit-tree tops." She (to herself): "Believe me—this is the last time I'll ever sit out a dance with a poet!"

(Copyright, 1928, by Neil Syndicate, Inc.)

THE GUMPS

HOW DIFFERENT THAN WHEN I WAS A GIRL! IF OUR CARE FREE DAUGHTERS COULD ONLY REALIZE THAT THE NIGHT HOURS THEY SPEND AWAY FROM HOME GOLDEN TO THEM— IN THEIR SWIFT FLIGHT— DRAG ALONG IN LEADEN MOMENTS FOR THE ANXIOUS MOTHERS WAITING HELPLESSLY AT THE FIRE SIDE— CLARYCE— WHAT CAN BE KEEPING THAT GIRL!

OH!!! THERE SHE IS NOW— I'M COMING—

Watching and Waiting

CLARYCE DO YOU REALIZE THAT IT'S FOUR O'CLOCK

OH MOTHER— SNAP OUT OF IT— QUIT HARKING— AND DON'T WAKE ME TILL NOON TOMORROW—

CIGARETTES

GASOLINE ALLEY

PHYLIS DOESN'T HAVE ANY IDEA HOW HARD UP I AM RIGHT NOW. I'M OUT OF LUCK FOR EVEN LUNCH MONEY.

UNCLE WALT, HAVEN'T HAD MY 'LOWANCE' THIS WEEK AN I GOT TO PUT SOME MONEY IN MY BANK

SAY, I'M SORRY OL' TOP BUT I'M PRETTY LOW MYSELF. I'M AFRAID WE'LL HAVE TO LET THIS GO TILL NEXT WEEK. HOW MUCH HAVE YOU IN YOUR BANK?

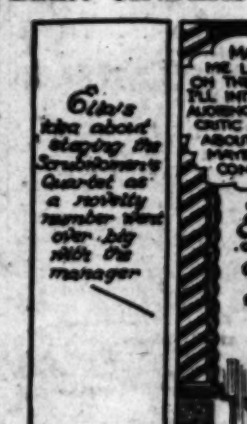

I DON'T KNOW. I'VE BEEN PUTTIN IN MORE'N A DIME EVERY WEEK FOR A LONG TIME.

WELL IT'S NICE AND HEAVY. THERE MUST BE QUITE A LITTLE IN IT. YES, SIR, QUITE A NICE LITTLE AMOUNT.

NO, WALT, THAT'S ALL I WOULD SAY.

ELLA CINDERS

ELLA, I'VE LET ME LEND THE QUARTER OF THE SUM— AND HERE I'LL INTRODUCE THEM TO THE AUDIENCE— AND HERE SHE COMES! WILL WRITE A SONG ABOUT MY VOICE— AND I'LL GET A CONTRACT— AND

BY THE WAY, ELLA, I'VE REARRANGED THIS MORNING— I KNOW YOU WON'T MIND SCOURING MY SHARE OF THE LOSS!

I'LL BE GLAD TO— IF I DON'T HAVE TO REARRANGE MYSELF!

WHAT PART DO I PLAY IN THE SCOURING NUMBER?

YOU PLAY THE OFFENSIVE! YOU'RE TOO YOUNG TO HIT IN GAMES!

YOU PLAY THE DEFENSIVE! YOU'RE TOO YOUNG TO HIT IN GAMES!

HOOVER PLANS ST. LOUIS TALK

Waterways and Agriculture Will be His Subjects

Speech to be Broadcast Via Nation-wide Hook-up

Homeward Trip Scheduled to Follow Delivery

WASHINGTON, Oct. 24. (AP)—Herbert Hoover will make waterways and the problems of agriculture the subjects of his midday speech at St. Louis on November 2, next.

The speech, which will be the last but one of a Presidential campaign, is to be delivered in the afternoon, a nation-wide radio hook-up. The speech will arrive in that city late in the afternoon and will go immediately to the audience, leaving St. Louis to proceed westward shortly after he finishes his speech.

Hoover now expects to leave Washington on his transcontinental trip to his home in Palo Alto to vote a week from tomorrow and will make stops at Cumberland, Md., and Louisville, Ky., on his way to St. Louis. He will deliver brief platform talks at both of those stops.

From St. Louis he will move to Grand Island, Neb., and thence to Wyoming, Utah and Nevada over the shortest route to his home.

The candidate expects to arrive in Palo Alto on the afternoon before the election and probably will make a radio address that night in which he will urge all citizens to vote. On the following day he will cast his ballot in a polling booth on the campus of Stanford University.

SILENT ON NOBLES
Hoover had no comment to make today on an announcement that Senator Morris, Nebraska Progressive, would raise his voice in advocacy of the campaign of Gov. Smith.

In making public his plans for the western trip, Hoover made it clear that the main purpose of the journey is to carry his home to vote and that the speech is only an incident to this. Any stops made on the trip from St. Louis to the Coast will be those necessary to the operation of the trip and not planned for campaign purposes.

The route westward will carry Hoover from Grand Island, Neb., through Cheyenne, Wyo., Ogden, Utah, and Reno, Nev. to San Francisco, and thence down the peninsula to his home.

The candidate spent most of today working on his speech and laying plans for the final trip of the campaign. During the morning he received a delegation of civic leaders and social workers, whom he addressed briefly.

MORE HOPEFUL WORLD
"The greatest task of life is to have a part with you, to thank God, things of the past, and today, we look at a more hopeful world," he said. "The disaster of the war is behind us. Today we have but one problem before us—to bring up those who lag and the great march of progress to the front ranks—for we are marching."

"It should like only to add that this great relief work in which the lives of tens of millions were preserved was only possible by the whole-hearted generosity of our countrymen and women, who always respond to the call of need without regard to nationality or religion."

Mr. Hoover's talk was in response to brief addresses by Felix M. Warburg of New York, who acted as chairman of the delegation, which was presented to the nominee by Maurice Blagoy of the Republican National Committee.

"It is a great privilege to join this group, who have had experience in social work," Warburg said, "and express to you as we have done elsewhere, the satisfaction that in all probability you will be in charge of the social well-being not only of the suffering, but the strong citizens of the United States as well when you take office as President."

"It is not an empty phrase when I express this heartfelt belief. It is based on the privilege I enjoyed while I worked under you first in the census of foodstuffs, to which you invited me, and then in the relief action during the famine in Russia, where, as chairman of the Jewish joint distribution committee, I could admire at the same time your splendid judgment and your deep feeling for all suffering humanity."

Coincident with their visit, a telegram from a group of social workers in Chicago was made public at Hoover's headquarters. It was signed by Jane Addams and a score of others and detailed five reasons why they expect to vote for Hoover.

REASONS FOR SUPPORT
The first reason attributed to his humanitarian services as a private citizen, his appointment to public office and nomination for the Presidency. His work as Secretary of Commerce formed the basis of the second.

"Because he holds that natural resources are to be conserved, developed and controlled for the public good; that no advantage gained to other industries should be greater than that which should be assured to agriculture as basic to them all," was the next.

"Fourth, because his understanding of the beneficial operation of the law, and also his experience in many lands, with their people and rulers, have given him a unique knowledge of the use of war and of the need of international understanding and co-operation in promoting the peace and progress of all nations."

Democrats Get McCormack Cash
NEW YORK, Oct. 24. (AP)—The Democratic national headquarters today announced receipt of a campaign contribution of \$10,000 from John McCormack, the Irish tenor, cabaret from London.

The singer expressed admiration for the campaign being made by Gov. Smith.

PROGRESSIVE WILL CAMPAIGN FOR G.O.P.

LA FOLLETTE BACKER OUT FOR HOOVER

Leader Four Years Ago in Progressive Drive Joins G.O.P. Veterans' League

LA FOLLETTE BACKER OUT FOR HOOVER

WASHINGTON, Oct. 24. (AP)—A. P. Entenza, western regional director of the LaFollette campaign four years ago, yesterday enrolled as a member of the Republican War Veterans' League in support of Herbert Hoover for President. It was announced at Southern California headquarters of the Republican State Central Committee at the Alexandria.

Entenza, a veteran of the Spanish-American and World wars, is a recognized leader among the ex-servicemen of the West. He formerly was national commander of the Spanish War Veterans and has just completed a term as National Supreme Councilman of the Order of Moose and is president of the Thrift Fraternity.

During the Presidential campaign four years ago Entenza was associated with Rudolph Spreckels of San Francisco as regional manager of the LaFollette campaign in the western district, comprising eleven Pacific Coast and Rocky Mountain States.

"While I am well aware of the splendid qualities of the Democratic candidate," Entenza stated, "I feel that Herbert Hoover, schooled in the great field of international economics, well grounded in the complex aspects of our national government and standing as he does with a record of magnificent achievement behind him, represents the safest and most logical haven for all Progressives."

"Because I believe in Herbert Hoover as an individual and because I find nothing in his record that leads me to believe that his policies, if elected, will be other than the policies of the great Progressive ideal, it is my intention to subscribe my effort and my support to his candidacy for the Presidency of the United States."

Cinema Players to Take Part in Hoover Rally
Plans for a Hoover rally in Beverly Hills, tomorrow night, when prominent motion-picture personalities and leading attorneys will make speeches, were revealed yesterday.

Fred Niblo, film director, will act as chairman, and will introduce Attorney Oscar Lawler, Conrad Nagel, film actor, Louis B. Mayer, president of Metro-Goldwyn-Mayer studios, Mrs. Mah Copeland Lineman, of the Federation of Women's Clubs, and Marie Blue, been player.

On the rostrum will be Mrs. Van Ness Leavitt, sister of Mr. Hoover. The meeting is under the auspices of the Beverly Hills Republican Club. Music will be furnished by the Pasadena Spanish Troubadour Orchestra.

The location is El Rodeo schoolhouse, on Wilshire Boulevard, two blocks north of the Santa Monica Boulevard intersection. An invitation is issued to the public.

Caraway Again Attacks Mellon
WASHINGTON, Oct. 24. (AP)—Senator Caraway of Arkansas today renewed his warfare with Secretary Mellon by inquiring as to Mr. Mellon's ownership of stock in a distillery.

In a letter to the Secretary the Arkansas Senator said Mr. Mellon had failed to provide the desired information in a recent letter, and a further series of questions was propounded.

The Senator asked how many gallons of intoxicating liquor the Secretary owned or controlled through companies or corporations in which he was interested at the time of the adoption of the prohibition amendment, how much it is now held, and under what authority any of it was sold.

Secretary Mellon's former reply that he had been actively engaged in the distillery business was declared by the Senator not to be an answer to his question.

WIFE SUES N. B. KNOX
RENO, Oct. 24. (AP)—Elizabeth Bloomer Knox filed suit for divorce in District Court against Newt Booth Knox, mining engineer of San Francisco. The two, who met while students at Stanford University, were married in 1906 and have one son. Mrs. Knox accuses her husband of showing her no consideration while being very considerate of his own relatives.

MAYORS GATHER TO BACK HOOVER

Largest Southland Majority Predicted for Him

G.O.P. Nominee Lauded at Luncheon Meeting

Cryer Welcomes Visitors from Fifteen Cities

Southern California will give Herbert Hoover a greater majority than it has ever returned for any previous Presidential candidate.

Mayors of fifteen cities of the Southland declared at a luncheon meeting given in their honor yesterday at the Alexandria by the southern division of the Republican State Central Committee.

Oscar Lawler, Los Angeles attorney, was the chief speaker. He contrasted the achievements of the Republican party in the last two administrations with the Democratic rule, asserting that a continuation of Republican policies means security and prosperity to all Americans.

He pictured Hoover as a business executive who came into politics at the climax of a successful life wherein his Democratic opponent through choice has devoted his entire life to politics and owes whatever political success he has achieved to the most faithfully organized political organization in the history of the nation.

MAYORS INTRODUCED
Col. Eric Fowler, chairman of the Los Angeles County Republican Central Committee, who presided, introduced the efforts of Louis Meyer and Mark L. Regan in the campaign. Mendel B. Silberberg, director of the Southern California Republican campaign, introduced the mayors, calling first on Mayor Cryer to welcome his fellow executives. Mayor Cryer declared that Hoover will be elected triumphantly November 5.

As they were introduced the mayors made brief talks in which all of them predicted their cities will return overwhelming majorities for Hoover and the Republican ticket.

They included: Harry MacBain, Glendale; A. N. Muller, Arcadia; Frank B. Chapman, Laguna Beach; W. E. Shinnick, Santa Ana; C. R. Benedict, Huntington Park; Frank B. Williams, Ontario; A. L. Clark, Bell; P. L. Purinton, Santa Ana; W. F. Thayer, Jr., Buena Vista; Clayton Taylor, Pasadena; I. N. Gilbert, San Bernardino; Albert C. Chalk, San Diego, and L. E. Frost, La Habra.

Among the guests was Mrs. Mary Hoover Leavitt, sister of Herbert Hoover, and she was giving a rising salute when introduced.

LUNCHEON PLANNED
Col. Fowler announced that next Wednesday noon at the Alexandria a luncheon will be given in honor of the Republican electors of California.

The American people are going to give answer in the coming national election to the question of whether they want for President a man whose life has been dedicated to the successful direction of great business enterprises and who was drafted into political life by pressure almost beyond his control, or a man without business experience whose election has been political.

"This is the gist of Mr. Lawler's speech. Primarily, the business whose management is in question, in this campaign extends to every country and deals with every people on the globe; it almost surpasses in variety and magnitude human comprehension."

"For manager, the Republican party submits a man whose life has been spent in the successful direction of business enterprises of great magnitude and peculiar difficulty, and at times under the most trying circumstances, in all parts of the world, culminating in the most stupendous combined humanitarian business and governmental undertaking in all history, the administration of the Belgian relief. He was drafted into political life by pressure of circumstances almost beyond his control."

WHICH SHALL BE CHOSEN
"The Democratic party, on the other hand, offers for the managerial position a man without business experience, who is a native of the country; whose familiarity with foreign affairs is confined to contacts with the immigrants at New York, and by choice, from very early manhood has made a vocation of politics."

"The latter would not necessarily condemn him, but with his political sponsors and associates, those whom he frankly recognizes as responsible for his political career, are the directing forces of that most persistent, consistent and flagrant corrupt political organization which has dominated the affairs of New York City for more than fifty years—it is necessary to ask the question, which shall we choose?"

Orliciting the last Democratic administration's conduct of foreign affairs, Mr. Lawler declared that notwithstanding the dominant position of the United States in world affairs at the end of the war, the Republicans found the State Department weak, vacillating and fluid.

"Our status in Europe was almost below zero," he declared, "and trade and financial relations were in turmoil. Mexico, Central and South America viewed us with suspicion. European debt conditions were in confusion, and diplomacy was at a standstill."

Culver Predicts Hoover Victories
WASHINGTON, Oct. 24. (Exclusive)—Harry H. Culver of Los Angeles, who has been campaigning by airplane through the West for the Republican national ticket, wired Herbert Hoover today that in his opinion Montana, Nebraska, and Missouri are the only states in the column and in the Republican column.

Culver is described in a headquarters statement as "a long-distance campaigner," having flown more than 50,000 miles and visited twenty-four States to make an average of two Hoover speeches a day.

COL. KUEHNRICH RETURNS HOME

Former Los Angeles Brewer Back from Europe

German-Americans Told of Hoover's Service

Declares Nominee Saved Starving Nations

Col. P. Max Kuehnrich, formerly the owner of extensive brewing interests in Los Angeles and elsewhere in California, returned yesterday from a tour of Germany and in a statement to William H. Hill, State chairman of the Hoover-Curtis campaign, declared that German-Americans not to forget the great service rendered Central Europe by Herbert Hoover in the serious period of famine there under the direction of Hoover.

Col. Kuehnrich declared that Hoover's humanitarian achievements had made his name household words in Germany and Austria and strongly endorsed his candidacy for the Presidency. He was asked personally by Hill to make reports and suggestions upon conditions in Germany and, in complying, became thoroughly familiar with the work there under the direction of Hoover.

FOOD IMPORTANT
"Mr. Hoover declared to me that food was the most important problem of the world today," said Col. Kuehnrich, "and he asked me as I was going to Europe to visit the German Red Cross and other charitable organizations and assure them that they would be governed by their advice in the distribution of food and that his organization would assist them in every way."

"The German authorities repeatedly expressed their profound gratitude for the work done by Mr. Hoover, declaring that he had saved the physical and mental health of the nation's generation in Germany from catastrophe."

KNOWS ABOUT WORK
"Since my return here, I have learned with astonishment and regret that a group of German-Americans affiliated with the Young Men's Association of Los Angeles have attempted to cast reflections upon Mr. Hoover's seal and solicitude for the starving Germans at the end of the war. Ingratulating is not a German trait. I know what I am talking about."

"By my conversation with Mr. Hoover at the time and the instructions he gave me, my knowledge of what he accomplished in Germany was not derived from newspapers. I saw him and heard him and saw the most terrible suffering in history being relieved by his aid. I saw the German-American hope held out to German-Americans by Gov. Smith of a prospect of supplying them with food and clothing, not cause me or my compatriots here to forget that Herbert Hoover at the most terrible time in history saved our fatherland from starvation, Bolshevism and anarchy."

Veterans Hear Hoover Pleas
Disabled veterans who filled the auditorium of the Sawtelle Women's Club last night were addressed by Representatives Cral and LeRoy Dawson, Los Angeles attorneys, who reviewed the record of the Republican party and predicted that under the leadership of the Republican Hoover the United States would enjoy continued and increased prosperity.

Representative Cral declared that the Republican party has proven its willingness to help war veterans and particularly disabled veterans.

New York Put in Hoover List
INDEPENDENCE (Kan.) Oct. 24. (AP)—A prediction that Herbert Hoover will carry New York was made here today by Senator Capper of Kansas.

Business men of New York and the East, said the Senator, "look at this standpoint more from a business standpoint than from any one angle and many who supported Smith for Governor now unquestionably are for Hoover and Curtis."

Would you like to Vacation in Hawaii?

Employees... "Heard Brooks was vacationing in Hawaii." Sander... "Yes! He was over there all summer."

Employees... "How can he afford a trip like that? He has been working in the same department with me for many years."

Sander... "You know Brooks was 65 years old last spring. He has a Pacific Mutual '5-way' Policy. On his birthday his policy paid him \$3,000 and in addition he gets a monthly income as long as he lives."

Employees... "Say, isn't that great. Why, Brooks won't have to work any more the rest of his life. Wish I had taken out a policy like that when I was younger."

Why wish when it's too late? Act now. You too, can retire at 65 or sooner. The "5-way" policy will even do more. Note the following "5-ways" that it pays:

1. PAYS YOU for accident \$200 for total disability and \$100 a month for partial disability. Also \$10,000 cash at death, total, or right.
2. PAYS YOU for sickness \$200 a month while totally disabled.
3. PAYS YOU \$300 a month for 10 years or \$150 per month for balance of life. \$10,000 cash at age of 65 if you are permanently and totally disabled. All life premiums waived during permanent disability.
4. PAYS YOU \$10,000 Cash at age 65. Pays earlier if you let your dividends accumulate.
5. PAYS YOUR BENEFICIARY \$10,000 cash if you die before you are 65, or \$20,000 cash if accidentally killed.

The low cost will surprise you! The Pacific Mutual Life was founded 60 years ago and is now celebrating its DIAMOND JUBILEE ANNIVERSARY. It is the largest and oldest company west of the Rockies and does business in 45 states. In Southern California alone it has more than 100,000 policies in force. . . . Mail the Coupon TODAY.

ORGANIZATION OF ITS KIND IN THE WORLD

INDUSTRY HEADS DINNER GUESTS

Columbia University and Meat Packers Hosts

Edison, Ford, Wright and Schwab Honored

Bank Chief Discounts Fear in Money Situation

NEW YORK, Oct. 24. (P)—Fifty heads of American industry were guests tonight at a dinner given jointly by Columbia University, the Institute of American Meat Packers, the New York State Chamber of Commerce and the New York City Merchants' Association.

The men honored include Thomas A. Edison, Henry Ford, Orville Wright, Charles M. Schwab, Julius Rosenwald, George Eastman and Harvey S. Firestone. Cyrus H. K. Curtis and Glenn H. Curtiss had been included in the list, but were unable to attend.

FINANCIAL FEARS DISCOUNTED

The dinner, given at the Hotel Astor, followed upon the fifth conference of major industries held during the day at Columbia under the auspices of the university and the Meat Packers' Institute with the co-operation of the Chamber of Commerce and the Merchants' Association. Speakers at the conference represented finance, printing and publishing, communication, meat packing, automobiles and iron and steel.

Charles E. Mitchell, president of the National City Bank, told the Columbia audience that danger in the current financial situation seemed to be "largely psychological."

"I do not think we have need at the moment to be fearful," said Mr. Mitchell. "I cannot see what is going to disturb the situation. I believe that we are more likely to move out of the troublesome times that are seen by many at the moment into comparatively clear waters because this country in its present state of prosperity, is piling up savings so fast and these savings are growing so rapidly into the security account that the loan account should come down even if the price level advances to some extent."

STEEL INDUSTRY VITAL

Products of the iron and steel industry are so vital to the country's happiness, welfare and safety that the nation may well protect and encourage it in all fair ways, Myron O. Taylor, chairman of the United States Steel Corporation's finance committee, told the conference. Pointing out that the public and many industries are dependent upon the steel industry for the smooth running of the general economy of the country, but that few realize with what perfection the system of protection must be synchronized and plant capacities provided to meet the demand without embarrassment to the nation, Mr. Taylor declared that the industry is serving the public for an exceedingly modest reward.

He said it is estimated that the industry has a capital in excess of \$4,700,000,000, or considering property values at reproduction cost, of at least \$6,000,000,000, yet the combined results of thirteen leading companies in the past four years show profits ranging only from 4.95 per cent in 1924 to 6.80 per cent in 1926 and 5.50 per cent last year. He placed the average annual profit of the United States Steel Corporation between 1923 and 1926 at 5.67 per cent and between 1924 and 1927 at 5.60 per cent, a relative reduction of 15 per cent between the two periods.

Grayson Given Right to Retire

WASHINGTON, Oct. 24. (P)—The application for retirement made by Rear-Admiral Cary T. Grayson, formerly personal physician to President Wilson, has been approved by President Coolidge. Admiral Grayson has been elected president of the Gorge Memorial Institute.

Admiral Grayson retired after twenty-five years' service in the medical corps of the Navy and in addition to his services to President Wilson, he was surgeon on the Mayflower during the Roosevelt and Taft administrations.

Another Blaze Trails Royalty

DUBLIN (Irish Free State) Oct. 24. (P)—Another fire occurred last night at Portumna, County Galway, where Princess Mary and her husband Viscount Lascelles visited recently.

The blaze started in the technical schools and grew so rapidly that urgent calls were sent to Athlone and Limerick, after which telephone communication ceased. Limerick was unable to send help.

Princess Mary recently inspected the schools.

Filipino Senate Votes Trade Bill

MANILA, Oct. 24. (P)—The Philippine Senate today passed a bill which would create the office of Philippine trade commissioner in the United States.

Adoption of the measure was prompted by the Timberlake resolution now pending in the American Congress, and the possibility that other legislation considered detrimental to the Philippines might be introduced there.

The resolution referred to is one by Representative Timberlake of Colorado. It will limit the amount of duty free sugar exported to the United States from the Philippines at 500,000 tons annually.

BUGLER SAVES ITS BOYS

BALTIMORE, Oct. 24. (P)—One hundred and seventy-five boys, rescued by a 13-year-old bugler, marched to safety early today when fire destroyed the main building and dormitory wings of McDonough School, a private institution about five miles from here. The building and its equipment were valued at more than \$700,000.

637 SOUTH HILL STREET

EPISCOPALIANS RATIFY BUDGET

Church Body Yet to Act on Nevada Bishop

Uniform Marriage Law Action Deferred

Amending of Constitution Change Rejected

WASHINGTON, Oct. 24. (AP)—The Episcopal Church will spend \$4,235,000 for annual maintenance during the next three years, and an additional \$3,000,000 during the period for special projects, it was determined today when the house of deputies in general convention here ratified the plan approved yesterday by the house of bishops.

The house of deputies adjourned with but one project remaining on its calendar, the confirmation of the election of a bishop of Nevada. The election was held by the bishops behind locked doors and the result withheld, but it is understood that Rev. Thomas Jenkins of McMinnville, Or., had received the post.

A proposal that the deputies approve a resolution urging uniform marriage and divorce legislation, particularly in the case of married persons, was referred to a committee for further consideration. This action virtually eliminates the suggestion until the next triennial convention.

Dr. W. Sinclair Bowen of Washington, D. C., was one of the strongest supporters of the resolution, declaring the country should take "as much pains in caring for humans as are taken for cattle and sheep."

The deputies also rejected a motion which would permit a majority of the bishops present to amend the constitution instead of a majority of the house, as now required. Proponents of the measure argued that a number of retired bishops who had resigned their jurisdictions were either unwilling or unable to attend convention sessions, thus registering negative votes on constitutional questions and defeating changes sought by a majority of those attending.

Dean George H. Fowell of the Pacific Province Divinity School said the lack of majorities was due also to the fact that some of the bishops were on the golf links during sessions and said: "I don't see why we should be called upon to enlarge the army of Episcopal golfers."

EVEN MOPS MAY GO HIGHBROW

Course for School Janitors Advocated by Professor of Education in Ohio

CINCINNATI, Oct. 24. (AP)—There will be a course in "mopology" offered at the University of Cincinnati if the recommendations of Dr. Harry S. Ganders, professor of education, are followed.

He proposes a training class for school janitors and engineers, which, if begun, would be the first in this section of the country.

Dr. Ganders maintains that no one except the principal has more influence over the physical well-being of the school children than the janitor.

Notes Follow Turk Shooting

CONSTANTINOPLE, Oct. 24. (AP)—The shooting of two Greek fishermen by Turkish coast guards, causing much excitement in Greece, is understood to have been the subject of an exchange of notes between the Turkish and Greek governments.

Reports from Smyrna state that the Turkish coast guards had exchanged shots with the Greek fishermen, who were discovered fishing in the territorial waters of Tchechme. The Greek vessels took refuge on the island of Chios, where one of the fishermen died and was buried amid scenes of great excitement. The inhabitants demonstrating against the Turks.

Wreck Ascribed to Pilot's Death

GREEN RIVER (Wyo.) Oct. 24. (AP)—Ray Welker of Montpelier, Idaho, was found dead today after a rear-end collision between two freight trains of the Oregon Short Line near here.

Railroad officials said Welker may have been dead at the throttle of his engine when it crashed into the rear of the freight ahead. The caboose, locomotive and one car of the first train were overturned.

NEW JAPANESE ENVOY GREETED

Debuchi Hands Credentials to Coolidge

Emperor's Best Wishes for Prosperity Brought

President Hopes Nippon Will Keep on Flourishing

WASHINGTON, Oct. 24. (AP)—President Coolidge received today at the White House the new Japanese Ambassador to Washington, Katsuhiko Debuchi, who presented his credentials.

The new Ambassador pointed out that he is the first Ambassador to the United States the present Emperor of Japan has nominated since his accession to the throne. The Emperor took this opportunity, the Ambassador said, of conveying to you in the most direct and public manner his warm sentiments of friendship and regard for the people of the United States and for yourself personally. His Majesty charges me to say at the same time that he entertains the sincere hope that the prosperity of this great nation will ever continue to increase in the future as it has conspicuously done in the past.

In reply President Coolidge said he desired that the Japanese Emperor convey to the Japanese people "the earnest hope entertained by the government and people of the United States that under his reign so auspiciously begun your country will continue to enjoy the blessings of peace and prosperity."

In view of the Ambassador's previous experience in this country, Mr. Coolidge said, he is confident that Debuchi will "do much toward the advancement of the interests of both Japan and the United States. I wish to assure you that in the carrying out of this purpose you may rely upon my hearty co-operation."

Wife of Hoover Wedding Guest

NEW CANAAN (Oct.) Oct. 24. (AP)—Miss Mary Elizabeth Rickard, daughter of Mr. and Mrs. Edgar Rickard of Fifth avenue, New York, was married to Reginald Dorsey Mohun, here today. Among the guests were Mrs. Herbert Hoover, wife of the Republican nominee for the Presidency, and her son, Allan.

BOYS NOW STUDY KITCHEN ARTS

Figures Show 7000 Prepare to Take Over Cooking—If Necessary

WASHINGTON, Oct. 24. (AP)—So long as women must usurp man's place in the barber chair, there is prospect of a decree of retaliation by the sterner sex—usurpation of the kitchen.

The Federal Bureau of Education figured today that 7000 high school boys are taking courses in home economics, to learn all about the domestic problems of their future homes.

Within the past two years, the bureau says, a feeling has developed among high-school superintendents that boys need instruction in the fundamental principles underlying successful American home life.

W.C.T.U. Keeps All Officers at Stockton Session

STOCKTON, Oct. 24. (AP)—Mrs. Addie Garwood Estes, president, Berkeley, and all other officers unanimously were re-elected to today's session of the forty-eighth convention of the Women's Christian Temperance Union (North) of California.

In addition to Mrs. Estes, those returned to office are Mrs. Anna A. Pettit, Fairfax, first vice-president at large; Mrs. Beatrice E. Coggins, San Francisco, corresponding secretary; Mrs. Emilie E. Snow, Petaluma, recording secretary; Mrs. Mrs. A. Orvis, Modesto, treasurer; and Miss Elizabeth Hirsch, Berkeley, branch secretary of the young people's branches, Loyal Temperance Legion.

A 13-year-old Japanese girl, Jun Okamoto, San Jose, won the diamond medal oratorical contest last night as a feature of the convention. She won against a field of eight rivals and was presented with the diamond medal by Mrs. Frances P. Parks of Evanston, Ill., member of the national board of the W.C.T.U. Kenneth Marcum of Oakland won second prize.

NEWSPAPERS PAID TRIBUTE

Noyes of Associated Press Cites Their Honesty

Deserving of Confidence of Readers, He Asserts

Views Voiced in Address Before Industrialists

NEW YORK, Oct. 24. (AP)—Frank B. Noyes of the Washington Star, president of the Associated Press, told a group of representative industrialists today that American newspapers as a whole are "worthy of the confidence of their readers."

Speaking at the fifth annual conference of major industries at Columbia University, Mr. Noyes said he thinks everyone familiar with journalism in America in the last fifty years will agree "that in accuracy of statement, in breadth of information, in ethical standards" there has been a steady progress upward.

Mr. Noyes, appearing as the representative of the publishing industry, said that the reports of newspapers and press associations "which are the products of human beings, but he gave assurance that 'the intention is to fairly and accurately depict the situation described.'

He defended American journalism against charges of attack and criticism which, he said, are unjust and unwarranted.

MALICIOUS CRITICISM

"I have no reply that I care to make," he said, "to those who maliciously and falsely impute motives that do not exist, or those who profess not to believe anything they see in the newspapers, though in truth most of the little they know is based on a basis that has been gathered from those same newspapers."

"Perhaps the largest class of critics," Mr. Noyes said, "are those who find partisanship in the news reports of both press associations and newspapers. I think that the news is the main of entire good faith, but unfortunately the real trouble is that they are so partisan themselves that what they want is partisanship on their side."

"I have been in this business for many years and if the time ever comes when the Associated Press is not charged by all parties and most candidates with adverse partisanship I will be very seriously perturbed."

"As it is, I am acutely conscious of the fact that we are doing our level best, day in and day out, to keep in the middle of the road, having no partiality for any party, any church, any economic theory or any cause or man whatever and, on the other hand, no hostility to any of them."

"I know that this is true of the Associated Press and I believe it is also true of the other large press associations."

Another form of attack "more or less popular with critics with undeveloped intellectual honesty," Mr. Noyes said, "is to make a charge so vehemently, so didactically that one is apt off hand to conclude that if true, sinister conclusions must be drawn."

"An example of this," he continued, "can be given in the attacks on the Associated Press when it sent a story from Washington stating that our State Department was much disturbed over what it regarded as an attempt to establish a Bolshevik hegemony over Central America and that the department's attitude toward that section of the world was governed by that frame of mind in the Department of State."

CHARGE ANSWERED

"The charge was made that in distributing this story the Associated Press became the servile tool of the State Department, but when all is said and done the fact remains that the attitude of our government was accurately given in the story and in my judgment (although I had no knowledge of it until after it had been printed) it was news of high importance to which readers of the newspapers which compose the Associated Press were entitled and the withholding of which, not the printing, would have been a gross betrayal of trust."

As to whether the apprehensions of the Department of State had a substantial foundation, as to whether the Bolsheviks were or are right or wrong, was and is no concern of the Associated Press—the prime fact was that we had definite, reliable information that our government was dealing our relations with Mexico and Nicaragua on this basis."

ANALYSIS OF ATTACKS

Mr. Noyes found that most of the attacks on the integrity of newspapers or press associations "revolve themselves essentially into attacks on individual workers—not owners or managers, for every man engaged in this work knows that no executive would or could personally distort news accounts and survive."

"There have been venal newspaper men as there have been venal doctors, lawyers, business men and even venal politicians, but God be thanked that the newspaper crooks are few and far between."

Mr. Noyes concluded with a tribute to the news gatherers who are serving nobly, suffering proudly, dying bravely that you and I may have our daily tidings of what is happening in this cynical old world of ours."

Student Flyer Flung to Death From 4000 Feet

WINDSOR (Ont.) Oct. 24. (AP)—Arthur D. Strevett, 19 years of age, a student flyer of Windsor, plunged 4000 feet to his death and B. H. Soundy, 34, his instructor, escaped a similar fate by clinging to a strut on their biplane when they were thrown from their seats while flying over Essex county near Malden, Ont., today.

The accident occurred when the flyers lost control of the plane and it turned over. Neither was strapped in his seat.

Unmanned, the plane ran wild in the air for a few moments, out Soundy managed to climb back in the cockpit, right the craft after it had fallen within 100 feet of the ground and bring it back to earth safely.

EROS UPSETS "ISAIAH" CULT

Love Tangle Brings Order to Vacate Tract in Florida Occupied by Faith Healers

POST MYERS (Fla.) Oct. 24. (AP)—Ten years after "Brother Isaiah," gray-haired and bearded "faith healer," founded a colony on an eight-acre tract near here, the cult today is facing dissolution because of a court ruling which orders the property vacated within three days.

A love tangle, it is revealed, proved the undoing of the cult's tangle. Disension broke out in the ranks shortly after "Brother Isaiah" departed recently for California with two young women members of the colony, leaving "Brother" Helder in charge as leader.

HISTORY TRACED

Born after the colony was founded, Mrs. Eric Younger, whose husband owns the tract, became a member, but is asserted to have eloped with "Brother" Ernest Alden, one of the members, who claimed to be a "god man" and to possess divine powers to rule the universe.

Younger, who obtained a divorce following his wife's elopement, asserted that Alden promised to make his wife a "god queen."

The elopement proved spectacular, Alden preventing Younger from pursuing by use of a shotgun said to have been thrust into his hand by Mrs. Younger as they fled camp. Alden later was arrested, but released.

NUMBERS DWINDLE

The last chapter of the cult's history here began when Younger and "Brother" Helder, who had married other men from the women's quarters of the colony, engaged in a fist fight. Helder had Younger arrested and when the latter was acquitted on a charge of assault and battery, Younger entered suit to oust the colony from his property.

The colony now has dwindled to a dozen men and women.

Male members of the cult are required to wear full beards and long hair. All women have one or more married, although their husbands are not members of the cult, it has been testified.

The colony is about 10 miles from Fort Myers, on the Tamiami Trail. Near by is another colony known as the Koreanan Unity, founded by Dr. Cyrus Teed, formerly of Chicago, whose members adhere to the belief that the earth is concave instead of convex and that the people live inside rather than on the outside of the globe.

PATERNITY SUIT FACED BY GRANGE

"Blackmail," Cries Son of Griddiron as He Puts Bond to Fight Charge

CHICAGO, Oct. 24. (AP)—Harold "Red" Grange, famous "gallant knight" of the gridiron surrounded himself with the detective forces of day after a warrant for his arrest on a paternity charge had been granted Mrs. Helen Plunkett.

Plunkett says she is the mother of a daughter born last March 1, and declares the child's father is Grange.

The former football star, who now is appearing as an attraction at a Loop theater, posted a bond of \$1500 and was released.

"There is nothing in this case but an attempt at blackmail," Grange said. "I will fight it stoutly in order to restore my reputation. I want the right to be un molested by people seeking easy money."

He also charged a representative of the girl had approached him and offered to settle the matter for \$500, and that he had refused.

Mrs. Edward Quinn, who told reporters she is the attorney for Helen Plunkett, told them she had approached Grange in regard to a statement out of court.

"I told him," she said, "that under the law a paternity case could be settled out of court for \$500, but that if fatherhood is proved in court it will cost him \$1000."

The woman is said to be an employee of a local bank.

NEW FACT EXPECTED

EL PASO (Tex.) Oct. 24. (AP)—Continental says a new edition of convention will be staged today by the Foreign Secretary of Mexico and the diplomatic representatives of Panama.

WANTED...a Retired Couple Who Seek this Fulfillment of Happiness

Do you seek contented seclusion, away from the turmoil of the city? Do you want a cozy home, a flower-filled garden where you can retire and enjoy the things you've always planned to do?

Tucked away at picturesque Del Mar is a roomy, quarter acre plot just meant for you!

Here you can build a Spanish Villa, guarded by towering Eucalyptus and Torrey Pines. You can create a beautiful garden, bursting with the bloom of your favorite flowers. A sunny patio to breakfast in, looking out to sea. Rose vines tracing your garden wall and welcoming entrance way.

You can putter around to your hearts content in this enchanting garden of yours. 347 days each year of genial sunshine, beckon you out of doors.

Within a few blocks are an 18 hole grass golf course; bridle trails; bathing beach and outdoor plunge; fishing pier; tennis courts. All these to enjoy as often as you please.

the only small grand receiving such acclaim

The Knabe Mignonette

MANY small grand pianos are made, but only one—the Knabe Mignonette Grand—has ever been chosen by the great of the musical world. Mary Garden, Humperdinck, Leschetizky, Harris—artists like these have found in this exquisite little grand qualities of lovely tone and perfect action ordinarily offered only by large concert grands.

Come in, hear the Mignonette. See the many smart modern models. Then decide to replace your old-fashioned, bulky piano now. A 10% down payment brings the Mignonette to your home—you have years to pay the balance!

In the style of Louis XV, as illustrated, this dainty little Knabe Mignonette Grand is priced at \$1900.

Direct Deal

...factory to you

30 SUITS and OVERCOATS	35 SUITS and OVERCOATS	45 SUITS and OVERCOATS
\$20	\$25	\$35

The COMMODORE
 Men's and young men's
 single-breasted overcoat...
 made to button through...
 self collar... notch lapels
 ...length 44 inches.

The WAKEFIELD
 A popular semi-conservative, double-
 breasted model, 3-button, two in
 button, with peak lapels, and 6-
 button vest. One of our greatest
 models for all men.

We deal direct with the public... the great economies effected are going into our customers' pockets. We serve but *one master*, listen to but *one voice*... The American Public. Through its good will and confidence we have become the world's largest makers and retailers of men's fine clothing. The *direct deal* is the *square deal*. We are indebted to it for 83% repeat business.

No Middleman Profits

From factory to YOU through our Upstairs Stores. We manufacture and sell only our own clothes. Our prices are established—\$20, \$25 and \$35. We rig up no "bargain sales"—have no left-overs. Day by day, fresh from our 5 great Daylight Factories go shipments of advanced styles, exquisite in tailoring, faultless in fit.

With the sale of the garment and the assurance of customer satisfaction in style and fit our responsibility only begins. Three weeks after the sale the customer receives a card from us asking if there is any alteration he wishes, the necessity for which might not have been apparent at time of purchase. If so, he is cordially urged to bring in the suit—alterations required are made by expert tailors without cost to him. F&C service does not stop with this. After 6 months the customer receives a letter which is a checkup on wear, color fastness, fit and other points. Our customers must be continually satisfied. That 83% are "repeats" reveals how thorough is our service.

Trade Upstairs

Pertinent Points to Ponder

There are 36 hand-tailored operations in building our garments—each an achievement in finer workmanship. By hand, sleeves are draped, shoulders shaped, collars felled, edges taped, inner front built, lapels rolled. The exclusive F&C inner front is one of the greatest contributions ever made to customer comfort, to long-wear. It withstands every body movement—soft and pliant, light and supple, yet strong with the strength of fine Linen Canvas from Belgian flax fields—soft with Silver Hymo.

All fabrics used in our clothing come from internationally known and accredited mills—all are tested before acceptance in our laboratory for weaves, weight, color, strength and stress. We employ 9 tests, identical with the tests used by the U. S. Bureau of Standards. We have no knowledge of any other clothing manufacturer who goes to this great length to insure this standard of quality. All fabrics are shrunk thoroughly by us, as well as by the mill, by the London full 3-day cold-water process.

VORK SPEEDED ON MISSISSIPPI

Appropriation Expected to be Used Up Soon

WASHINGTON, Oct. 24 (Exclusive).—Secretary of War Davis announced today that operations on the flood waters of the Mississippi River is proceeding so rapidly that it is virtually certain that the entire appropriation of \$24,000,000 for work this year will be expended before the end of the year.

WHAT EVERY CHILD IN SCHOOL IS TAUGHT ABOUT THE HUMAN BODY

Simple Gland Operation Consistent With Nature

Every child is taught in school that the busy cells are constantly broken down by the process of living, and that old cells are continually being replaced by new cells. Every separate and distinct part and organ of the body selects from the blood stream just that certain element or elements which it must have in order to maintain its normal function, and to replenish itself. If the blood stream lacks some of these elements, it naturally follows that some cells fail to find those vital substances which they need. If the necessary elements of nutrition are not carried in the blood stream to each cell, these cells will starve. THIS ALTERED OR LESSENED FUNCTION WE CALL DISEASE.

"Words: Powerless to Express Marvelous Results," Says Mrs. J. A. Nielson

258 Herman St. San Francisco, Calif.

Dear Dr. Wheeler:

It isn't possible for me to put into words the marvelous results I have had from the gland transplantation at your hands. I wish to state causes which led to my former terrible physical condition, and to add that my improvement is one of the greatest satisfactions in my entire life. For years I have been a victim of insomnia due to an alarming nervous state. My heart was almost constantly in palpitation, and I would faint when excited a little more than usual.

Most of my life I have been anemic. Poor appetite, constipation and too many ills to mention beset my days and nights. I am so thankful to be able to say that since my last treatment I have improved to a point where I expect to know very soon what is meant by normal health, something I knew little about. Should anyone wish to see the places do not hesitate to call. I feel it my duty to aid any sufferer who is suffering as I once did.

(Signed) Mrs. J. A. Nielson

Telephone: Park 2641.

More Than 15,000 Operations Performed

Dr. Wheeler has performed more than 15,000 of his knifeless gland operations in the past several years, and hundreds of his former patients may be interviewed as to the results which followed. Volumes of letters telling of marvelous benefits following his simple, knifeless operation are open to those seeking robust health.

A Copy of His Book Sent Free

The book may have a copy of his astonishing book, "Health and Vitality from Normal Gland Activity," on request. No charge is made for examination. Call Washington 2311 for appointment, or come to his office, 2113 Wilshire Blvd. Take "B" yellow car from downtown, with its black coat from 5th Avenue after reaching Wilshire.

PRINCETON VOTING OBSTACLE AROUSES HOOVER TO ACTION

PRINCETON (N. J.) Oct. 24 (Exclusive).—Herbert Hoover has taken a hand in the fight to restore the right to vote to Princeton undergraduates, it became known here today.

President Hibben of Princeton, who is to speak for Hoover in Washington, laid the case of the denial of suffrage rights to Princeton students before the Republican nominee, Hoover expressed interest and is said to have summoned Daniel Pomeroy, Republican national committeeman from New Jersey, into conference with him on the subject. Pomeroy said he will proceed to Trenton to lay the matter before State election authorities.

new flood control plans include the enlargement and strengthening of main river levees, bank revetment, dredging and preliminary work on other features of the project, including the spillways for the protection of New Orleans.

Hoover Called 'Inexperienced'

LOUISVILLE (Ky.) Oct. 24 (AP).—John W. Davis, Democratic candidate for President in 1924, speaking here tonight in the interest of the Presidential candidacy of Smith, dealt extensively with past performance of Herbert Hoover, Republican nominee. "He has had," Davis said, "no training in the process of American government."

A rude interruption to Davis' speech occurred when George Herman "Babe" Ruth, a previous speaker, was almost catapulted into the press seats when his chair collapsed. The ballplayer's 300 pounds or more were caught by a railing about the speaker's stand. A more substantial chair was obtained as the Babe sat down.

BAY CITY TRIO HURT BY FALL OF WALL

SAN FRANCISCO, Oct. 24 (AP).—Mrs. Lillian Kerr, 35 years of age, wife of Laurence R. N. Kerr, master of the army transport Cuba, at present at Honolulu, suffered a skull fracture and other injuries when she and two other persons were caught under a falling wall here today. The other injured were Mrs. E. L. Fairchild and Sam Karos, both of San Francisco. The wall was of wood, erected to fence in a construction job on Market street.

MOTHER AND CHILD KILLED RICHMOND, Oct. 24 (AP).—Mrs. Charles F. Hall, 35 years of age, Richmond annex, and her 7-year-old daughter Caroline, were killed today in collision of Mrs. Hall's automobile and a Southern Pacific train here. Three small girls riding in the automobile were injured.

HUGHES LAUDS HOOVER TALENT

All Effort to Betterment of Life for All

Aims and Accomplishments of G.O.P. Recited

Smith Record on Economical Rule Challenged

(Continued from First Page) mental policies and methods. He believes the policies which will aid most are those of the Republican party.

SMITH RECKLESS "The candidate of the Democratic party, in an endeavor to prove the contrary, has become quite reckless in his assertions. Thus he laid the other day in his speech in this city:

"The Republican party never learns anything new. They never see anything new. They have no ideas about progress."

"Gov. Smith seems to forget that it is the Republican party that gave us the Hepburn Act and the Crampton amendment; the Pure Food and Drug Act, the first Inspection Act, the Hours of Service Act, the Employers' Liability Act, the Federal budget reform and many other progressive measures."

"The Republican party, whatever its shortcomings, has had constructive genius. It has been aggressively progressive, and some of its efforts have been put forth in opposing Democratic policies which would have been ruinous."

FAMILIAR WORDS "Gov. Smith says that 'the Democratic theory is that government should be constructive and not destructive; it should be progressive and not reactionary.'"

"These are familiar words. They were the words of Bryan preaching the delusion of sixteen to one in 1900, and any revolution in that system, whether it is sudden or not, nor do we trust to our opponents to determine what is or is not severe."

"We have to ask American voters to support Gov. Smith in order to maintain the Republican policy of protection. If we desire that, the only sensible course is to support Hoover and the Republican party."

HOOPER TALENTS CITED Another way of extending prosperity, the speaker said, was by increasing facilities of transportation which directly affect agriculture. "Mr. Hoover has the keenest interest in transportation system from the Great Lakes to the sea," he said. "He is looking forward to the completion of a great system of large lines of the rivers and connecting the lakes with the gulf which will make an effective transportation system 12,000 miles in length, penetrating twenty Mid-west States."

Listing Hoover's qualifications as an engineer and by experience, for completing a project of this kind, the speaker said he believed that if elected the Republican nominee's name would go down through history as the successful promoter of this most important enterprise, carrying its blessings not only to ourselves but to the future generations."

CO-OPERATION STRESSED Co-operation, the last point which Mr. Hughes made as to the way a government may aid the prosperity of a nation, was termed the keynote of Hoover's activities.

"He took the Department of Commerce, a disjointed affair with scattered and uncoordinated activities, and made it a strong co-operative organization," said Hughes. "We had the serious conditions of unemployment seven years ago and Mr. Hoover stimulated a vast co-operative movement to bring relief. In any emergency his aim is not to drive but to lead, to lead co-operative organization and thus to obtain the voluntary common efforts of all whose interests are affected."

The Republican nominee was characterized as labor's best friend, and "the efficient friend of humanity."

"Hoover's Americanism is not a thing of slogans or catch words to win votes," concluded Hughes. "It is a profound conviction based on accurate knowledge of American institutions, a conviction based on accurate knowledge of what other political systems are and the injuries they inflict."

Mary Pickford in Plea on Tax

WASHINGTON, Oct. 24 (Exclusive).—Mary Pickford, accompanied by her husband, appeared before the Internal Revenue Bureau of the Treasury tomorrow in an effort to convince the government that the film organization is not in arrears in income taxes for the years 1922 to 1924.

The amount involved ranges from the contention of Miss Pickford that she has overpaid the government to the government's view that she owes as much as \$100,000. The government charges that Douglas Fairbanks, husband of Miss Pickford, who accompanied her to Washington this afternoon, is \$1,090,273.56 in arrears covering years 1917, 1918, 1920, 1921, 1922, 1923 and 1925, but his case has been appealed from the commissioner of Internal revenue to the United States Board of Tax Appeals.

Counsel for Miss Pickford said her husband's case is not involved in tomorrow's conference. They explained the conference is being held in connection with efforts to settle the estate of her mother, Charlotte Pickford, who died in March, 1928, and who had an interest in the Mary Pickford Company.

Head of Velie Company Dies

MOLINE (Ill.) Oct. 24 (AP).—W. L. Velie, 62 years of age, president of the Velie Motor Corporation and the Velie Monocoupe Aircraft Corporation, died at his home tonight after a two-day illness. His death followed a few hours' announcement that his firm had perfected a large-type airplane.

DEATH DRIVER IN RAIL CRASH

Engineer Sits Lifeless at Controls as His Train Ramps Another

GREEN RIVER (Wyo.) Oct. 24 (AP).—An Oregon Short Line freight train with the hands of a dead engineer at the throttle, today crashed into another Oregon Short Line freight standing in the yards at Fish Oct. 100 yards west of the Green River and demolished four cars. The engine rolled down an embankment.

Ray Welker of Montpelier, Idaho, the engineer, is believed to have died before the crash. Clarence L. Boynton, fireman, also of Montpelier, jumped from the cab just before the collision and received minor injuries.

Boynton said Welker had not spoken after the train left Granger, thirty-nine miles west of Green River.

There are over 30,000 reindeer in the Kuskokwim country, but the industry is not prospering because of the lack of transportation facilities. To overcome this Kjeigstall decided to move his herds and secured a grazing permit for about 120 miles along the peninsula from Herenden to Cold Bay, which will make it the shortest south reindeer industry in Alaska. At this location there is ample feed for the animals and good transportation by vessels of the fishing fleet who call at the cannery.

ARGUMENTS RECALLED Hughes recalled that every argument urged by "our opponents against the increased duties in the Republican tariff act has been refuted by actual experience," and quoted from a recent speech by Hoover in refutation of the Democratic charges.

"We are told by Gov. Smith that he does not advocate any 'sudden or severe revolution in our economic system,'" said Hughes. "We do not wish any revolution in that system, whether it is sudden or not, nor do we trust to our opponents to determine what is or is not severe."

"We have to ask American voters to support Gov. Smith in order to maintain the Republican policy of protection. If we desire that, the only sensible course is to support Hoover and the Republican party."

Listing Hoover's qualifications as an engineer and by experience, for completing a project of this kind, the speaker said he believed that if elected the Republican nominee's name would go down through history as the successful promoter of this most important enterprise, carrying its blessings not only to ourselves but to the future generations."

CO-OPERATION STRESSED Co-operation, the last point which Mr. Hughes made as to the way a government may aid the prosperity of a nation, was termed the keynote of Hoover's activities.

"He took the Department of Commerce, a disjointed affair with scattered and uncoordinated activities, and made it a strong co-operative organization," said Hughes. "We had the serious conditions of unemployment seven years ago and Mr. Hoover stimulated a vast co-operative movement to bring relief. In any emergency his aim is not to drive but to lead, to lead co-operative organization and thus to obtain the voluntary common efforts of all whose interests are affected."

The Republican nominee was characterized as labor's best friend, and "the efficient friend of humanity."

"Hoover's Americanism is not a thing of slogans or catch words to win votes," concluded Hughes. "It is a profound conviction based on accurate knowledge of American institutions, a conviction based on accurate knowledge of what other political systems are and the injuries they inflict."

Mary Pickford in Plea on Tax

WASHINGTON, Oct. 24 (Exclusive).—Mary Pickford, accompanied by her husband, appeared before the Internal Revenue Bureau of the Treasury tomorrow in an effort to convince the government that the film organization is not in arrears in income taxes for the years 1922 to 1924.

The amount involved ranges from the contention of Miss Pickford that she has overpaid the government to the government's view that she owes as much as \$100,000. The government charges that Douglas Fairbanks, husband of Miss Pickford, who accompanied her to Washington this afternoon, is \$1,090,273.56 in arrears covering years 1917, 1918, 1920, 1921, 1922, 1923 and 1925, but his case has been appealed from the commissioner of Internal revenue to the United States Board of Tax Appeals.

Counsel for Miss Pickford said her husband's case is not involved in tomorrow's conference. They explained the conference is being held in connection with efforts to settle the estate of her mother, Charlotte Pickford, who died in March, 1928, and who had an interest in the Mary Pickford Company.

Head of Velie Company Dies

MOLINE (Ill.) Oct. 24 (AP).—W. L. Velie, 62 years of age, president of the Velie Motor Corporation and the Velie Monocoupe Aircraft Corporation, died at his home tonight after a two-day illness. His death followed a few hours' announcement that his firm had perfected a large-type airplane.

REINDEER DRIVE EPIC OF NORTH

Trio Starts 1000-Mile Trip With 2000 Animals

SEWARD (Alaska) Oct. 24 (AP).—With a 1000-mile journey ahead of them, Paul Kjeigstall, Norwegian, and two companions have started to drive a herd of 2000 reindeer from Alaska out along the Alaska Peninsula to the vicinity of Herenden Bay, word received by Nick Johnson, owner of a cod fishing station at Shug Cove on Unga Island, an old friend of Kjeigstall, says.

Kjeigstall, who is 60 years of age, made the trip, which is regarded as probably the longest trail transfer of reindeer in history, during the summer of 1927. While again going over the route with five reindeer and a Yukon sled testing out feed possibilities of the country, he ran into a hurried area on the peninsula and nearly lost his life. He was able to stagger through to Herenden Bay with two reindeer left. Kjeigstall expects to complete his present begins by next April.

There are over 30,000 reindeer in the Kuskokwim country, but the industry is not prospering because of the lack of transportation facilities. To overcome this Kjeigstall decided to move his herds and secured a grazing permit for about 120 miles along the peninsula from Herenden to Cold Bay, which will make it the shortest south reindeer industry in Alaska. At this location there is ample feed for the animals and good transportation by vessels of the fishing fleet who call at the cannery.

It may be small, Of plain design, The view may not Be superfluous, But thank the Lord The place is mine!

REINDEER DRIVE EPIC OF NORTH

Trio Starts 1000-Mile Trip With 2000 Animals

SEWARD (Alaska) Oct. 24 (AP).—With a 1000-mile journey ahead of them, Paul Kjeigstall, Norwegian, and two companions have started to drive a herd of 2000 reindeer from Alaska out along the Alaska Peninsula to the vicinity of Herenden Bay, word received by Nick Johnson, owner of a cod fishing station at Shug Cove on Unga Island, an old friend of Kjeigstall, says.

Kjeigstall, who is 60 years of age, made the trip, which is regarded as probably the longest trail transfer of reindeer in history, during the summer of 1927. While again going over the route with five reindeer and a Yukon sled testing out feed possibilities of the country, he ran into a hurried area on the peninsula and nearly lost his life. He was able to stagger through to Herenden Bay with two reindeer left. Kjeigstall expects to complete his present begins by next April.

There are over 30,000 reindeer in the Kuskokwim country, but the industry is not prospering because of the lack of transportation facilities. To overcome this Kjeigstall decided to move his herds and secured a grazing permit for about 120 miles along the peninsula from Herenden to Cold Bay, which will make it the shortest south reindeer industry in Alaska. At this location there is ample feed for the animals and good transportation by vessels of the fishing fleet who call at the cannery.

ARGUMENTS RECALLED Hughes recalled that every argument urged by "our opponents against the increased duties in the Republican tariff act has been refuted by actual experience," and quoted from a recent speech by Hoover in refutation of the Democratic charges.

"We are told by Gov. Smith that he does not advocate any 'sudden or severe revolution in our economic system,'" said Hughes. "We do not wish any revolution in that system, whether it is sudden or not, nor do we trust to our opponents to determine what is or is not severe."

"We have to ask American voters to support Gov. Smith in order to maintain the Republican policy of protection. If we desire that, the only sensible course is to support Hoover and the Republican party."

Listing Hoover's qualifications as an engineer and by experience, for completing a project of this kind, the speaker said he believed that if elected the Republican nominee's name would go down through history as the successful promoter of this most important enterprise, carrying its blessings not only to ourselves but to the future generations."

CO-OPERATION STRESSED Co-operation, the last point which Mr. Hughes made as to the way a government may aid the prosperity of a nation, was termed the keynote of Hoover's activities.

"He took the Department of Commerce, a disjointed affair with scattered and uncoordinated activities, and made it a strong co-operative organization," said Hughes. "We had the serious conditions of unemployment seven years ago and Mr. Hoover stimulated a vast co-operative movement to bring relief. In any emergency his aim is not to drive but to lead, to lead co-operative organization and thus to obtain the voluntary common efforts of all whose interests are affected."

The Republican nominee was characterized as labor's best friend, and "the efficient friend of humanity."

"Hoover's Americanism is not a thing of slogans or catch words to win votes," concluded Hughes. "It is a profound conviction based on accurate knowledge of American institutions, a conviction based on accurate knowledge of what other political systems are and the injuries they inflict."

Mary Pickford in Plea on Tax

WASHINGTON, Oct. 24 (Exclusive).—Mary Pickford, accompanied by her husband, appeared before the Internal Revenue Bureau of the Treasury tomorrow in an effort to convince the government that the film organization is not in arrears in income taxes for the years 1922 to 1924.

**BABY STEPS ON
IT RIGHT NOW**

EVANSTON (Ill.) Oct. 24.—(P)—You know how it is with a baby: anything to amuse the little one, even unto the accelerator of daddy's motor-car. Carl Deutsch of Hammond, Ind., a proud papa, explained the situation to Magistrate Franklin yesterday when arraigned for speeding.

"I was speeding," said Deutsch, "because the baby wouldn't let me go slow. The little fellow was having a lot of fun pushing down the accelerator. Every time I pulled him away from the accelerator he cried lustily. If you ever raised a child judge, you know how it is."

The court, having raised a family, fined the baby at, which father paid.

**Wheat King Says Election
Will Put Agriculture on
Road to Prosperity**

WASHINGTON, Oct. 24. (Exclusive).—Thomas D. Campbell of Hardin, Mont., proprietor of the largest wheat farm in the world covering 95,000 acres in all, and well known in Los Angeles and Southern California, declared today that Herbert Hoover is the only candidate for President who can and will assist American farmers to meet their problems.

Mr. Campbell spent an hour late yesterday in conference with the Republican nominee upon matters related to the agricultural situation. He also discussed the farm and market outlook with President Coolidge.

The Montanan is himself an engineer and believes that Herbert Hoover's technical and administrative training provide the combination which is needed to understand thoroughly the existing needs of agriculture. He is widely known for his accomplishments in putting wheat production upon a scientific basis, and for the advanced farming methods he employs.

"Our producers of wheat and other grains need the financial assistance of the government in storing their crops, so that they may be fed to the consuming market at a rate which will prevent glut, and keep prices steady."

"The farmers of the West are going to vote for Hoover because they know he has always been friendly to them and their interests. They feel that he has the ability to contribute more to the solution of their great economic problem than any other man in the United States today."

**SENATORS
DEBATE ON
CAMPAIGN**

**Moses and Harrison Hold
Witty Duel at Session of
Radio Manufacturers**

NEW YORK, Oct. 24. (P).—Senator Harrison, Democrat, of Mississippi, and Senator Moses, Republican, of New Hampshire, flung verbal darts at each other's parties in a half-hour "debate" at a luncheon of the Radio Manufacturers' Association today. They spun a coin to see who would speak first and Senator Harrison won, which was an indication of how the election was going in November.

"Radio," said the Democratic Senator, "is the only industry to which the Republican party can point and talk of their dreams of prosperity. The Democrats are making so many radio speeches that they are causing your industry to pile up huge dividends in reserve."

Senator Harrison said that another prosperous industry is the granite business in Senator Moses's own State, "where they are working overtime making tombstones for my political friends of the opposition party who will die after November 6."

Senator Moses began by saying that there are only two political orators left, himself and Senator Harrison. If Gov. Smith, he said, could speak for himself with the clarity and forcefulness displayed by Senator Harrison, "the betting odds would be different than they are."

The radio, he said, has played havoc with politics and personalities. No longer can one speech be carried around and read in different places. The radio necessitates a new talk every time and also, he said, it exaggerates defects in grammar and pronunciation, making them "appear glaring."

**WOMEN TO CONDUCT
RALLY FOR HOOVER**

Sponsored by the Southern California women's branch of the engineering committee, a Hoover rally to the public will be given Saturday at 2:30 p.m. in the gardens of Mrs. Chester Woodruff, 919 West Adams street. Features of the program were announced yesterday. There will be vocal music numbers. Talks will be made by Mrs. Andrew Stewart Lobinger, Mrs. W. W. Orcutt, Mrs. R. B. Von Kleinsmid, Mrs. Leland Atherton, Mrs. George Bush and Mrs. Hugh R. Van Wagenen.

**SYNOD UPHOLDS
BOOK OF PRAYER**

**First Gathering Called Since
Reformation Days**

**London Diocese Votes Also
on Sacrament Question**

**Dramatic Moment Marks
Session Opening**

LONDON, Oct. 24. (P).—Fourteen hundred clergymen of the diocese of London, meeting in the first synod called in the diocese since the reformation, today voted against permanent reservation of the sacrament and against authorizing their bishop to use his discretion on the employment of the revision of the Prayer Book, the document which was rejected by the House of Commons.

Right Reverend Arthur Bishop of London, told the clergymen that he sought "guidance" when he summoned the synod. In view of the dilemma left by Parliament's rejection of the revision of the Prayer Book, he submitted to them a number of specific questions for vote.

A proposal to give the bishop discretion to use the revised Prayer Book, pending final settlement of the question, was rejected 472 to 323. Another proposal to authorize him to regulate the permanent reservation of the sacrament for the benefit of the sick and in accordance with the provisions of the revised book was voted down overwhelmingly, 592 to 653.

The synod did, however, empower the bishop to allow reservation of the sacrament for the sick under exceptional circumstances, but only provisionally in each instance.

**LABOR HEAD
RAPS SMITH
TARIFF PLAN**

**Restrictive Immigration
Likewise Extolled by
Davis in Paterson Talk**

PATERSON (N. J.) Oct. 24. (P).—Asserting that the single issue in the Presidential campaign is "how can we best maintain and increase the prosperity in America and who is the best man to do it?" James J. Davis, United States Secretary of Labor, at the Paterson Army tonight attacked the policies of the Democratic party on the tariff and immigration issues as outlined in the speeches of Gov. Smith.

The restrictive immigration law, the Secretary said, "is the twin sister of the tariff law, one law keeps out a flood of low-priced goods, the other keeps down a flood of people willing to come here and work for lower wages."

The Secretary also questioned if Gov. Smith can, if elected, direct his party policies in so far as the tariff is concerned. "How can he," Secretary Davis said, "take his party with him on the tariff when his party refuses to follow him on prohibition?"

Mr. Davis expressed himself as believing that "the beloved American people will prefer to keep in office the party that originated the protective tariff."

**Bishop Cannon
Assails Glass
on Pay Charge**

BRISTOL (Va.) Oct. 24. (P).—Bishop Cannon of the Methodist Episcopal Church, South, speaking at a gathering here this afternoon, devoted a large part of his address in answer to the charges by Senator Glass of Virginia in a speech at Richmond last night.

"No man," the Bishop declared, "can come forward and fling as a taunt in my face that while he was working for prohibition that he was a paid agent of the Anti-Saloon League."

Bishop Cannon said that when the Enabling Act fight was in Virginia he led it, and added: "I would have been mighty glad if Senator Glass had been there helping me, but he wasn't."

Bishop Cannon denied that he ever has received more than traveling expenses from the Anti-Saloon League.

**Arizona Switch
to G.O.P. Seen**

Arizona, Democratic State, will switch to the Republican ranks and vote for Herbert Hoover at the November polls, it was predicted yesterday by Raymond Dyer, secretary of the Arizona headquarters of the Republican National Committee.

In a letter to Mendel Silberberg, Southern California manager of Republican headquarters, Dyer declared: "We all feel that Arizona is now safely in the Republican column."

For the first time in recent political history in Arizona a Democratic-Republican Club has been formed in that State, has established headquarters and is actively functioning among Democrats with an ever-growing list of memberships, Dyer stated.

He said that with registration completed the record shows that while the Democrats lost seventy-five of their total registration of 1928 the Republicans gained 600 since 1924.

MARKET FLASHES

NEW YORK, Oct. 24. (P).—Stocks: Dow Jones industrial average 248.44; Standard & Poor's 248.44. Foreign exchanges steady; Japan 100 yen 100 yen; gold 100 yen 100 yen. Sugar steady; trade support. Cotton steady; large receipts. Cattle steady; heavy receipts. Hogs lower.

Building Gas Line

Completion of the gas line from Santa Barbara to Los Angeles, as assured by the first of the year, is expected that another crew will be put on in a week or two. One crew is working between Santa Barbara and Goleta and the other crew is working out of Los Angeles. The cost of laying the line, which eventually will be connected with the Santa Barbara gas mains, is estimated at \$500,000.

The Santa Barbara branch of the Southern California Gas Company is supplying natural gas to the soldiers of the Orphan No. 1, Knapp & Dunlap in Elwood Acres. The gas is being taken from the Lodi-burn gas field, which is owned by the Santa Barbara Gas Company.

**Southern Drive
by G.O.P. Flayed
by James M. Cox**

NASHVILLE (Tenn.) Oct. 24. (P).—In a severe indictment of the Republican party's drive in the South in general and Senator Borah in particular, James M. Cox, Democratic Presidential candidate in 1928, in an address here tonight called for a moral condemnation as well as such a moral condemnation as will in the days to come spare the country from another tragedy of the heretofore and the pitiless shame of this campaign.

Mr. Cox said the present campaign was strikingly similar to Jackson's campaign of 1845. Mrs. Jackson, he said, was killed by the "poison of slander," and although "100 years have come and gone, human nature has not changed; the same passions are present."

**GENERAL ELECTRIC
EARNINGS POINT UP**

NEW YORK, Oct. 24. (Exclusive).—September quarter net income of the General Electric Company totaled \$1,164,318, after depreciation and Federal income taxes. This is equal after dividends on special stock, to \$1.73 on 7,311,481 common shares outstanding against \$1.708, or \$1.82 in the previous quarter, and \$1.262,892, or \$1.48 a share in the corresponding quarter a year ago. Net sales here were \$4,661,541, against \$7,164,589 in the third quarter last year.

Test Wells Suspended

Drilling on the G. K. Cole and W. E. Deuel test wells on the L. R. Park ranch near Refugio has been suspended temporarily because of litigation. It was down 1600 feet, showing heavy gas pressure when work stopped.

The Rio Grande Oil Company has started work on its marine pipe line from its storage tanks to the ocean, 2500 feet distant.

Will Try Washington

Pacific county in southwestern Washington is soon to be tested for crude oil production possibilities. Eight thousand acres, comprising three different areas, known as the McGowan, Bear River and Raymond districts have been leased by the Union Oil Co. of California.

It is the intention of the Union Oil Co. to drill a test well in the McGowan area at a point across the Columbia River from Astoria, in the next thirty days.

The McGowan area lies at the mouth of the Columbia River, opposite Astoria. Bear River area is located near the mouth of the Bear River on Willapa Bay, and the Raymond area is just north of the towns of Raymond and South Bend on the Willapa River.

The entry of the Union Oil Co. in Pacific county in a search for crude oil followed several months of geological reconnaissance by its production and development engineers.

Previous tests for oil in Pacific county have been made in the Pacific Northwest, all resulting in dry holes.

New Wells Authorized

Oil field operations last week showed twenty new wells started as compared with twenty-four during the previous week. Of the twenty new wells, four were for wells in the Santa Fe Springs field, two in the Signal Hill field, five in the fields of Ventura county, one in the Elwood field and eight in the fields of Kern county. The total new wells this year 684, as compared with 692 at the same date last year.

Tests for water shut-off last week numbered twenty-two, as compared with sixteen during the previous week. Yearly total to date, 890; total to same date last year, 900. Deepening or re-drilling jobs last week numbered sixteen, as compared with seven during the previous week. Total to date this year 629; total to same date last year, 700. Abandonments

**Grain Futures
Turn Lower on
Bearish Mart**

CHICAGO, Oct. 24. (Exclusive).—Increased country offerings for new corn to arrive, with purchases of around 200,000 bushels largely for quick shipment to industries, and excellent weather conditions over the belt, brought in more aggressive selling of futures. Prices declined 1/4 to 1/2 in the early hour, and closed well toward the bottom with net losses of 1/4 to 1/2 in, with December leading. Wheat eased toward the last in sympathy with corn and was off 1/4 to 1/2 for the day, while oats lost 1/4 and 1/2 to 1/4 to 1/2.

Settlement in the movement of the new crop in the immediate future. Spot basis on new corn was off 1/2 to 1/4, while on old it was unchanged. The leading operators who took in and paid for over 12,000,000 bushels of cash corn on July contracts are practically out of grain and expected to sell the balance of their holdings overnight. Little attention was paid to a good foreign demand, with sales of 200,000 to 300,000 bushels of old corn on the market. The market was quiet and steady, with a few small trades in the afternoon.

Trade in corn futures was only fair, with a few small trades in the afternoon. The market was quiet and steady, with a few small trades in the afternoon.

**PEACH GROWERS
PLAN CANNERY**

**Co-Operation Unit Agreed on
in Principle**

SACRAMENTO, Oct. 24. (P).—Twenty peach growers from the Sacramento Valley district met here late today with Simon J. Lubin, president of the Sacramento Region Citizens' Council, and agreed upon basic principles of a growers' co-operative cannery, the first unit of which would have a capacity of approximately 500,000 cases per season.

The conference was private and after its conclusion Lubin declined to reveal any details that had been discussed. He said, however, that the growers had agreed the co-operative plan would be the best method of canning and marketing their product profitably and that they would "stick" with the organization once it is started. Another conference is to be held in the near future for further discussion of co-operative competition against commercial canners.

**Two Injured
as Motorcycle
Strikes Truck**

SAWTELE, Oct. 23. (Exclusive).—Injuries which surgeons believe will prove fatal to one young motorcycle rider, and serious injuries to his companion, were sustained this morning when Vernon Pritchard, 2841 Norman avenue, Culver City, and Norman Reno, University of California at Los Angeles student, living at Palmdale station, crashed into a truck loaded with cement, according to a police report here. The accident occurred at Hughes avenue and Venice Boulevard. James F. Cox, driver of the truck, which belongs to the Rex Tule company of Santa Monica, was not hurt.

The young victims, each 23 years of age, were rushed to the Culver City Hospital, where Pritchard was found to have a basal skull fracture and internal injuries. He is not expected to live. Reno has a skull fracture, compound fracture of the left hip and a severed artery in his left leg. He is expected to recover.

**ADDRESS OF HUGHES
ON RADIO TOMORROW**

Charles Evans Hughes, former Secretary of State, will make one of the notable addresses of the Republican campaign at Buffalo tomorrow and arrangements have been made to broadcast the speech in Southern California over KF and KPSS, according to Southern California Hoover - for - President headquarters in Los Angeles. The broadcast, which will be nationwide hook-up, will be heard in Southern California between 8 and 9 p.m.

WIFE SLAYER GETS LIFE

STOCKTON, Oct. 24. (P).—Imprisonment in San Quentin prison for the rest of his natural life, instead of death, is the penalty which the State of California today imposed on a man charged with murdering his 30-year-old wife, Carrie L. Fogg, as she lay sleeping in their sheltered Oaks home early the morning of August 24, last. Superior Judge Dusk pronounced judgment this afternoon.

**\$9,000,000
Bellows Falls Hydro-Electric Corporation**

A Part of the New England Power Association

**First (Closed) Mortgage 5% Gold Bonds
Due October 1, 1938
Price 98 and Interest, Yielding over 5.10%**

The Corporation agrees to pay interest without deduction for any Federal income tax up to 2%.

The following information is taken from official sources:

The Corporation, which will be controlled through ownership of all its common stock by New England Power Association, owns a modern hydro-electric generating station with an installed capacity of 60,000 hp. located on the Connecticut River at Bellows Falls, Vermont. This plant, recently placed in operation, is connected by a 60-mile high tension transmission line with the New England Power System.

The entire output of the plant will be sold under contract. The most important contract is with New England Power Company which provides for the taking of all power not required under other contracts for a period of thirty years. The Corporation has estimated that for the twelve months' period from October 1, 1928 to September 30, 1929 gross earnings will be \$1,212,000 and net earnings \$957,000 or over 2.1 times the annual interest charge of \$450,000 on these bonds.

These bonds will be secured, in the opinion of counsel, by a direct first mortgage on the entire fixed property of the Corporation now owned or hereafter acquired. In addition these bonds will be secured by the deposit with the Trustee of the contracts with the New England Power Company and the Fall Mountain Electric Company.

We recommend these bonds for investment and shall be pleased to send circulars describing the issue in detail.

Compton Co. and Bancroft Corporation.

SHORT HARBOR WEEK ASKED
SAN FRANCISCO, Oct. 24. (Exclusive)—The State Harbor Commission was asked by representatives of the Building Trades Council today to place its employees on a five-day week during the winter months. The matter was outlined briefly after which President Tilden announced it will be taken under advisement.

AN ATTRACTIVE PUBLIC UTILITY COMMON STOCK

At An Attractive Price!

MONT AND CANADA TUNNEL CO.

The stock has been purchased by well-known banks for their own account.

The securities of this company are being sponsored by internationally known and conservative banking institutions.

The tunnel will serve two fast growing industrial and residential communities now having a population of over 2,000,000.

Engineered by engineers and bankers as a new and financially sound project towards America's progress.

We consider this an unusual opportunity to purchase a conservatively priced common stock of one of America's greatest engineering projects.

Look Ahead! The opportunities of tomorrow are in the Making Today.

A Strong Water Company Preferred—Yielding 6.60% and

REDEEMABLE AT \$110 PER SHARE

SUPPLYING water to established communities has always been one of the most stable of public utility services because the demand for water remains unchanged regardless of fluctuating business conditions. For this reason, preferred stocks of water companies are in constant demand among conservative investors.

Among recent offerings of this character the Federal Water Service Corporation, \$6.50 Cumulative Preferred Stock, at the present price of 98½ and accrued dividend to yield 6.60%, is unusually attractive. Particularly so, since the issue is exempt from present Normal Federal Income Tax and California Personal Property Tax up to 4 mills, which is refundable by the Corporation.

The Corporation, through its subsidiaries operates one of the largest water systems in the United States, serving a population of 2,300,000 in 10 states. Net earnings are over 2½ times annual preferred dividend requirements.

COAL

The Giant of Them All

In this day of hydro-electric development, it is easy to forget the importance of coal in the American Commonwealth. Yet more than 98% of our railroads, the majority of our factories, steamships and heating plants depend on this time-honored fuel.

Since the West has few coal deposits of commercial importance, it naturally looks to Utah, the nearest coal producing state, and over 90% of Utah's coal comes from the section in Carbon County. As one of the most important companies of its kind in Carbon County, the Gordon Creek Coal Company occupies a firmly established position. For sound investment, we offer

Rio Grande Recovers from Slump in Irregular Market of Oil Shares

Rio Grande Oil, on a substantial rally, led the trading yesterday on the Los Angeles Stock Exchange. Although transactions were in low volume than during the exceptional activity of the past week, demand was sufficient to force quotations up more than 4 points to a high for the day at 168 1/2. The stock opened at 166 and after slipping to 165 began the advance in the early afternoon when a stronger undercurrent was manifested.

The balance of the oil list closed at 122 1/2 to 135. United States Royalties gained 1-2 to 18 1-2. Bank of Italy, recovered 6 points to close at 205 and sold earlier at 206 1-2. Bancitaly was unchanged at 120 1-2. Both issues transferred in light volume. Merchants' National at 235 1-8, was up 1-8. Los Angeles Investment sold off another 3 points to 115. California Bank, at 122 1-2, was unchanged.

In the miscellaneous division, Los Angeles Investment sold off another 3 points to 115. California Bank, at 122 1-2, was unchanged.

Among the lower-priced oil shares, Bolea Chica dropped 20 cents to 2.50. Mascot advanced 15 cents to 2.80. Republic Petroleum lost

SAN FRANCISCO

Los Angeles Curb

Barndall Oil A continued to lead trading activity in the operations yesterday on the Los Angeles Curb Exchange. The stock advanced to a high and close for the day at 44 5/8, up 1 point net on a transfer of more than 800 shares. On the other hand, Barndall rights closed off 1-8 to 19 7-8. Mexican Seaboard held firm to 35.

Globe Petroleum held the center of trading interest for the lower-priced oil shares and moved up 1/2 point to 18. Universal Consolidated

recorded a new top at 4.65 but closed at 4.45, off 5 cents net. Bolea Petroleum, common and preferred, both held steady to 1.97 and 1.60, respectively. Bolea Chica dropped 1/2 to 2.30.

Claude Neon Electric Products, after reaching 48 3-4, broke 1 3-4 points net to finish at 45 1-4. Lock-

heed Aircraft advanced 1 1-4 points to 56 1-4. Kinross Airplane and Motors added 5 cents to close at 1.70. Chapman Ice Cream jumped up a point to 24. The balance of the list held firm.

LOS ANGELES CURE

Los Angeles Curb

Barndall Oil A continued to lead trading activity in the operations yesterday on the Los Angeles Curb Exchange. The stock advanced to a high and close for the day at 44 5/8, up 1 point net on a transfer of more than 800 shares. On the other hand, Barndall rights closed off 1-8 to 19 7-8. Mexican Seaboard held firm to 35.

Globe Petroleum held the center of trading interest for the lower-priced oil shares and moved up 1/2 point to 18. Universal Consolidated

recorded a new top at 4.65 but closed at 4.45, off 5 cents net. Bolea Petroleum, common and preferred, both held steady to 1.97 and 1.60, respectively. Bolea Chica dropped 1/2 to 2.30.

Claude Neon Electric Products, after reaching 48 3-4, broke 1 3-4 points net to finish at 45 1-4. Lock-

heed Aircraft advanced 1 1-4 points to 56 1-4. Kinross Airplane and Motors added 5 cents to close at 1.70. Chapman Ice Cream jumped up a point to 24. The balance of the list held firm.

PAN-AMERICAN BANK OF CALIFORNIA

The Pan American Bank is no exception and I am happy to introduce two of our senior officers who are former Iowans:

Vice-President

MR. HALL organized the Sheldon Iowa National Bank and was its Vice-President and Cashier. In 1910 he was elected Secretary of the Iowa Bankers Association. For the past eleven years he has been associated with the Mechanics and Metals National Bank of New York, later consolidated with the Chase National Bank of New York. Most of this time was spent in charge of the bank's business in the middlewestern states, with offices in Des Moines, Iowa.

These officers together with Mr. S. A. Lanning, Cashier, and Mr. J. M. McEvers and Mr. H. A. Pierce, Assistant Cashiers, represent a wide experience in business and in banking in many midwestern and eastern states which enables the Pan American to offer a highly per-

sonalized banking service to the many men and women from widely varying localities, who are engaged in business in Los Angeles and vicinity.

 Trustees: { SECURITY SAVINGS & TRUST COMPANY, Portland, Oregon
 { AMERICAN TRUST COMPANY, San Francisco

The following is summarized from information submitted by Mr. W. L. Thompson, president:

BUSINESS: The Columbia River Packers Association, Inc., was incorporated in 1934 and has acquired all the properties and business of the Columbia River Packers Association, founded in 1930 by A. B. Hammond and associates, through the purchase of twelve of the oldest and largest packing plants on the Columbia River.

The Company owns and operates five fully equipped, modern packing plants, situated at Astoria, Oregon; Ellsworth and Eagle Cliff, Washington; Nushagak and Chignik, Alaska. At Astoria it operates the largest and most complete cold storage plant for the refrigeration of fish on the Columbia River, with facilities for the storage of more than two thousand tierces of mild cured salmon and a capacity for the freezing of twenty tons of fish every twenty-four hours.

The Company is the large producer of canned salmon on the Columbia River. Its efficient operation is evidenced by the fact that never in its history has it had a shipment declined. Its products are marketed all over the world through jobbers and merchandise brokers, many of whom have been continuously handling brands packed by this Company and its predecessors for more than forty years. Its canned goods are sold under thirty-eight long established and universally recognized labels, registered in the United States, Great Britain and Australia. Among its best known brands are: "Kinney," "Epicure," "Sunset," "Pine Burr," "Blue Bird," "White Star," "Clover Leaf," "Holly," "Palm," "Equinox" and "The Seal." The use of its oldest label, the "Eureka Star," dates back to 1876 and many of the Company's brands have been on the market since the early eighties. These trademarks have been appraised by the General Appraisal Company as having a value of \$419,000, but the Company does not carry them in its balance sheet.

CAPITALIZATION: Funded debt.....	Authorized \$1,250,000	Outstanding \$1,165,000
Preferred stock.....	None	
Common stock (no par).....	80,000 shares	70,180 shares
Funded debt being retired serially.		

ASSETS: As of October 1, 1928, the balance sheet shows Real Estate, Plant and Equipment, less depreciation, at \$2,921,978.15; Current Assets, \$1,255,634.51, against Current Liabilities of \$376,885; Total Assets, \$4,196,264.22, and a Net Worth of \$2,613,156, equal to \$37 a share.

EARNINGS: For the last thirty years, with the exception of three years when nominal losses resulted, the Company has shown an unbroken record of profitable operations. From its earnings the Columbia River Packers Association has made large additions to its properties, built substantial depreciation reserves, maintained the property in the highest state of efficiency and, in addition thereto, every year since 1908 (except 1927) has declared a dividend. Since organization it has disbursed to stockholders in dividends \$2,613,600.

DIVIDENDS: Profits available for dividends for the calendar year 1928 will exceed \$380,000, which is more than \$3.50 a share. The balance sheet of the Company as of October 1, 1928, discloses a book value in excess of \$37 per share. During the last 10 years profits before depreciation have averaged more than \$3.30 a share.

OWNERSHIP: The principal stockholders and officers of this Company are: President, W. L. Thompson, Director First National Bank, Portland, Oregon, President Pacific Coast Joint-Stock Land Bank of Portland, Oregon, Director Oregon Life Insurance Company; Vice-President, W. A. Tyler; Treasurer, O. A. Wirkkala, who has been with this company 24 years; Secretary, A. H. Whittle, who has been active in the business since 1910, and Assistant Secretary, E. W. Thompson.

The Company's organization is the outgrowth of many years of successful operation, and its personnel includes a staff of thoroughly trained plant managers and department heads of long experience, many of whom were associated with the concerns absorbed in the formation of the Company in 1899.

It is anticipated that application will be made in due course to list these shares on the San Francisco Stock Exchange. In the meantime, the stock will be traded on the San Francisco Curb Exchange.

Price \$21 a share, to yield 7.14%

'John Doe' Gets Prison Term

CHARLESTON (Ill. Oct. 24. AP)—Refusing steadfastly to reveal his identity, "John Doe" was taken in an ambulance today to the State penitentiary after he pleaded guilty to a charge of robbery. He was sentenced to serve one to twenty years.

"John Doe," who said, "there's no use in telling his name because my parents are wealthy and I don't want to give them any worry," was arrested five weeks ago after he and a companion had held up four persons in an automobile at Mattoon, Ill.

GRAPES JUICE TURNS WINE AND HE SUES

SAN FRANCISCO, Oct. 24. (AP)—Joseph Signorilli, Sonoma county vintner, told a Superior Court jury here today that he made 10,000 gallons of grape juice to the order of John Mori and Charles Forn, restaurateurs in San Francisco.

Signorilli said he was paid \$500 for the juice and that he had no way of knowing it was to be turned into wine. Now Signorilli can't sell the wine and he has to pay for an expensive government bond. Damages of \$5000 were sought from Mori and Forn.

THE WEATHER

LOCAL OFFICE OF U. S. WEATHER BUREAU, Los Angeles, Cal., at 8:00 a.m. at 8:00 a.m. the barometer registered 30.04; at 9 a.m. 30.04. Thermometer for the corresponding hours showed 60 deg. and 64 deg. Relative humidity, 5 a.m., 81 per cent; 9 a.m., 69 per cent. Wind, 5 a.m., east, velocity 3 miles; 9 a.m., southwest, velocity 7 miles. Temperature, highest, 73 deg.; lowest, 54 deg. Rainfall for season, .39 of an inch; normal to date, .69 of an inch; last season to date, trace. Barometer reading to sea level.

WEATHER CONDITIONS.—Oct. 24. Light to moderate heavy rain has fallen during the past twenty-four hours in the New England States and light rain in the Lake region and the Atlantic States, but fair weather has prevailed in other portions of the country. It was quite cool this morning in the South Atlantic States and in Montana and North Dakota, but temperatures were near normal elsewhere. In Southern California, fair weather prevailed yesterday, with moderate temperatures. This was followed by rather warm, cloudy weather last night. It was cloudy or partly cloudy at night with drizzling showers and temperatures considerably above normal. Fair weather may be expected today with light winds and temperatures near normal.

SUN, MOON AND TIDES.—Los Angeles, Oct. 24. Sun rises 6:07 a.m., sets 5:58 p.m.; moon rises 11:19 a.m., sets 11:27 a.m. and 1:01 p.m.

LOCAL TEMPERATURES.—Oct. 24. Maximum and minimum temperatures from Southern California points reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Max. Min. Imperial Valley 94 54

Imperial 94 54

San Diego 84 54

San Bernardino 84 54

DOCTOR'S EX-PATIENT TO BECOME HIS WIFE

Lucy Dornine
...
HUNGARIAN FILM STAR TO BE BRIDE
Lucy Dornine Engaged to Dr. Richard Riethmuller, Oral Surgeon and Author
By EDWIN SCHALLERT
Three months ago Lucy Dornine, Hungarian film star who came to America last April, told an interviewer that she was engaged to a doctor. At the time she was counting on Hollywood's success and was planning to marry the doctor who had cured her of a serious illness. Now, however, she is engaged to Dr. Richard Riethmuller, an oral surgeon and author. The doctor, who is a native of Hungary, came to America in 1924 and has since then been practicing his profession in Los Angeles. He is the author of several books on oral surgery and is well known in his field. Lucy Dornine, who is a Hungarian film star, came to America last April and has since then been appearing in several films. She is now engaged to Dr. Riethmuller, who is a native of Hungary and has been practicing his profession in Los Angeles for several years. The doctor is a native of Hungary and has been practicing his profession in Los Angeles for several years. Lucy Dornine, who is a Hungarian film star, came to America last April and has since then been appearing in several films. MISSIONARIES TELL OF WORK

Labors in Orient Described at Methodist Meeting
Vivid Word Pictures Given on Life in Far Places
Benefits Under Christian Guidance Set Forth
Vivid word pictures of some of the phases of life in India, China, Southern Asia and other such places, by workers of the Women's Foreign Missionary Society of the Methodist Episcopal Church, formed the highlights of the program for the second day of the general executive conference in session here. The meetings are being held at the First Methodist Episcopal Church, Eighth and Hope streets. With Mrs. Francis J. McConnell, vice-president, of New York City presiding at the morning session, as soon as routine business had been disposed of, a series of these pictures was presented by a number of the furthest missionaries who are attending the conference. They made particular reference to India and the conditions that prevailed in sections there before Christianity had been introduced and after it had become established. Miss Melva Livermore, who has been in the field in India for thirty years, told of the conditions of a large family living in a ten-by-twelve room built of mud and with thatched roof. Mother, father and children were uncleanly dirty, she said. The family water-buffalo was tied in one corner of the room. More often than not, she added, there was disease among members of the family. Miss Ethel Ruggles emphasized particularly the importance of primary education in India as the proper foundation for the work that is to follow. Miss Winifred King and Miss Laura Austin, head of the Bureau of High Schools, spoke of Christian education in India and how, gradually, the women of India are beginning to break down the barriers of custom, conservatism and indifference and to realize their own importance as individuals. As a result of a survey of the tuberculosis situation in India, Dr. Rose Rice, who is engaged in public health work for the society there, declared that one in every three deaths is due to the dread disease and that among Hindus and Mohammedans women it is even more prevalent. Economic conditions, ignorance and superstition, social customs of caste and religion, intemperance and child marriages, she said, are among the main causes for this condition. To combat it, the medical missionaries are establishing child welfare centers, educational agencies and hospitals. At the present time the society supports twenty-one hospitals and eleven clinics in the Orient.

WATER CONSERVATION

Proposition No. 7 relates to that vital element in California, water. The measure is a constitutional amendment, drafted by members of the Legislature with the aid of high judicial officers in 1927 after the State Supreme Court rendered the noted Herminghaus decision. This decision, in effect, upheld the old theory of riparian ownership of streams, and, if rigorously enforced, would prevent, in future, the erection of any dams whatever in California water courses, for purposes of domestic use, irrigation or power generation. The amendment, which is short and understandable, states that conditions require that the water resources of the State be put to beneficial use and that unreasonable use, or waste, of water be prevented. The Herminghaus heirs brought suit against the Southern California Edison Company to restrain the power company from holding back the high Sierra, melted snow which would flow in the rivers. The flood freshets dash down the stream bed without control, so that the flood body of water would overflow their lands. The courts were required, under the law, to uphold this contention. As is commonly known, the water resources of California, in order to be of the greatest use in developing the State, must be conserved and apportioned out as needed for domestic, irrigation and power use. This procedure is denied under the old riparian theory, at present the fundamental law of the State. CHANGES THEORY It is the purpose of the amendment offered Nov. 8 to change the theory so that the use of water will be restricted to beneficial, consumptive use. Examination of the amendment by competent legal authorities has convinced them that there is no "joker" in the law which will operate against the amendment. Farmers and city dwellers have endorsed the amendment. The highest officials of the State, including Gov. Young, Atty.-Gen. Webb, State Engineer Ryatt and an almost unanimous Legislature, have placed their stamp of approval on the measure. Additional legislation is required in accordance with the amendment. Exhaustive investigations are now going forward to determine the best means of conserving the water of California on a State-wide basis.

BEACH CLUB ROWS OPEN

Dissatisfaction With Management Causes Members of Two Organizations to Hold Mass Meetings
Echoes of Jewish membership campaigns waged in and about Los Angeles by beach clubs during the past eighteen months resounded last night and were to be continued tonight as several hundred members of two clubs began expressing themselves as dissatisfied with the management. More than 500 members of the Gables Club met at the Santa Monica municipal auditorium last night and formed a permanent organization to "take the club from financial disaster" and tonight members of the Deauville Club have been invited to attend a meeting of the Deauville Defense Committee at the Manufacturers' Exhibit Hall, 130 South Broadway. The Gables Club faces a financial crisis which threatens to shatter its assets unless \$205,000 is raised with in the next few weeks. It was reported at the Santa Monica meeting by Dr. J. S. Kelsey, Santa Monica physician, who headed an investigating committee. This large sum is owed partly to a Los Angeles furniture concern for equipment in the clubhouse. It was said, for example, under the terms of a ground

Mother Relates Story of Youthful Impostor

Scene in Council Chamber During Hearing. Mrs. Collins is in the center of the picture being sworn in before the City Council's Welfare Committee. In the background is a portion of the audience which thronged the hall.

INQUIRY ON FINANCING ORDERED

Supervisors After Data in Contractors' Handling of Improvement Jobs
Sweeping investigation of the entire system whereby contractors are being financed by banks and bond houses on acquisition and improvement districts in the county was ordered yesterday by the Board of Supervisors. The action was taken on the motion of Supervisor Bean, who asked that the board appoint a committee of three, not in any way connected with any bank or bond house, to conduct the investigation. This committee is expected to be appointed within a few days. It was announced by Chairman McClellan. The investigation will be conducted by the purpose of collecting data that will be used at the next session of the State Legislature for the purpose of making a change in the State Improvement Act. Under the present act, it was explained by Bean, thousands of property owners have lost great sums of money because of the failure of contractors to complete their work. The practice also tends to discourage property owners from undertaking needed improvements. At present when a contractor completes a project he is given all the assessment bonds in the improvement district. In order to convert these bonds into cash he sells them to bond houses. Bean pointed out, contractors are obliged to increase their prices to cover the discount allowed on their bonds. "With the information expected to be gathered from the investigation by three independent experts," said Bean, "we will learn the amount of the discounts, which are a burden on the property owner, and endeavor to work out a method of reducing the cost of public improvements."

Byrd Radioros Appreciation

Gratitude of Commander Byrd to Los Angeles for the send-off he received when he left aboard the steamer C. A. Larson on his Antarctic exploration voyage, sent by wireless from the steamer to General Manager Starr, was communicated to the harbor board yesterday. It follows: "The Board of Harbor Commissioners and all other parties responsible for the wonderful demonstration are to be congratulated for the splendid farewell given me at Los Angeles Harbor. The music, West certainly know how to give a good reception and I will long remember the occasion. (Signed) "COMMANDER BYRD."

THE BALLOT PROPOSITIONS

BY THE WATCHMAN
[This is the fifth of a series of articles by "The Watchman" on the various State ballot propositions to appear on the November 4 ballot. Others will follow at intervals.]

PASADENA CITY HALL SAVED

Court Decision Holds Flood-Control District Tax Lien Based on Illegal Assessment
Pasadena's City Hall and Library and 240 other municipally owned parcels of land were taken out from under the shadow of a threatened tax sale, temporarily, at least, by an Appellate Court decision handed down yesterday. The decision holds that Los Angeles County Flood Control District, against the property are void because they were levied after the Board of Equalization adjudged and the city thereby was deprived of a hearing. Unless the flood-control district obtains an Appellate Court rehearing or Supreme Court decision to the contrary, the Superior Court can proceed to restrain the county authorities from selling the properties. OCCASION OF LEVY The assessments were levied in 1927 after the county counsel's office ruled that municipal property which was not municipally owned, at the formation of the flood-control district is subject to district assessments and taxes. Pasadena refused to pay the assessments, which became delinquent and were placed on the tax sales list. Municipal authorities then obtained a Superior Court order re-

COUNCIL CALLS DAVIS AND JONES

Commissioners Also Invited in Collins Case
Woman Relates Detention in Hospital Ward
Grand Jury Defers Action to Weigh Facts
Members of the Board of Police Commissioners, Chief of Police Davis and Acting Police Captain J. J. Jones were subpoenaed last night to appear before the Welfare Committee of the City Council today, as that body prepared for its second hectic day in the investigation of the case of Mrs. Christine Collins, who charged that she was incarcerated in the psychopathic ward of the General Hospital by Capt. Jones because she would not accept an impostor as her missing child. The subpoenas were issued after it became apparent that neither the Commissioners nor Chief Davis and Capt. Jones were among the more than 1000 persons who packed the Council chambers when the hearing opened at 1:40 o'clock yesterday afternoon. Councilman Jacobson, chairman of the Welfare Committee, at that time declared that he had invited all of those named to be present and asked if they had a representative there, but no one answered. Hoots and jeers came from the crowd later in the afternoon when Jacobson declared he had learned that the Commissioners and the Chief were at San Pedro awaiting a police inspection. CROWD TURNS OUT The Welfare Committee's hearing yesterday afternoon brought out the largest crowd that has ever packed the Council chambers. Crowds began to form in the morning, many bringing their lunches, and by the time the meeting began hundreds were unable to gain admittance. With Councilmen Hughes and Hall at the committee table, Chairman Jacobson called the hearing to order and asked that there be no demonstration during the taking of testimony from witnesses. Most of the other Councilmen were in their places around the Council table while Mrs. Collins and her attorney, S. S. Hahn, occupied prominent positions. Mrs. Collins was the first witness called. She related the facts of her son Walter's disappearance in March of this year, retold her story of how Capt. Jones tried to make her accept Arthur Hutchins as the missing youth, and of how the officer finally sent her to the psychopathic ward when she insisted that Hutchins was not her son. "Do you say this is not your boy?" Mrs. Collins asserted Capt. Jones demanded. "What are you trying to make out of this department? A lot of damn fools? You are a liar, a thief and a crook and you ought to be behind the bars with your husband." Mrs. Collins then told of her five days in the psychopathic ward and her release when she was finally absolved by examining psychiatrists. She further declared that, when a hearing on Capt. Jones' conduct was recently held before the Police Commission, she asked Commissioner Dell Schweitzer why none of her witnesses were called and that he answered that "we haven't time for them now."

LIEN BUYER DEFEATED IN COURT FIGHT

Judge Finds for Property Owner on Basis of Failure to Comply With Law
A decision by Judge Rosenkrantz in Superior Court is of interest to property owners whose property has been acquired by street-tax lien buyers. In the case of Warden vs. Ratterree and McShea, Judge Rosenkrantz held that the deed obtained by the plaintiff, who had foreclosed a street bond, was void by reason of the failure to comply with the law. An interesting point in the fact that judgment was rendered for the defendant, the property owner, without requiring him to pay the original amount of the bond. Another case of interest to the property owner is the one of Sholner vs. Wilkins. In this case the plaintiff sought to foreclose a bond on the property owner. No personal demand ever had been made. Judge Gould held that notwithstanding the bond holder was entitled to exact an attorney's fee, setting the amount at \$25. This decision is contrary to decisions rendered in other departments of the Superior Court by a number of judges.

Young to Head Armistice Line

Gov. Young has accepted an invitation to head the parade Monday, November 12, in connection with the annual Armistice Pageant at San Pedro. State Department Commander Frank N. Belgrano of the American Legion, State Adjutant James Fiske and other officers of the Legion also will be in the parade, which, in addition to floats and uniformed units of veterans' organizations, will include soldiers from Port MacArthur. The line of march is expected to extend three miles, with more than twenty bands and numerous drum corps furnishing the music. More than 15,000 persons are expected to attend the military field service on the afternoon of November 11 at Troma Field, near MacArthur.

WISER CRACKS

After a courtship of thirty-four years the marriage of A. Kramer Coulton of Shanghai broke up in one day. The happy bridegroom made a wise crack to the reporters about being caught at last, and the blushing bride went home to her mother. She had good judgment. Imagine marrying a man with thirty-four years of saved-up wise cracks to get out of his system. FORGET IT. It would be good sportsmanship for the football young men of U.S.C. to foot all this talk about a wet field being unfairly prepared for them at Berkeley. Even if they believe it was (which is absolutely incredible) for heaven's sake let us have at least one game which is above dirty scandal. Football is the last stand of chivalry. If the field was wet, it was wet. Let it go at that.

BULLOCK'S

Remnant Friday

Every Section of the Store Participates

ONCE more Remnant Friday at Bullock's—an institution in Los Angeles! Bullock's looks forward to Remnant Friday with the same enthusiasm for giving values as you do for finding them. Now at the end of October Bullock's is teeming with noteworthy values—splendid opportunities to complete the winter wardrobe at substantial savings.

Gift offerings are virtually limitless. You can save by buying now. Can give so much more in value for the dollar spent tomorrow at Bullock's. Remember Christmas is only eight weeks away.

Come! Values await you. Bullock's is eager to greet you—to serve you—and to surprise you.

Yardage Remnants!

Thousands of Yardage Remnants... materials for Christmas Gift making in many instances—a wonderful opportunity Friday at Bullock's.

Cotton Goods Remnants

Prints, percales, crepes, gingham, madras, linens, broadcloth, outing flannel, challis, rayon, celanese, linen, silk and lisle crepe. These in lengths from 1 to 5 yards... 1500 yards Fast Color Prints, 32 inch, in attractive patterns and colors, a good quality... 25c a yard. Also 1000 Yards fast-color Percale, 36 inch, 20c a yard.

Cotton Goods, BULLOCK'S, Second Floor Broadway

Many Good Woolen Remnants

A clearing away of all lengths... usable lengths of smart fall woolen fabrics. The time to buy woolens at great savings... Remnant Friday, Bullock's.

Woolen Goods, BULLOCK'S, Second Floor Broadway

50 Framed Etchings, \$7.50

Colored Etchings. French etchings that have been much higher priced, now \$7.50! Many bear the signature of well known artists. Metal frames reduced also.

Pictures, BULLOCK'S, Second Floor, Hill Street

Ribbon Remnants, at Half

Many... many different types of ribbons... ribbons for Christmas sewing and for costume use.

Ribbons, Street Floor, Broadway

Art-Pottery and Glassware—

Individual Majolica Nut Cups, 15c. Individual Glass Ash Trays, 15c. China Flower Holders, a variety, 50c.

Second Floor, Hill Street

Electric Goods Remnants—

Electric Waffle Irons, fully warranted at \$4.45—Universal Electric Standard Iron, 6 pound size, \$3.95—Electric Corn Poppers, \$1.95, while they last.

Electrical Goods, BULLOCK'S, Second Floor, Hill Street

"FOR TROUBLE ONLY"

"We cannot afford to commit the policy of protection to a party that has always opposed it," declared former Secretary of State Hughes in his speech at St. Joseph, Mo., Tuesday night, and he added that Democratic tariffs have always been "tariffs for trouble only."

For summing up the situation in a few words, the biting phrase uttered by the former Cabinet officer is one of the most effective that a campaigner has produced. Mr. Hughes pointed out that Smith alone would not have the say about tariff revision.

"The party itself through its effective representation in Congress has not yet been converted," said Mr. Hughes.

This is true, and it is a point of great importance. Assuming the election of Smith and of a Democratic Congress, the men who would frame tariff legislation are the members of the House Ways and Means Committee. On this important body would be found, assuming Democratic success, such well-known free-traders as Cordell Hull of Tennessee, Oldfield of Arkansas, Dickinson of Missouri. Nine of the ten present Democratic members of that committee have signed a letter urging the voters of the Sixth Maryland District to send to Congress David J. Lewis, a former member of the Tariff Commission appointed by President Wilson. Lewis is on record as a violent opponent of the protection principle, and the kind of tariff he and the other House Democrats would insist upon may readily be imagined.

Nor is it clear that Smith would care to go against the judgment of his party in this matter and veto free-trade schedules if they came up to him. He has already promised the voters that he would accept the judgment of Congress in many important matters, including prohibition and the St. Lawrence canal, and his readiness to change his views, instanced in a dozen ways during the campaign, is far from being a guarantee that he would uphold the protective principle if the question was brought squarely to issue. Smith himself, as recently as 1924, was on record as a free-trader, and the Houston platform of his party asks for a tariff that will provide "effective competition."

"The principle of stimulating effective competition through tariff changes," Mr. Hughes went on, "would be especially injurious to our farmers. They need more protection and not less. This was shown in the operation of the Underwood tariff."

These words, uttered in Missouri, will nowhere be recognized as having more force than in California, whose agriculture and fruit-growing industries were nearly wrecked by the last Democratic tariff-tinkering efforts. The Underwood tariff most certainly demonstrated itself as a "tariff for trouble only" in this State.

Mr. Hughes has characterized the Democratic tariff position completely with four adhesive words.

Charles E. Hughes is particularly qualified to make a choice between the two Presidential candidates, for he knows and has worked with both of them. With Hoover in the President's Cabinet, with Smith as a member of the commission for reorganizing the New York State government. He has not hesitated to praise Smith as Governor of New York—he himself was its Governor for two terms. He speaks as an expert, therefore, when he declares the qualifications of Hoover for President far surpass those of Smith.

"It is a poor argument," he said, "which says that we should elect a Governor because of his intimate knowledge of State affairs but should not choose a President because of his rare and intimate knowledge of national affairs."

When Smith has been working in Albany, Hoover has been working in Washington. It is said that Smith is a quick learner. So is Hoover. In his knowledge of the problems of the nation, Hoover stands years ahead. If Smith were elected it would take him years to learn what Hoover knows now.

There is no escaping the force of that argument.

THE PHILHARMONIC

Another of those fine winter musical seasons to which Los Angeles has become accustomed will be ushered in tonight when the Philharmonic begins its series of concerts at the Philharmonic Auditorium. It is the Philharmonic's tenth season under the sponsorship of W. A. Clark, Jr., and the anniversary will be celebrated with a public reception to Mr. Clark and to conductor Schneevogt.

The Philharmonic is without doubt one of the best orchestras of the world and an ornament to Los Angeles, as well as a tremendous asset. It is worthy of all public support, and should be given liberal patronage in order that the financial burden on its sponsor may be lessened.

Neither Mr. Clark nor any other sponsor can be expected to carry this burden unless the public shows by its attendance that it wants the orchestra. The present season is a crucial one for the orchestra, so crucial that its future may depend upon what happens this year. Should the orchestra be dissolved, the effect would be injurious to the Hollywood Bowl summer concerts, since the personnel of the two orchestras is practically identical.

BOOMING THE DESERT

The probability that Colorado River development will make available, in the near future, additional water for the reclamation of some favorably situated desert lands, is no excuse for starting a desert really boom now. Unfortunately, several have already started, one of them in the vicinity of Las Vegas, Nev. In some cases the promoters of such booms are innocently overoptimistic; others are merely setting out bait to catch suckers.

There need be no hurry about buying desert land. Even if Congress acts at its next session to provide Colorado River development, it will be years before the water will be available; and when it is available and fully utilized, there will be vast areas of land still unirrigated. It is not land of which there will be a scarcity.

Nor will there, on the other hand, be any great scarcity of water for those who can afford to pay for it. The building of a dam is not all there is to an irrigation system. Sometimes the cost of delivered water is so great that the

LEE SIDE O' LA

BY Lee Shippey

WE HARDLY know what to do about it. She told us enthusiastically about the work to which she is devoting her life. But when we began to ask about her own part in it she grew reticent. She insisted that we mustn't say a word about her—only about the work.

But what is a work but the expression of a personality?

Besides, we Leeside readers—we admit we're chief readers—are a friendly group, and she shouldn't mind our talking it over as friend to friend. It isn't anything like "publicity."

So we're going to take a chance, even at risk of displeasing a charming woman.

No Ennui in Her Life

Mrs. Evelyn Brooks Gifford was reared in the well-known 1 of 1. It was her mother who gave Brookside Park to Pasadena. Many women have lived lives bounded on the east and west by bridge and on the north and south by society. They would have counted that day lost whose low descending sun didn't remind them it was time to dress and go out somewhere. And they would have become adepts in stifling yawns, because of a great deal of practice.

Mrs. Gifford's mother inculcated in her a desire to be a crusader against cruelty, especially cruelty to children and animals. For years that has been her greatest interest. About two and one-half years ago she was the prime mover in organizing the State Commission for the Protection of Children and Animals. Since then Mrs. Gifford never has had half

time enough.

Cruelty Even Here

We Americans are rather pleased to think how much holier we are than the Arabs, for instance, in the matter of cruelty. But the field officers this commission employed went about our city lifting the collars of horses—and under many a collar they found a great sore which must have caused the poor beast agony when the collar chafed it. They found that there were a good many people too lazy to take the harness off their horses at night. In Imperial Valley they arrested a man who had been leading a calf behind an auto, but went so fast the calf fell and was dragged, until the ribs on one side stuck through the flesh. They found mothers who went away and left young babies alone night after night while they

land cost nothing no one could afford to farm it.

Those who buy desert land now in anticipation of a water supply from the Colorado must understand that their venture is purely speculative; that they will have to wait years before they can recoup; and that there is a chance of their losing everything. Wise investors will wait until more is known as to how much water will be obtainable, where it will be obtainable, and how much it will cost.

PRESERVE SPANISH NAMES

San Francisco is again protesting vigorously against the use of the vulgar sobriquet "Frisco." The Chronicle of that city is helping along the campaign by publishing many letters condemning the bad habit of outsiders who persist in thus clipping the Spanish name for St. Francis of Assisi. One writer goes so far as to say that "it hurts the very soul of a San Franciscan to hear the word 'Frisco.'" Another says that "Frisco" is an insult to the memory of the gentle St. Francis.

When the eastern newspapers were reporting San Francisco's great calamity in 1906 the word "Frisco" was frequently used in their headlines. Californians in eastern cities wrote indignant letters of protest to these journals, but the practice was not abandoned then or later.

The use of the objectionable term is quite general in the Middle West, though with no thought of derision. "Frisco" seems to trip quite naturally off the tongue of the outsider coming to California. Yet he would do well to strive to hear New York clipped to Nork or Chicago to Chigo.

San Franciscans are eminently justified in their objection to "Frisco." Our beautiful old California names should not be mutilated. Angelenos resent the "Loos" employed chiefly by hoboes, and San Bernardino properly inveighs against "San Berdoo."

Such nicknames do not become more acceptable by usage. Their use is a hallmark of the vulgar and mentally lazy.

POLITICAL PIE

Some one, plausibly disposed, arises and says that political pie always has and always will be consorted out of apple sauce and plums. Maybe so. However, at this writing there is also a distinct flavor of wine sauce in the concoction offered to the public.

Promises of plums to the politicians of the South and generous helpings of apple sauce for the farmers of the Middle West seem to lack the piquancy and appeal of former campaigns. The wine sauce is dividing the country into two distinct camps.

Many of these in times past isolated that they did not care for dough. They were suspicious of those who had it and grew peevish of its use. They wanted no dough on top of the pie and little on the bottom for crust. But times and tastes have changed and now these same cli-

LETTERS TO THE TIMES

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

The Motive
 LOS ANGELES, Oct. 21.—(To the Editor of The Times:—) Referring to your editorial of even date, under heading "Canadian Workers Welcome," allow me to say that it is very plain just why such a controversy should have arisen. It was initiated by one Carey D. Ferguson, the immigrant-inspector at port of Detroit, Mich., former labor union official and strike agitator, who objected to Canadian laborers entering this country but expected, as per his own statement, that American laborers would continue to be admitted to Canada.

This vicious propaganda soon spread to Buffalo and Niagara Falls and so insistent were labor-union officials on enforcing such an edict regardless of law on the subject that it finally reached the United States courts.

You, Mr. Editor, will readily understand the motive behind the whole scheme, but why it should have been started in an open-shop town is the real mystery, unless it was just through sheer pure astine cussedness of a pin-headed not seeking notoriety. Among the best, most industrious and law-abiding workers we have in Detroit today is "Cousin Jack" and don't forget that.

J. H. S.

The Hoover Way
 HOLLYWOOD, Oct. 20.—(To the Editor of The Times:—) In the Editor of The Times:—) My daughter was chief of one of the divisions in the Food Administration during the World War, she volunteered her services to care for the victims of the "flu." Mr. Hoover gave her the use of his car and chauffeur and he walked to his work; he also authorized her to order anything she wanted for the sick people and send the bill to him—which she did. My daughter has since left us for her Eternal Home. This incident is only one of many fine things which she told us of Herbert Hoover.

P. S. C.

He Didn't Like It
 LOS ANGELES, Oct. 20.—(To the Editor of The Times:—) In the Editor of The Times:—) In the Times issue of October 17, on the editorial page, is a letter to the Editor. The writer states that he has a bottle of Scotch whisky beside him while he is writing. He keeps on taking drink after drink until he is not able to use his mind (if he has any), as a result of which he writes a lot of nonsense and wrong letters on the typewriter.

His letter would indicate that he had no mind in the beginning or he would not empty a whole bottle of Scotch whisky into his gullet at one sitting.

The meaning of the letter referred to is obvious—one does not have to read it twice to see it. To convey the idea to everyone who drinks must necessarily get drunk is an insult to American manhood and womanhood. On his theory that everyone who drinks must become a drunkard, every one who eats must become a glutton! Reasoning of that sort can only come from a degenerate brain.

O. L. ALEXIS HAMILTON, M. D.

Partly Defranchised
 SAN MARINO, Oct. 21.—(To the Editor of The Times:—) As Los Angeles county is predominantly for Hoover, and every effort is being made to get out the vote not a word has been said, so far as I know, in all the speeches, of the fact that one out of three California voters are disfranchised by the present basis of representation in Congress and in the Electoral College. Instead of nineteen votes in the Electoral College we have thirteen. So small a difference may play a dramatic part in the coming election.

MABEL M. RICHARDSON.

Alas, Poor Yorick!
 SAWTELLE, Oct. 18.—(To the Editor of The Times:—) I am unable to understand why you print Will Rogers' slurs at the Republican party with so much prominence. On account of the way you display Will Rogers' stuff it is read by everyone that takes a glance at the paper and I believe he does a great amount of harm with some of his articles.

W. A. MUDGE.

FRESHETS
 I like the folks who come to call Who don't pretend they know it all. Who always are as yonder oaks. Today and every day—just folk: The kind who make life most worth while. Who chase the clouds and help you smile. Who make the sun shine with their jokes. Proud to be welcomed as—just folks.

H. B. PRESS.

Cool days bring us thoughts of autumnal holidays, with Thanksgiving in the offing, and Thanksgiving brings visions of a turkey'n cranberry sauce, 'n mince pie. We needn't worry about the shortage of the cranberry, any way—yes, that's the way most folks say it—for the present crop of cranberries is forecast by the Department of Agriculture to be 26,000 barrels more than last season's crop. Massachusetts, New Jersey, Wisconsin, Washington and Oregon produce the berries.

W. B. J.

We are said to be the greatest nation of money makers that ever lived, but we are always willing to stop long enough to lose our last nickel. We know everything about money excepting what to do with it.—(Harry Daniel in Thrift Magazine.)

Week's Worst British Fan
 The question is being raised whether some professional agitators are quite honest, and the answer seems to be, only just medium.—(Lynch.)

THE YOUNG MAN'S PROBLEM

BY ALMA WHITTAKER

The "She's my girl" era having passed, the modern young man confronts an awkward problem. Mind you, he would wish to be sumptuously indifferent to the attitude of the female of the species. He would greatly prefer, as of old, to graciously confer his favor upon some selected specimen and thereafter have the young person mindful of the honor thus bestowed, while reserving the right to change his mind as he was definitely engaged.

He reads with envy of that period when some magnificent young man, replying to an anxious query "What have you done that you have ceased to love me, Romeo?" said amusedly:

"Nothing, my dear, except that you have outgrown me."

But alas, times have changed most disconcertingly. The young person herself arrogates all sorts of rights and privileges that days in the past of courtship were denied her.

Where, father, in his day, "walked out with" "went with" or "kept company" with some possibly desirable young woman, and so enjoyed exclusive rights to her company during the period of his pleasure, without necessarily compromising his future, the young lady of today easily declines to consider herself even temporarily "possessed."

She has the most treacherous way of accepting Bob's attentions on Monday, Joe's on Tuesday, Fred's on Wednesday and so on, certainly until she has become formally engaged to one of them. And alas, even long engagements have gone sour.

A modern engagement announcement is tantamount to a wedding announcement. Neither Bob, Joe, nor Fred can stick any longer on the slightly young person until they are ready to buy the ring and invite the lady to name the day.

Alas, too, in these days of the higher cost of living, Joe's college course, and awkwardly inadequate allowances from father, a fellow in his early twenties is rarely in a position to clinch matters thus. Yet how badly he longs for a young person, upon whom he has elected to cast a favorable eye, continues to treat him as a mere walking stick?

His masculinity is continually affronted. By all the past traditions of his sex, she is "his girl." It galls his very soul to know that Joe and Fred and Charlie are exactly the same, footing as himself with the lady. She laughs, she says:

"Sure I like you. Why certainly I like you better than Fred or Joe. But really, dear boy, you cannot expect me to devote my time exclusively to you—under the circumstances. Why should I?"

Bob says, "You know the circumstances very well. You know I am willing to sacrifice everything I have for you. I will give up all my time for you. I don't want to go out with other girls."

All-Silk Hosiery

One of the best events in the city is the Golden Anniversary! Light service hose of fine quality, in Blonde, French Nude, Rose, Pale, Maltese, and Rose Taupe, very specially made, and all perfect, of course.

GRAFT CHARGE
QUIZ NEAR ENDGrand Jury About Finished
With Sweeney StoryFew Remaining Bits Will be
Supplied TodayMany Named in Accusations
Appear Voluntarily

Investigation of alleged graft and corruption among certain city officials, made by Edward E. Sweeney during his trial on charges of having stolen approximately \$200,000 from the Southern California Gas Company, was virtually finished by the Los Angeles county grand jury yesterday during a session that lasted until 5:30 p.m.

After the testimony had been heard the grand jury adjourned until tomorrow with the understanding that the few remaining bits of evidence needed to complete the case will be obtained by investigators meanwhile and prepared for presentation.

These facts, it is understood, came chiefly of auditor's figures and testimony taken from Sweeney's trial tending to account for the funds which Sweeney is accused to have appropriated from the gas company while he was employed as land and tax agent.

Sweeney now is in San Quentin prison serving a sentence of two to twenty-four years.

Witnesses who appeared before the grand jury yesterday voluntarily to defend themselves against Sweeney's charges were A. B. MacBeth, president of the Southern California Gas Company; Dave Carroll, minute clerk for the City Council; L. K. Whitehead, assistant City Attorney, and Bert Farmer and R. R. Blackburn, former City Councilmen. Also Frank, former manager of the Alexandria Hotel, testified Monday regarding entertainments Sweeney gave in that hostelry.

BOARD ASKS
\$10,000 FOR
DAM 'LOBBY'Money Wanted to Assist
Boulder Legislation to Get
Through Congress

The Board of Water and Power Commissioners yesterday asked the City Council for an appropriation of \$10,000 from general funds for lobbying the passage of Boulder Dam legislation by Congress. The term "lobbying" was not used in the board's request. It asked for the money "to be expended for the purpose of facilitating the procuring of legislation providing for the construction of the Boulder Dam project."

The Council made an appropriation of \$10,000 last year for this kind of work, which includes expenses of persons at Washington to lobby for the dam legislation. The request for the \$10,000 was sent to the Council's Finance Committee.

An appropriation of \$40,000 for the water and power department "to be expended for publicity and advertising in behalf of the municipal water, light and power utilities of the city" also was before the Council in the form of an ordinance authorizing the expenditure. The money has been set aside in this year's city government budget. The ordinance is necessary to put the money into the hands of the water and power department.

Councilmen Martin and Webster asked so many questions as to how this \$30,000 is to be spent, as to who is to have charge of the expenditure and approve them, that the ordinance was finally sent to the Council's Water and Power Committee for a report.

LIGHTS REQUESTED
Mrs. Frank L. Warren and other property owners yesterday petitioned the City Council to install ornamental lighting posts on Spaulding avenue from Twelfth street to Pico Boulevard.

Funeral Rites
Arranged for
McFarlandFuneral services for R. Norton
McFarland, 72 years of age, who died
of heart disease Tuesday, will be
conducted at the Ruppe funeral
chapel, 980 West Washington street,
tomorrow at 10:30 a.m. The sermon
will be read by Dr. Little, district
superintendent of the Nazarene
churches. Interment will be in the
Inglewood Park Cemetery.

Before coming to California Mr. McFarland resided in Cleveland, where he was owner of the McFarland Art Galleries. For the past twenty years he has made his home in California. Since coming to Los Angeles he has been employed with the Frank Melins and Kitchens realty companies, later turning his ability to the construction of art bungalows and small houses.

He leaves his widow, Sarah L. McFarland, and two daughters, Misses Grace and Blanche McFarland.

**Milton Sills to
Referee Debate**

With Milton Sills, screen player, presiding and many motion-picture celebrities in attendance, the debate team of the University of California at Los Angeles will meet the team of the University of Sydney, Australia, at 8 o'clock tonight in a forensic contest in Millspaugh Hall Auditorium.

The subject of the debate will be "Resolved: That the world would be better off without motion pictures." The Australians supporting the affirmative side, and the local debaters the negative side.

SUNDAY LABOR SOUGHT
The Board of Public Works yesterday asked authority of the City Council to employ street maintenance forces on Sundays in order to repair downtown alleys, as the alleys cannot be repaired on week days.

MISS GUINAN
FIGHTS BACK
AT THEATERLoew's State Asked to
Pay \$25,000 for Services;
Accounting Expected

Texas Guinan, night-club hostess, who recently was sued by West Coast Theaters for her asserted failure to keep a contract, calling for her appearance at Loew's State Theater, yesterday retaliated by filing an action against the theater company asking for \$25,000.

Miss Guinan asks the sum on the ground it is due her for services rendered between the 11th and 18th inst., and she also charges the defendant received money from the general public for her "use and benefit," which has not been turned over to her.

The litigation between the actress and the theater company was sued Miss Guinan for \$1500, charging that she "walked out" on the Loew's State Theater contract. Miss Guinan reported at the time that she was suffering from laryngitis and was ordered by her doctor to refrain from talking lest she lose her voice altogether.

Miss Guinan's suit yesterday was interpreted at the Courthouse as meaning that she expects to obtain an accounting from the theater company for whatever funds were received at the box office during the time she was under contract to appear at the theater.

Her complaint was filed by Attorney Roger Marchetti.

FACULTY CLUB TO MEET
M. C. Leves, vice-president and president of the United Artists, will address a dinner meeting of the Faculty Club of the University of Southern California tomorrow evening at 6:30 o'clock in the Student Union on the Trojan campus. "Motion Pictures: Are They an Art or a Business?" will be Mr. Leves's topic. This is the first dinner and program of the club this year.

BRYAN FOY GOING TO NEW YORK

Broadway Stage Folk to Appear in Vitaphone Shorts;
M.-C.-M. Signs Noted Stage Director for Talker;
Fred Thomson Slated To Go With Fox

BY GRACE KINGSLLEY
Bryan Foy will leave early next week to take charge of the Vitaphone plant in Brooklyn, N. Y., for the Warner Brothers.

It is there that the short subjects will be made, since the Hollywood studios are so crowded with companies making feature length talkers that there is practically no room for the short subjects, while the Brooklyn studio lends itself admirably to their construction.

Several series of talkers, one and two-reelers, will be made there, all under Foy's supervision. He will spend six months in the east and then come west again.

"We can draw from the New York stage for the casts for these subjects," said Foy, "and we expect to use several popular teams. There will be some short star pictures, too. It is quite likely that we shall secure W. C. Fields for one series. A team that I expect to use in one series is Claire Whitney and Robert Emmett Keane, who have lately been appearing in vaudeville. Miss Whitney was formerly a Fox star.

Incidentally, it is quite likely that Bryan's little brother, Eddie Foy, Jr., will appear later in talking pictures. At present the youngster is playing in vaudeville with four of his brothers and sisters, but he will have finished this engagement after a few months. He is said to be a sensation in "The Queen of Kings" at the Warner feature starring Texas Guinan, Metro-Goldwyn-Mayer lately walked his services, and he had other offers as well, but necessarily had to finish his vaudeville contract.

De Angelo With M.-G.-M.
According to recent announcements from Metro-Goldwyn-Mayer, Carlo De Angelo, New York stage director, has been signed by that organization to direct "The Casino Gardens," a short length all-talking and sound production.

The story, with the colorful play of a Harlem dance hall as a background, was written especially for the screen by Kenyon Nicholson, who knows the neighborhood.

George Grandee, known in musical comedy on New York's Broadway, has one of the leading roles, while others in the cast are Crispin Hale, Monte Collins, Jr., Guy Oliver, Raymond Keane and Benny Rubin, well known musical leader from the Hollywood Egyptian Theater. All members of the cast play musical instruments.

Fred Thomson With Fox
If nothing unforeseen prevents, Fred Thomson will sign with Fox for westerns when he returns from Europe, which it is expected will be within a few weeks.

It is known that Fox has long been desirous of signing up Thomson, and, according to a source that is not to be doubted, the star will become a Fox luminary at last. Of course, his famous horse will get a contract, too.

Numerous attempts have been made to fill Tom Mix's shoes since Mix left, but so far unsuccessful. Thomson seems to be the logical one, as his popularity is tremendous.

James Leavitt to Europe
James Leavitt, who has spent many years making westerns for Universal, is going high-brow. He departed last night for Europe, where he will make two pictures for Universal.

The pictures in question are Arthur Somers Roche's "Fallen Angels," and Max Marcin's "House of Glass."

Leavitt will make his headquarters in Berlin, with interiors to be filmed at the UFA studios in all likelihood, but he will use other continental locations, including Paris, and possibly Rome, for exteriors.

It is likely that only European actors will be engaged, as he has been given power to select his cast abroad.

Jane Winton In It
Jane Winton has just signed a contract with Fox to play a leading feminine role opposite Victor McLaglen in his new Fox starring vehicle, "Captain Leah," which Jack Blystone is directing.

Claire Windsor has the principal feminine lead, and Clyde Cook is featured in a comedy role.

Miss Winton, formerly of the Follies, is brushing up her dancing, as she will have some stepping to do.

Estelle Taylor Sees
Estelle Taylor should be at home any day now. Her trunk has already arrived, and though nobody connected with her domestic message has any definite information as to the time of her coming, it isn't likely that she will be with any pretensions to fashion to be long separated from her.

In the meantime, Estelle's pet parrot is ill with pneumonia, and is being subjected to steam baths every day.

Eric Kenton Directs
Eric C. Kenton, who is responsible for "The Street Illusion," and more recently "Nothing But Wear," has been given the directorial reins and carte blanche as to production plans for "The Side Show."

Kenton spent the last two weeks with Sells-Floto Circus, traveling with it, living with it, and getting

used to the life. He is now in the cutting-room and will be released in the near future.

JUNE COLLYER'S TRIP
June Collier is enjoying a visit from her parents and, unless something unforeseen happens, she may probably accompany them back to New York. Miss Collier has been very busy at Fox studios for the past few months and may be allowed a vacation to cover the trip.

Her latest vehicle, Raymond Caglion's "Husbands and Liars" is now in the cutting-room and will be released in the near future.

SHAKESPEARE AND FROLIC
The regular meeting of the Shakespeare Study and Dramatic Club will be held in their club rooms, 642 South Bernardo street, this evening at 8 o'clock. Reading of "Coriolanus," directed by Eric Mayne, Shakespearean lecturer and actor, will be continued. ENDURING AS LAKE CHELAN

Prove CYCOL yourself—
you'll find it has "endurance
beyond belief"

Stability The new Cylcol will stand the hardest kind of usage. It is refined to meet the severest conditions of heat and pressure developed by the modern high compression engines, assuring you an unbroken oil film where heat, pressure and friction are greatest.

No Acids The new Cylcol refining process eliminates the use of acids, though most refiners use them. While acids clear the "crude oil" they chemically change its structure and composition, thus seriously cutting its lubricating value.

Such oils break down under engine temperatures. They distill off and escape as vapor through the breather exhaust.

The new refining process of Cylcol selects from the "crude" those elements of greatest lubricating value and stability in performance, rejecting those elements which readily break down under engine heat and cause excessive carbon deposits.

So Cylcol gives a protective oil film on cylinder walls and moving parts, not vapor at the breather pipe.

Less Carbon As to carbon, Cylcol like all oils deposits some carbon. But it deposits less carbon than any other oil. The most exhaustive tests have proven that statement.

Even more important, the carbon that is deposited by Cylcol is soft and easily removable. It is not hard or sticky and cannot scratch a cylinder.

Prove it yourself Cylcol gives you the finest results you have ever known—more perfect lubrication, "endurance beyond belief" and the elimination of carbon troubles.

So fill your crank case with Cylcol. You can identify it by the new transparent green-gold color. Sold wherever the Associated Gasoline and Cylcol Motor Oil signs are shown. ASSOCIATED OIL COMPANY, Refiners of

"All streets paved with concrete"

This statement is a real advertisement is the home assurance that the property is by good-looking, durable, modern paved streets.

Streets paved with Portland cement concrete stay smooth and for traffic in any weather.

There were more concrete streets built during 1927 than any other type. There's a reason for it.

Information awaits your request

BILLIE DOVE
"THE NIGHT WATCH"
SEE! HEAR! CHIC SALE on Fox

King of Kings' Cecil De Mille's production of the story of the two years of the life of Christ, today at the Criterion Theatre, is a historical picture will be prominently throughout its run at film already has been lauded by the representatives of the church. It is attended a special pre-view of the picture yesterday morning according to report.

King of Kings' is notable for its lavishness and the scenes have been set for the faithful reproduction of many notable episodes of history, as to accurate presentation of both locales and events.

Extraordinary interest is said to be shown by writers of the world in the premier of "Noah's Ark" at Grauman's Chinese Theatre on November 1, because of the fact that the picture is claimed, in its preparation of story and working script than any other "superproduction" in the history of motion pictures.

The scenes were directed by W. B. Griffith, assisted by W. W. Brothers, Anthony Goldsworthy, given the original story upon which Darryl F. Zanuck was the author. He had worked for more than a year according to the reports, and he relieved of his editorial duties to concentrate on this one scenario several months. It was considered of such "vital importance" by the studio that this movie was deemed indispensable.

In writing the script Goldsworthy worked in almost daily contact with the writer of the story.

PASADENA SHOW PROVES EXOTIC

Floral Exhibition Styled Finest Yet Given

Sweepstakes Awarded to Display of Orchids

Numerous Honors Allotted for Exquisite Products

PASADENA, Oct. 24.—Pasadena's exotic gardens came to life today within a great tent located on the Civic Auditorium site as the Southern California Flower Show opened amidst a blaze of autumn blooms.

Following an inspection of the exhibits by the sustaining committee of the Pasadena Horticultural Association, sponsor of the show, the judges announced that the show sweepstakes had been awarded to Armacost & Royston of Sawtelle, for their \$30,000 exhibit of orchids. The same firm also won first prize in the indoor-grown roses class.

Mrs. J. M. Manner of Altadena took first place for the best rose of roses, while the American Rose Society silver medal for a new American seedling was won by E. F. Thon of 233 South Rosemead street.

The South Pasadena Garden Club took first prize in the club class, while the Diggers' Club of this city took second and the garden section of the Shakespeare Club won third place in the same competition.

The Persian garden of the South Pasadena-Garden Club, the Italian landscaping of the Diggers' Club entry, the background of the Pasadena Garden Club and the Persian style of the Shakespeare Club attracted large groups of spectators.

Gustav Liljenwall, president of the Pasadena Horticultural Society, who for five years has managed the annual fall exhibition, stated tonight that this year's exhibition is "far better from every standpoint than any previous Pasadena flower show."

Other awards announced tonight included: Sweepstakes award to amateurs, Mrs. L. W. Gentry of Altadena, rose of dahlias; most artistic basket for amateurs, Mrs. J. C. Brander, first prize for basket of dahlias; best thirty-six blooms in twelve varieties for private growers, J. R. La Follette of Whittier; best six white blooms in private growers' class, Mrs. J. M. Hixon of Pasadena.

The Southern California Flower Show will be open daily from 10 a.m. to 10 p.m. until Saturday night.

Southland Now Leads World in Training Lions

EL MONTE, Oct. 24.—There are more lions in Los Angeles county than they saw in all of Europe, Mr. and Mrs. Charles Gay, proprietors of Gay's Lion Farm, here, said today upon returning from a six-months' tour abroad.

With 147 jungle monarchs at the lion farm here and the collections at Selig's Zoo, Al Barnes Circus winter headquarters at Buena Vista Park, and the various motion-picture zoos around Los Angeles, this one county has a larger number of "cats" than the entire continent of Europe.

The Gays toured England, France, Germany and Belgium visiting all the famous zoos, including Hagenbeck's in Germany, hoping to pick up some pointers for use in their establishment. Instead they found that they were the teachers and that Southern California is beginning to be recognized as the headquarters of the wild animal training industry.

Arcadia Woman Ends All in Bay

HUNTINGTON BEACH, Oct. 24. Mrs. C. H. Buefing, 60-year-old Arcadia woman, is dead here, the result, authorities declare, of suicide. After swallowing a bottle of poison some time last night she hurried herself from the Pacific Electric train, joining Long Beach and Seal Beach over Alhambra Bay, it is asserted. Seal Beach police recovered the body by rowing to the outer channel.

The woman's husband had reported his wife missing to the Arcadia police. Seal Beach police learned a note saying: "Good-bye to all," had been found by the husband, who declared that the woman had made an attempt to end her life a week ago. The body is at the Dixon undertaking establishment here.

TEA ROOM TO BE OPENED

Huntington Estate Plans Convenience for Public Visiting World-Famous Center of Art

SAN MARINO, Oct. 24.—For the convenience of the increasingly large number of visitors to the Henry E. Huntington Library and Art Gallery, a tea room will be opened on the beautiful Huntington Estate on or about November 1, it was announced today. The tea-room will be located between the art gallery and the exotic Japanese gardens and will, it is said, afford patrons a view of the 307-acre fairy land.

The tea room will be open from 2:30 to 4:30 p.m. on exhibition days. Twenty-five acres of the gardens are now open to the public and the entire acreage in the Huntington foundation will be developed with rare trees and flowers.

Due to the fact that in sunny weather visitors to the estate spend more of their time in inspecting the gardens surrounding the library and art gallery, there is less congestion in the buildings and officials have decided that during pleasant weather it will be possible to increase

SAWTELLE ORCHIDS TAKE FIRST PRIZE

Miss Dorothy Davis Exhibits some of \$30,000 orchid display which won grand sweepstakes at Pasadena Flower Show yesterday.

HENRY CLARK NEAR DEATH IN ACCIDENT

San Diego Contractor's Car Gets Out of Control on Steep Hill

SAN DIEGO, Oct. 24.—With his car out of control and dashing down California street at seventy miles an hour today, Henry D. Clark, 34 years of age, a San Diego building contractor, was thrown from the speeding vehicle resulting in injuries which police say may result fatally.

Clark was thrown clear of the car when it reached the base of the hill in its mad dash. The victim was hurled against a telephone pole. The car sped on, struck a parked car and motorcycle and halted against a twelve-inch curb more than 100 feet from where Clark was thrown.

A hasty diagnosis of Clark's condition made by Hospital Steward R. F. Fleming and County Hospital physicians revealed that the man was suffering from internal injuries, a possible broken back, bruises and shock. Both limbs of the victim were paralyzed in the crash.

Clark, in a moment of consciousness, said he ran out of gasoline when his car almost reached the summit of the hill. He turned the vehicle around and it got out of control while descending the decline. It veered around and when near the base of the hill was traveling at a terrific speed, Clark said.

School Absence Brings Sentence

ANAHEIM, Oct. 24.—Because his 14-year-old daughter stood in head of her class in school, C. Ter Masten, rancher living four miles west of Anaheim, today informed Justice Charles Kuehl of Anaheim that he saw no reason why the girl should continue her studies. Ter Masten had been summoned into court to explain why his daughter was being prevented from attending her class.

The court sentenced the rancher to five days in jail, and then suspended sentence.

REDLANDS CHINAMAN RETURNING TO CHINA

REDLANDS, Oct. 24.—Nim Mong is going back to China. He is going back to his two daughters, one of whom is 50 years of age, and the other a bit younger, going back to his last few years in the land of his fathers, and to be buried with his ancestors. He has not seen his girls in more than forty years.

Nim Mong has not been well. Chinese doctors have not been able to cure him of a cold that has hung on 50 years. He bought his ticket, packed his things, went to see his friends and told them "bye, me go back to China." He has been here forty years, coming when there were many Chinese in Redlands, and he is just about the last. Nim is a gardener, and a good one.

FULLERTON MAY ACT ON RECALL

Attorney Retained to Head Immediate Movement

Three Councilmen Named as Objectives of Ouster

Union Oil Group Franchise Bone of Contention

FULLERTON, Oct. 24.—The specter of a recall move reared its shadow over this city today with the announcement that Attorney Florence Head of Santa Ana has been engaged to prepare petitions for the recall of Councilmen W. B. Foster, O. A. Kreighbaum and J. S. Elder.

According to J. P. Des Granges, leader in the recall move, the three officials are charged with voting a franchise for the Union Oil Company against the wishes and the best interests of the majority of residents of Fullerton. The franchise is for construction of a combination water and gas installation from water-bearing gravel south-west of Fullerton to 4000 acres of land to the north. Fullerton, where the company admits it proposes to develop citrus culture.

The franchise was passed last week over the vote of two Trustees and the opposition of a group of residents of the city who attended the Council meeting. Those opposing the move declare that the proposed water development would lower the level in the lower valley and jeopardize the water supply of both Fullerton and Anaheim, in addition to that of thousands of acres of citrus land already under cultivation. Des Granges said that the petitions will be circulated as soon as prepared.

Train Whistle Blowing Scored

AEUBA, Oct. 24. Backed by irate citizens who declare that the train whistles while the trains are traveling through the city, is obnoxious and nerve racking, a committee of five men representing the Chamber of Commerce presented their complaint to officials of the Santa Fe Railroad Company during a conference today noon, according to E. E. Elders, secretary of the chamber.

R. H. Tuttle, division superintendent, of San Bernardino, answered that the continuous blowing of whistles while trains are traveling through the city is made necessary by motive power and used wig-wag signals. Tuttle cited the recent accidents in Monrovia, which cost two lives and further stated that there was no reason for the so-called "obnoxious noise." However, he said he would present the matter before other executives for consideration.

Typical Co-ed Has Long Hair

PASADENA, Oct. 24.—Miss Elizabeth Woolley, 18-year-old blonde with long hair, of this city, has been selected as the typical University of California co-ed. It was learned from the fact that she states Hamilton Wolf, member of the faculty of the art department of the university, who says that, after an extended search for the "typical co-ed," he selected this blonde freshman who is 18 years of age, is five feet five inches in height, weighs 110 pounds. She is also a "typical" blonde with blue eyes, golden hair—long, not bobbed—dancing smile, with teeth of pure white, and perfection of contour.

Miss Woolley is the daughter of Mr. and Mrs. George W. Woolley, 350 South Main street. Her father was for years a publisher in Illinois, and her mother is a graduate of the University of California. Mr. and Mrs. Woolley and their little daughter, as she was then, came to Pasadena about fifteen years ago. The daughter was born at Evanston, Ill.

Republicans of Montebello Set

MONTEBELLO, Oct. 24.—George H. Wilber, vice-president of the Sixty-ninth Assembly District of the Republican Central Committee, announced today that the Republican campaign organization has been completed here and work is under way. A complete check is being made of all precincts, literature distributed and the various political programs broadcast. Headquarters have been established at 428 Whittier Boulevard, and the office is in charge of Mrs. Susannah Cheney. Wilber is also in charge of the Belvedere Gardens' Republican headquarters at 4422 Whittier Boulevard.

SHERIFF'S OFFICE SEEKS LOST BOY

CHARLES HAMAN'S MOTHER PROSTRATED BECAUSE OF ABSENCE

VENTURA, Oct. 24.—The Sheriff's office is seeking trace of Charles Haman, 16-year-old Santa Paula boy, who disappeared from his home the 18th inst. without letting his mother know he was leaving or communicating with her since that time. His mother, by his absence and fears that some disaster has befallen him. The boy is suffering from tuberculosis, and has been despondent over his condition, according to information given the Sheriff's office.

ZONING IN POMONA TO GET START

Council Forced to Act by Threat of Citizen Denied Building Permit

POMONA, Oct. 24.—After ignoring the efforts of the City Planning Commission for several months and having repeatedly refused to appropriate money which would enable that body to go ahead with a comprehensive zoning program for the city, the City Council today accepted the commission to obtain expert advice as a preliminary step in the working out of a zoning ordinance that would embrace the entire city and bring order out of the present chaos.

At the present time, the only weapon the city has had against miscellaneous and undesirable construction is an old fire-zoning ordinance, construction of flimsy structures outside of this district having proceeded at an alarming rate.

The council was spurred to action today by the assertion of W. C. Davidson that he would proceed to build a \$300, 12 by 12-foot store on his residence property between Gordon and Park avenues on the south side of this district, regardless of the fact that the Council had turned down his application for a building permit. Whether the fire ordinance will prevent the erection is to be decided tomorrow at a conference between Davidson and City Attorney J. A. Allard, Jr.

South Bay Folks Seek Bus Line

REDONDO BEACH, Oct. 24.—A move which would give the South Bay District fifty-minute bus service to and from Los Angeles was launched by traffic and business representatives here today in a petition of support for the proposal of the West Coast Rapid Transit Company to connect with buses of the Los Angeles Railway Company at Inglewood.

Citizens are being asked to inquire the plan and order that the Los Angeles company can be assured of enough patronage from the South Bay District to warrant the expenditure of the two-coach type of bus necessary to adequately handle the traffic. They would operate on schedule between the West Coast terminals at Inglewood and Fourth and Hill streets, Los Angeles.

JINX PURSUES FAMILY

Every Member in Recent Accident With Father in Second Mishap

ONTARIO, Oct. 24.—Add another chapter to the life of a family that has been plagued by a jinx, a recent accident here. Within the past few months every member of the Caldwell family met with an accident. Today it was learned that First Caldwell broke his arm. Then his son did the same thing. Next his wife and daughter were killed in a car accident. Today it was learned that Caldwell is in a critical condition in a Whittier hospital where he was taken after he fell from an oil derrick in the Brea oil field.

FOUR GENERATIONS MEET

HAWTHORNE, Oct. 24.—Four generations were present at the celebration of the eighty-third birthday anniversary of Mrs. E. J. Walters of this place yesterday. They were Mrs. Walters, her daughter, Mrs. E. T. Gray of Gardena; Mrs. Gray's daughter, Mrs. Edna Haddock of Long Beach; and her sons, Ovid and Robert Haddock.

BOILING GLASS RUNS WILD

Val Cracks, Permitting Tons of Fiery Liquid to Start Flowing Through Factory Until Firemen Use Cold Water in Chilling Mass

LONG BEACH, Oct. 24.—For four hours this morning hundreds of tons of molten glass at a temperature of 2500 deg. Fahrenheit poured from a crack in a furnace at the Long Beach Glass Company plant, 1501 Daly avenue, while firemen hurried to the scene in an effort to cool it and stem the flow. Before the task was completed damage estimated at \$10,000 was done to the glass factory, the damage being confined for the most part to a giant vat and a pit below it.

The leak in the vat was first noticed shortly before 4 a.m. and it was after 7:30 when firemen

PILOTS TO USE ROCKWELL BASE

Government Authorizes Use of Field by Airmen

Shoenhair and Guglielmi After Endurance Record

New Try to Start Friday if Weather is Right

SAN DIEGO, Oct. 24.—Authorization for Lee Shoenhair and John Guglielmi, air-mail pilot, to use Rockwell Field as a base for their attempt to break the world's sustained-flight record, now held by Germany, was received today by the aviation department of the Chamber of Commerce from the War Department. Maj. Albert Sneed, commander of Rockwell Field, previously had given his consent.

The aviation department of the Chamber of Commerce also was advised by telegram today by the National Aeronautics Association that Shoenhair and Guglielmi will arrive here by air mail from Washington tomorrow.

Shoenhair, a reserve army aviator and former flight instructor at Rockwell Field, plans to take off about dawn Friday if weather conditions are favorable. His ship, an Albatross monoplane, powered with a Wright Whirlwind engine, was due to make a number of tests at Santa Ana today and will fly here tomorrow morning.

Next Fair to Run on Sunday

ANAHEIM, Oct. 24.—Meeting last night at the county fair grounds, three miles south of here, members of the Orange County Fair Association virtually agreed that the 1929 fair should remain open at least over one Sunday. The policy in the past has been to hold a six-day exhibit, starting on a Monday.

H. A. Lake, president of the association, reported that the receipts for the 1928 fair were in round numbers \$30,000 and the expenses \$27,400. He attributed the deficit to a slight lull in business conditions and to competition with another major exhibition, which was closing in a neighboring city.

Mrs. J. V. Kelley of Garden Grove, George Kellogg of Orange and S. W. Stanley of Tustin were re-elected on the board of directors. Dr. W. H. Wickett of Fullerton was elected to fill the unexpired term of Ralph McFadden of Placentia, resigned.

The new board will meet at the fair grounds the evening of November 1 to reorganize. No method was suggested to meet the deficit.

'Report' Opens Its New Home

ONTARIO, Oct. 24.—Southern California's latest model newspaper was formally dedicated here today.

The Daily Report, published in Ontario by Cromble and H. L. Allen, and serving the communities of Upland, Chino, Cucamonga, Alta Loma, Glendora, El Rancho and Villa, threw its doors open to the public today, inviting inspection of all departments. The paper might be described as a modern, small town daily newspaper. A souvenir edition of the paper was printed at intervals in order that the visitors could see every step in making the paper.

Painter Dies After Crash

SANTA ANA, Oct. 24.—O. J. Farmer, 70 years of age, local painter, is dead, and Howard Barker, 14, of 448 West Walnut street, is being held in the juvenile home for investigation, following an accident at the intersection of Second and Main streets yesterday.

An ice truck, driven by the boy, struck a bicycle which Farmer was riding east on Second street as the truck approached the intersection. Barker was thrown from his bicycle and died in an ambulance while being taken to the Santa Ana Valley Hospital.

HOSPITAL ASSOCIATION SEEKS TAX EXEMPTION

SANTA BARBARA, Oct. 24.—A resolution instructing President G. W. Curtis of this city to name a committee to urge the California Legislature to enact legislation exempting nonprofit hospitals of the State from taxation was adopted last night at the monthly meeting of the Southern California Hospital Association.

The association is composed of superintendents, assistants and other connected with the administration of hospitals in Southern California. Fifty-four persons attended the gathering, representing twenty-four hospitals.

VALLEY CHAMBER TO TAKE NEW QUARTERS

VAN NUYS, Oct. 24.—Following a meeting of the board of governors of the San Fernando Valley branch of the Los Angeles Chamber of Commerce it was decided to remove the chamber's quarters from the Allington Building on Van Nuys Boulevard to the B. R. Holloway Building on Elysian street. Crowded quarters necessitated the change. At the meeting yesterday it also was decided to remove all no-parking signs on side streets and on Van Nuys Boulevard north of Hamilton and south of Calvert streets. This question will be taken up with the police and traffic officials.

DEBATING TEAMS CLASH AT POMONA

NAME	ROST	M.C.	SCORER
LANCASHIRE WHITE	W. E. SULLIVAN		
W. E. SULLIVAN			
ROBERT ROSS	NORMAN NELSON		
NORMAN NELSON			

CLAREMONT, Oct. 24.—When an appreciative audience of students and townspeople, the Pomona College debating team met the University of Sydney tonight in a brilliant display of forensic skill and stimulating wit.

The subject for debate was: "Resolved That Scientists Should Take a Ten-Year Holiday." Many interesting and clever angles of this subject were brought out by the talented men, the Australians taking the affirmative side of the question and Pomona the negative.

Although there was no decision at the end of the debate, most of the audience seemed to be of the opinion that the Australian speakers gained a slight edge over the local men by their experienced manner and gifted flow of speech.

Pomona was represented by a trio of well-prepared speakers: Earl Ross, Laurence White and Earl Bodt, while the University of Sydney team was composed of M. G. Goddard, W. E. Sullivan and Norman Nelson.

Boy's Assaulter Asks Probation

VENTURA, Oct. 24.—Mary Fleming, negro, pleaded guilty to a charge of assault with a deadly weapon before Judge Edward Anderson in Superior Court and petitioned for probation. She is charged with shooting Henry Qujada, 14-year-old son of Domingo Qujada, city water employee, through the arm, following a neighborhood row on August 1.

She will appear again Monday morning for a hearing of her probation petition and to hear pronouncement of judgment. She pleaded not guilty to the charge when her case was heard in the Justice Court, but, upon the advice of her attorney, Merle J. Bogue, changed her plea today. The original charge was assault with a deadly weapon with intent to commit murder.

CADMAN WILL ASSIST CANTATA PRODUCTION

INGLEWOOD, Oct. 24.—Charles Wakefield Cadman, internationally known Southland composer, will be present and assist in the production of his latest cantata, to be given at the Union High School here tomorrow evening. Six voices and a chorus of sixty-five voices will be heard under the direction of Robert Bartholomew of the Inglewood Community Chorus. "The Father of Waters" is the title of the presentation.

HIGH SCHOOL PUPILS ORGANIZE FOR DEBATE

GARDENA, Oct. 24.—Student orators, representing high schools of Gardena, Torrance, Jordan, Bell and George Washington High School, met here last night organizing the Marine Debating League, under the direction of Miss Cary Bertrough. "Farm Raiser" is the topic chosen for the first debate.

ALHAMBRA ELKS Preliminary Meeting Held in

Raising Necessary Funds

ALHAMBRA, Oct. 24.—A campaign was launched here last night by the Alhambra Elks lodge, under the leadership of Fred H. Herman, chairman of the general committee, at a dinner attended by several hundred guests. Talks were made by L. W. B. Company; Frank L. Riddle, Elks lodge campaign director, and others.

The plan of the campaign is to sell trust certificates in \$100 units, with the First National Bank of Alhambra acting as trustee. The Elks Holding Company now owns 160 feet of frontage at the corner of Alhambra and Main streets and it is proposed to erect the new building on the inside 100 feet.

The structure will be three stories high.

HIGH LIGHTS IN HISTORY

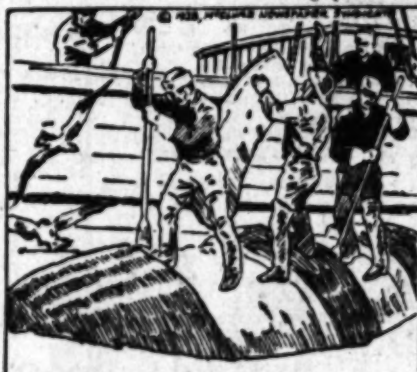

1168

The Story of American Industry. Whaling (Part Three)—Cutting Up and "Trying Out".

by J. CARROLL MANSFIELD

AFTER A SPERM WHALE HAD BEEN KILLED, THE WHALING VESSEL PICKED UP THE HUNTERS, AND THE HUGE BULK OF THE DEAD SEA MONSTER WAS MADE FAST ALONGSIDE.

THEN CAME THE HARD AND DISAGREEABLE WORK OF CUTTING UP THE WHALE. THIS WAS DONE WITH KEEN-EDGED "CUTTING SPADERS," AND THE LARGE SLABS OF BLUBBER (THE THICK LAYER OF OILY FAT BENEATH THE WHALE'S SKIN) WERE HOISTED TO THE DECK.

ON THE DECK OF THE WHALER, JUST AFT THE FORECAST, WAS A BRICK KILN CONTAINING THE GREAT "TRY POTS," IN WHICH THE BLUBBER WAS RENDERED TO EXTRACT THE OIL. THIS PROCESS WAS CALLED "TRYING OUT." SOME WHALES YIELDED MORE THAN A HUNDRED BARRELS OF OIL.

THE OIL WAS PUT INTO BARRELS AND THE WHALES BEGAN. SOME OF THE WHALES BECAME THREE YEARS OLD BEFORE THEY WERE TURNED TO OIL AND WHALEBONE.

DEFENSE HOLDS PILING TREATED

in Diego Pier Damage Suit
Asks for \$320,000

Company Declares Substitute
Good as Creosote

Experts Report on Terebo
and Preventives

Testimony for the defense is now being taken in the \$320,000 damage suit brought by the Crystal Pier Amusement Company of San Diego against Emil Oyler, Frank Schallmeier and Paul Honberger, known as the California Creosoting and Timber Company, now on trial before Superior Judge Ambrose.

The action is the one wherein the plaintiffs assert the defendants company failed to treat the piling of the dance pavilion pier at San Diego Beach with creosote as a preservative as agreed in a contract.

In their defense the defendants admit that creosote was not used, asserting that the piling was given a treatment of creosol, composed of cresylic acid and crude oil, which, they assert, is just as good as creosote.

Experts testifying last week for the plaintiffs declared that the only known preventive against the teredo and other marine pests up to the present time, is creosote.

The amusement company asserts that as a result of the negligence of the creosoting company to use creosote on the piling of the pier, the marine borers has undermined the structure to such an extent that the pier and pavilion will have to be raised and rebuilt.

One of the interested spectators in the trial, who may be called to testify, is C. M. Kerr, field engineer of the American Wood Preservers' Association.

It was erroneously announced several days ago that Attorney Arthur M. Ellis, is representing the defendants in the trial of the case, to withdraw from the case before the trial began and was replaced by Attorney Victor Ford Collins and Stanley Guthrie. The plaintiffs are represented by Attorneys Cooper and Collins.

Awning Shoppe Owner Divorced by "Millstone"

Leonard C. Williams, owner of the Awning and Oxford Awning Shoppe, often told his young wife, Beatrice Williams, she was a fool. Time and again he said she was a millstone around his neck, according to her testimony at the hearing on the petition for a divorce yesterday.

Through her counsel, Attorney Griffith Jones, Mrs. Williams asked for a divorce on the grounds of cruelty which was granted.

Mrs. Williams declared she tried to be a good wife.

During the hearing Attorney Milton Silverberg appeared on behalf of the husband and presented the court with a property settlement made out of court which was approved.

VERDUGO CLUB WILL HAVE MEAL OF TROUT

Members of the Verdugo Woods Breakfast Club will partake of rainbow mountain trout tomorrow morning at the regular Monday function. The trout will be furnished by Mayor MacBain of Glendale, president of the organization.

The main speaker will be Don Thomas, executive secretary of the 10-Year Club of Southern California, whose subject will be "America's Greatest Neglected Industry." Entertainment will be furnished by Bob and Monte, Maurice Sharp and Wilda Bernard, as well as Harold Lieberman and his orchestra. The program is broadcast each Friday over KJL at 8 a.m.

BODY OF GIRL BABY FOUND IN CEMETERY

The body of a newly born girl baby was found in a woman's vanity case yesterday morning by a man walking through Evergreen Cemetery. He reported his find to Detective-Lieutenant Stephen and Edwards of the Boyle Heights Division, who are making an investigation. The body of the baby was taken to the County Morgue, where an autopsy showed it had been smothered to death.

LANGUAGE GROUP TO MEET

The Modern Language Association of Southern California will hold its fall meeting next Saturday at the University of California at Los Angeles. In the morning there will be section meetings, and after luncheon at Newman Hall the association will be addressed by Prof. Jean Gontard of U.C.L.A. faculty, who will discuss "The European Journal of Language Matters."

SANTA FE REQUESTS DATA

Request by the Santa Fe line for data and maps on the proposed permanent right of way for the railway into the harbor district was referred to General Manager Cole yesterday. The weekly progress report of the general manager, showing the exact status of the right of way plans on which bids will be opened shortly, was read and filed by the Harbor Commission.

PORT WORK APPROVED

Permits for six construction jobs by concerns at the harbor which span a total outlay of \$102,800 were granted by the harbor board yesterday as follows: Hancock Oil Company, three oil tanks at rear of Berth 215, \$70,000; same concern, bulkhead at rear of same berth, \$1200; California-Hawaii Sugar Refining Corporation, steel molasses storage tank at Berth 234, \$22,000, and alterations to steel tank at same berth, \$8000.

DOG CARRIES HIS OWN LUNCH

Spaniel Advocate of Full Dinner Pail

That Noon Whistle Means a Lot to Pardon

RESENT the imputations of those persons who sometimes deprecatingly refer to leading a dog's life, or words to that effect, was indicated yesterday by a dog named Gritton, a spaniel of the West End street, Glendale, and although he can't drive nails and handle a saw, he follows so closely in his master's footsteps on all his jobs that he has become just like "one of the boys."

Every morning when Gritton leaves his home with lunch pail in hand, Pardon trots alongside carrying his own lunch box. He puts it down beside his master's and never presumes to touch it until the proper hour arrives, which is after Gritton has consumed his own. Then Pardon brings out his box, pushes off the cover and polly takes his portion.

Ever since he was three weeks old his master says he has wanted to carry things and since his own lunch box was too heavy for him, a dog named Gritton was provided his early training. Gritton said that he has become so attached to Pardon that he "would rather have him, at any time, than all the money in the world."

That during every night, without fail, Pardon comes three times and sniffs at his face to assure himself that all is well with his master.

PORT MOVES TO OUST AGED SHIPS

Harbor Manager Suggests Bond for Owners to Keep West Basin From Becoming Graveyard for Vessels

Procedure necessary to prevent the West Basin at Los Angeles Harbor from becoming a graveyard for ancient craft, particularly sailing vessels which find the placid waters and convenient embankments a safe and ideal place to berth and pass their declining years, was referred to Assistant City Attorney Victor Ford Collins yesterday for an opinion by the harbor board, at suggestion of President Allen.

General Manager Cole declared that some method, such as requiring owners of the craft to put up a bond, should be enforced to protect the harbor Department against the cost of raising any vessels which might sink or be abandoned by the owners. He said he had received a legal opinion that the city would have to foot the bill for removal of such craft from the inland basin.

The board approved the recommendation of Cole that the United States Engineer's office be notified that it was extremely urgent that the sunken tanker Wahlanaw, of 7500 tons, now lying in the main channel opposite the Park & Kibele lease, should be removed by the government, as Harbor Department property was blocked from use by the sunken vessel, and the wreck is a menace to navigation.

It was reported that Municipal Judge Austin had ruled that the department was without authority to enforce the ordinance compelling fishing large operators to get permits to anchor in local waters. Operators of two largest fishing boats reported on the ground that the ordinance was an unlawful exercise of police power.

Start reported the fishing barges and now tied up in port for the winter and the board, at suggestion of President Allen, will make more stress next spring if permits are issued, and have the cases tried in some other court.

Taxpayer Group Offers Views on Propositions

Indorsement of seven and disapproval of four State propositions on the November ballot were recommended by the California Taxpayers' Association in an announcement from local headquarters here yesterday.

The association recommends the passage of the following proposals: No. 2, \$1,000,000 Olympic bond issue; No. 3, motor vehicle registration fee; No. 4, acquisition of rights of way by the State; No. 10, acquisition of land for public improvements; No. 14, authorization of quasi-public corporations to extend their term of existence; No. 16, stockholder's liability; No. 20, waiting jury trial in criminal cases.

The association recommended the defeat of the following proposals: No. 12, authorizing State aid to needy physically handicapped persons; No. 15, increase in juror's fees; No. 17, \$10,000,000 railroad grade separation bonds; No. 18, authorizing State aid to needy blind persons.

PAVING ORDERED

City Engineer Shaw was yesterday instructed by the City Council to start proceedings for the paving of Eastern avenue from Huntington Drive Valley Boulevard. The improvement was asked for in a 70 per cent property owners' petition.

WANDERER HAS MIND LAPSE

An old man sits in the City Jail today and entertains the inmates with old-time tunes played on a flute. He is not a prisoner, and can leave any time he wishes, but he doesn't know where to go. His name is Francisco Holquin, and he says he is 94 years of age.

Others found him wandering aimlessly in the vicinity of the Boyle Heights Police Station on Sunday night, carrying his flute under his arm. He was unable to remember where he lives, or give any information about his family except that he has a son, Enrique, who works in a laundry. Police are endeavoring to locate his relatives.

OLD CITY HALL IDEAS WILL BE CANVASSED

To determine the best plan for use of the old City Hall and grounds on Broadway between Second and Third streets, the Board of Public Works yesterday took steps to tabulate and investigate all the different plans that have been suggested. O. Brittain, construction superintendent, was instructed to prepare an estimate of the cost of demolishing the two old buildings and individuals who have suggested using the property as it stands for different purposes are being asked to submit definite proposals.

BERTHING ISSUE REFERRED

Permanent assignment of Berth 23 to concerns for the demolition of the San Francisco Navigation Company, which has been using it temporarily, was referred to Controller Edwards yesterday by the harbor board.

COTTON IMPORT AID PROJECTED

Rumor of Fumigating Plant at Port Current

Would Give Foreign Staple Direct Entry Here

Plans Still Embryonic But Expected to Mature

That a vacuum fumigating plant is in contemplation for Los Angeles Harbor, to encourage foreign importation of cotton, is learned from apparently trustworthy sources, although no one will sponsor the announcement officially.

It may be a matter of some weeks before the proposition reaches final stages, it was said, but its ultimate entry is regarded as assured.

At present practically all cotton from foreign ports, with two exceptions, must be fumigated here, or Oakland, due to location of such fumigating plants there. The cotton in turn has to be fumigated on ship there, transported to the fumigating plant, then sent here by ship or railway, entailing material extra expense.

Steamship men, always looking for more cargo, have made cursory surveys indicating many thousands of bales from the Orient would come here direct by ship, were fumigating facilities available. True, maturing and other matters must be here use the foreign cotton in impressive amounts, in mixing with the longer staple from domestic sources.

The plant also, it is said, would find incidental revenue from fumigating second-hand machinery, furniture and the like, and possibly in disinfecting termite-ridden hardwood from Central America and the Philippines, and bamboo, which weevil-infested grasses cling.

Only twice have foreign cottons come to this port for immediate transportation outboard, without requiring fumigation. The second time, yesterday, when 1301 round bale weight, 260 pounds each, came in from Calene, via Guaymas, Mex. on the steamer Washington. It is to be transhipped out immediately, 500 tons going to Belgium and 801 to France.

TERPSICHORE FAIR ARRIVE ON LINER

Los Angeles still can teach Europe and the United Kingdom things about the dance, in the opinion of Captain W. C. Crump, American engineer returning from vacation in Chile.

Dimitryk brought 3500 tons of European cargo to the coast, which 3000 of dolls, coats, pipes and iron are being discharged here, as are 17,000 pounds of a selection of European goods for the United Fruit Company. A swimming tank has been rigged up on the forward deck for the crew.

Capt. Rynick said the Holland America is having two motorships built abroad, each to carry fifty passengers and to run on a schedule of fifteen knots speed to and from this coast and Europe beginning next year.

First of Nippon Yusen Kaisha's three new liners, the Asama Maru, is to be launched at Nagasaki the 20th inst., according to Y. Kimura, local manager. The ship, which will cost \$2,500,000, will be 22,500-ton ship, 300 feet long and an average speed of nineteen knots. Construction features will eliminate vibration and reduce rolling. The Asama Maru will be in service next summer and will be followed by the Tatsuta Maru and the Chikuma Maru.

TRANS-PACIFIC MAIL

Following schedule of sailing is reported by the Los Angeles post-office:

San Francisco, Oct. 27, from Los Angeles. Mail for Hawaii, Japan, and Australia. Mail for Europe and South America. Mail for Australia and New Zealand. Mail for Europe and South America. Mail for Australia and New Zealand.

San Francisco, Oct. 28, from Los Angeles. Mail for Hawaii, Japan, and Australia. Mail for Europe and South America. Mail for Australia and New Zealand. Mail for Europe and South America. Mail for Australia and New Zealand.

San Francisco, Oct. 29, from Los Angeles. Mail for Hawaii, Japan, and Australia. Mail for Europe and South America. Mail for Australia and New Zealand. Mail for Europe and South America. Mail for Australia and New Zealand.

RADIO REPORT

The Radio Corporation of America, in its regular broadcast of shipping news, reported that the ship "San Diego" was expected to arrive in Los Angeles harbor today. The ship was reported to be carrying a large cargo of goods and passengers. The broadcast also mentioned that the ship "San Francisco" was expected to depart for San Francisco today.

UNITED STATES NAVY CRAFT IN PORT

The United States Navy has a number of craft in port at Los Angeles harbor. These include the battleship "USS Arizona," the cruiser "USS San Francisco," and the destroyer "USS Lamson." The ships are currently undergoing maintenance and repairs. The Navy Department has announced that the ships will be ready for service by the end of the month.

WANTS AIDS FETE

The Los Angeles Chamber of Commerce is planning a large fete to raise funds for the construction of a new bridge over the Los Angeles River. The fete will be held on the grounds of the Chamber of Commerce and will feature a variety of entertainment, including music, dancing, and a fireworks display. The Chamber of Commerce is asking for donations and volunteers to help with the event.
